

Grateful to Zam-Buk Tells how a Scratch led to Blood-Poisoning and what followed that!

THEN our Canadian troops were fighting the Boers in South Africa, we read reports of their various engagements from the per of the famous war correspondent, Mr. Frank Scudamore. Mr. Scudamore is well known for his exposures of the Armenian Atrocitics, and Lis vivid word-pictures during the wars of Turkey and the Soudan Campaigns, prior to his writings during the Boer War. He has passed unscathed thro. in twenty-nine battles, but came near meeting death at home through a mere scratch! Zam-Buk, the great herbal balm, saved him; and in gratitule, and the hope that his experience may lead others to a means of relief in time of suffering, he tells how Zam-Bull released him from the terrible agonies of blood-poisoning.

Mr. Scudamore writes :- "I have experienced the extraordinary benefits which come from the use of Zam-Buk, and desire not to keep the knowledge thereof to myself, but to make it known to any others who may be suffering as I suffered.

"Some time ago, after escaping the dangers to which one is exposed in the hazardous trade of war, I fell a victim to an evil-the evil of blood-poisoning-just as deadly in peace at home. The blood-poisoning started owing to the poisonous dye in some underclothing penetrating a small scratch or sore. I was treated by doctors in the usual way, and told to hope for the best, but the inflammation, pain, and swelling did not appear to be relieved by their treatment. Ulcers broke out on my foot and limbs and for some time it was quite impossible for me to put my foot to the ground, or get about

"On my left leg, below the knee, I had seventeen deep holes, into any one of which I could have put my thumb, while I had no fewer; than fourteen similar ulcers on the right leg.

"Worn out with pain and lack of sleep, I yielded in despair at last to the advice of a friend that I should try Zam-Buk, of which my friend gave the highest accounts I applied this herbal balm to the sores and ulcers changing the dressings frequently. For a week I persevered with the Zam-Buk treatment, leaving off all else. At the end of that time the pain and inflammation had gone, and the skin, which had before so obstinately refused to heal, was now growing beautifully. I persevered with the treatment, and the benefit increased, until in the end the blood-poisoning was cured, the ulcers cleansed and healed, and new healthy skin covered the previously diseased places.

ar orrespondent

"What impressed me most about Zam-Buk was the immediate relief it gave from the burning pain. It seemed to bring ease immediately it was put on, and then the cleansing and healing process went on painlessly."

LESSONS FOR NEWFOUNDLAND HOMES | WHAT ZAM-BUK CURES. ALL MOTHERS SHOULD REMEMBER

That every scratch, every cut, every sore, every open wound, every That every scratch, every out, every sole, every open wound, start is full of skin-disease is liable to turn to blood-poisoning. The air is full of poison germs, which, falling on to sores and wounds, may set up festering and blood-poisoning. How important, then, that Zam-Buk (which is science's latest and best protector against blood-poisoning, as well as the finest healer) should be kept handy in every home ! Zam. Buk onerates in an absolutely unique manner. When first

Zam-Buk operates in an absolutely unique manner. When first applied to a sore or wound its a tiseptic power comes into opera-tion. Painlessly, yet effectively, it attacks all disease germs and bacilli that are in the wound. Then its healing essences penetrate the injured cells and stimulate the lung tissue to build up new cell substances. At the same moment, therefore, there is a defensive (against disea e germs) and a constructive process going on all over the region to which Zam-Buk has been applied. This is the way Zam-Buk heals and cures all skin diseases and injuries.

Zam-Buk is a sure cure for piles, bad leg, ulcers, abscesses, cold sores, open wounds, sore hands, line chafes, inflamed patches, chaps, frost bite, blood-poisoning, scalp sores, cuts, burns, bruises, and all skin injuries and diseases. Well rubbed in it also cures rheu matism, sciatica, etc.

had ended on the day before. A letter from Tom Cheriton cheered her. It was full of concern for her and regard that his uncle's illness had made it impossible to get away, while he promised that the next day should see him by her side in town. He promised this, and told her to depend upon him. This was the pirt of the let er which cheered her.
