

Children Had Eczema Doctors Failed to Cure.

Two Letters Which Prove the Efficiency of Dr. Chase's Ointment as a Cure for Eczema.

Fortunate are the mothers who know the virtues of Dr. Chase's Ointment, for there is no treatment so suitable for use after the bath to relieve irritation and chafing and to thereby prevent eczema and similar skin diseases.

Mrs. W. L. Barnes, Timmins, Ont., writes:—"I want to tell you about the case of my little boy, who had baby eczema when he was three months old. It started on the top of his head, on his forehead and around his ears. The doctors failed to do him any good, so I tried Dr. Chase's Ointment on the recommendation of a friend, and in a month's time the child was entirely free of this disagreeable skin disease. He is now four years old, and has never had any further trouble from ailments of this kind. I also have great faith in Dr. Chase's Nerve Food, and believe that it cannot be beaten as a restorative for pale, nervous women."

Mrs. George McNair, River Charles, N.B., writes:—"We use Dr. Chase's Ointment in our home, and would not wish for anything better for cuts, burns and bruises. A few years ago a friend of mine, whose baby was terribly afflicted with eczema had her child treated by their own family physician, but the little one got no better. They tried several remedies, but they all proved useless in this case. Upon the advice of a neighbor they got Dr. Chase's Ointment, and before the first box was used the child was completely cured. I can also recommend Dr. Chase's Nerve Food to suffering friends who I know will be glad to learn of something to relieve their nervous trouble. You have my permission to use this letter for the benefit of others."

Dr. Chase's Ointment, 60 cents a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

Newfoundlander in Hospital

Asks a few Questions—What is the Answer to be?

London, England, Feb. 19th, 1917.

Dear friends and fellow-comrades of Newfoundland.—You will no doubt be pleased to learn that I am still alive and kicking. Since being admitted to hospital I am getting on splendidly and hope to be about again in a month or six weeks. I cannot say when this war is going to finish; I wish I could. One thing I know, we are pushing steadily forward, with the hope of bringing it to a close as quickly as possible. Still we want more men. There are brave men falling in our ranks every day, leaving gaps which need to be filled. Are you going to volunteer to fill it? Now is your only chance. Don't wait until the war is over and the boys come marching home. It will be too late then for you to do your bit in defence of your King and Country. Many of you, no doubt, have a brother at the front; if not, you have at least a comrade. You cannot hear them, but your own heart tells you they are silently calling you to come and help them in this great struggle for freedom, honor and right. Are you going to turn a deaf ear to their cry, or will you step bravely forward and say "Yes, I will come?" When the boys who are lucky enough return, will you stand up boldly and listen to their story of how they fought and bled, fighting for their country and those they love? Or will you hang your head in shame, knowing that you never put out your hand to help them? I would like to write more, but the nurse says I must not sit up any longer or she will be real vexed with me. You see I am not allowed out of bed, and sitting up in bed makes me feel quite weak. I will now close by wishing you one and all every prosperity.

I remain, truly yours,
Pte. ERNEST FOWLER,
No. 2710, 1st Nfd. Regiment, Ward 6,
3rd London General Hospital,
Wandsworth, S.W., London, Eng.

Rann-dom Reels

KEEPING HOUSE.

Keeping house is woman's reward for getting married, and every once in a while it is man's penalty.

It used to be a deal more difficult to keep house than it is to-day. Women did not have nearly so many conveniences attached to an electric meter as she has to-day, and most of the work had to be done with the hands and feet. Thirty years ago it was impossible for a sweet housewife to sit down in a pink chambray gown with georgette crepe trimmings, turn a button and a row of a conscienceless device in the cellar to wash the clothes and eat up a few thousand kilowatts. When we consider how happy woman's lot is to-day, as compared with the situation of our grandmothers, it is hard to understand why more do not get married early and as often as possible.

Keeping house nowadays requires more mechanical ability and brain power than it does to make a Sunday soup bone last until Friday night. The electric flat iron is a precious boon.

A "sameness" that is most enjoyable—the daily, unvarying goodness of a cup of "SEAL BRAND" COFFEE. It never fails to greet you with that same exquisite fragrance, amber clearness and delightful flavour, that win people with the first cup.

In ½, 1 and 2 pound tins. Whole-ground—pulverized—also fine ground for Percolators. Never sold in bulk.

City Fathers in Session

The weekly session of the Municipal Board took place last night, Mayor Gosling presiding.

J. J. Kenny complained of Councilor Tait having ordered to be stopped the work of repairs to his house at the corner of New Gower Street and Springdale Streets. Councilor Tait stated he did it in the public interest, adding that the surroundings in connection with Kenny's house were unsanitary and unhealthy. He pointed out that 75 per cent of the sickness and death rate was caused by damp kitchens and flooded cellars built below the street level, as in Kenny's case. The City Engineer reported that Kenny had guaranteed to make his premises in a condition satisfactory to the Board and to the Health Officer. On motion of Coun. Brownrigg, seconded by Coun. Vinicombe, permission was given Kenny to continue the work, Coun. Tait dissenting.

J. Volsey, cabman, whose sleigh was in collision with a sanitary car and was damaged, asked for compensation. Being investigated.

Steer Bros. asked permission to raise the roof of their waterworks building to make more room for their office and employees. Refused.

Plans submitted by Messrs. Hiscock and Edgar regarding proposed new building were approved of.

J. Barter, President T. P. U., and J. H. Monroe complained of condition of Mundy Pond Road and asked for an improvement. Nothing can be done in the matter.

After the reading of the Engineer's report for the week the meeting adjourned.

Hockey Match and Races.

Last night was benefit night for the Ice-men at the Prince's Rink, the entire proceeds being given to them. A hockey match was played between a team of senior fellows and seven players under 20. The latter won by 7 goals to 2 after an exciting struggle. The line-ups were:—

Junior's	Scratch
Hunt	Goal.
Wilson	Point.
Watts	Centre.
Stick	Cover.
Clouston	Rover.
White	Dugan
Ewing	Right.

In a one mile skating race three contestants entered. One dropped out early and Bishop defeated Squires by a couple of feet.

First Sealers Coming

SABLE I. AND SEAL LOADED.
Last night the following messages were received:

To Bowring Bros.
Eagle—Nothing to report; looking for another patch.
Terra Nova—Steamed 25 miles N.E. from yesterday's patch; scattered seals all the way; nothing doing.
Ranger—All ships in sight; ice very tight; all well.
Viking—Total seals on board, 3,000; 5 miles S.W. of Bryon Island.

To Harvey & Co.
Sable I.—Bore up; on the way home; 23,000; all well.
Seal—Bore up; on the way home; 16,000; all well.
Messages to Job Bros. from the Neptune and Thetis stated that they had done nothing yesterday with the seals and that all was well on board.

Official.
Fogo Station—Entire fleet reports all aboard; all well.
Cape Ray Station—Viking all well; no men on ice.

As will be seen in the foregoing, the Sable I. Capt. Joe Kean, with 23,000 pelts stowed below and the Seal, Capt. Murley, with 16,000, are homeward bound. It is difficult to say about the time they should arrive, as they did not give their positions as to where they bore up. The present ice jam surrounding this port will, no doubt, hamper them, but not to any great extent as they are both good ice-breakers. All things considered their arrivals should be looked for to-morrow.

A few days ago the Telegram, despite contradiction, stated that these two steel ships would be here by the week end. It now turns out that they were right. The first arrival from the sealfishery last year was the Sable Island, Capt. Jacob Kean, on March 30th, with 23,816 weighing 560 tons and valued at \$66,824.08 net. The crew of 182 men shared \$121.71 each. The Sable Island, which is a new ship, is establishing a record for quick trips and full loads. Last spring was her first time at the sealfishery. Formerly the Seal prosecuted in the Gulf and never got a trip of seals. This is the first year she engaged in the seal hunt north.

In Five Minutes! No Indigestion, Gas Or Sour, Acid Stomach

The moment "Pape's Diapepsin" reaches the stomach all distress goes.

"Really does" put bad stomach in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness. A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars worth of satisfaction or your druggist hands you your money back. It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or night. It's the quickest, surest and most harmless stomach regulator in the world.

"Resolved that conscription of wealth should precede conscription of person" was the subject of debate at the M.C.L.I. rooms last night. Messrs. G. W. Rabbits and W. Butt were the leaders for the affirmative and Dr. H. M. Mosell and Mr. A. E. Hayward for the negative. The affirmative side defined wealth as all things arising out of individual effort on the entire resources of the country. The negative pointed out that the position taken by the affirmative was improper, as it made a comparison of values in material and personal wealth, between which there could be no just comparison. On a vote being taken the majority was in favor of the negative.

M C L I.

The Quinine That Does Not Affect Head.
Because of its tonic and laxative effect, Laxative Bromo Quinine can be taken by anyone without causing nervousness nor ringing in the head. There is only one "Bromo Quinine." E. W. GROVE'S signature is on box. 25c.
Motor bonnets with chin straps are charming—on the right person—and are frequently made of doeklin.
