Last Year's Ship-

building Output.

Outside of Germany and Austria-Hungary, the shipyards of the whole world during 1918 produced 5,477,444 gross tons of merchant shipping, as given in the Annual Summary of Lloyd's Register of Shipping. This is 63 per cent higher than the total in the year 1913, which held the record for construction and included the output of Germany, Austria, etc. The total for the United Kingdom in 1918 was 1,348,120 gross tons and the output for the United States was 3,033,- is a cream paste of mashed almonds 030 gross tons, which is equal to that and honey.

for the ten years 1907 to 1916 in the United States, and half of this was built on the Pacific Coast. Of the United States total output of 3,033,030 ons, about 1,000,000 consisted of wooden ships.

BRIEF BUT NEWSY.

Icebergs in the Atlantic sometimes last for 200 years.

It is said that there is never an odd number of rows on an ear of corn. The first post office was opened in Paris in 1462, in England in 1581, and in America in the year 1710.

A delicious filling for a sponge roll
