

A school-teacher's little girl, while crossing a field near Baldersin's Corners, in Lanark Co., with a basket in her hand, a skunk sprang upon her from the corner of a fence and got both her hands into its mouth and held them to the basket. Between the pain of the wound, the fright, and the sickening odor of the vicious little creature, the poor girl was nearly overcome, and was totally unable to shake the assailant off. In this, her terrible predicament, she was compelled to hug the skunk close to her body, and, half crazed, made the best of her way towards her father, who was working in a harvest field not far off. Attracted by her cries of terror, he ran to the sufferer, and, forcing the nauseous animal from its determined hold, dashed its brains out against the ground.

A one-armed man in Salem, Mass., lately applied for a divorce on the ground that the hand he had given to his wife in marriage was lost, and that the contract was therefore void.

Many persons apparently healthy on getting up during the evening hours from three to five in the morning. The life force being lowest at the time nature more readily succumbs. Individuals on the shady side of forty, and whose vitality has been impaired are most susceptible. Fellows Compound Syrup of Hypophosphites will sustain and tone the nervous system, and its use is a necessary precaution against premature mortality.

THE REASON WHY

Dr. Wheeler's Compound Elixir of Phosphates and Calisaya is called a Chemical Food and Nutritive Tonic, because Phosphates constitute more than half the material of the human body, and are also essential to the growth of Bone, Muscle and Nerve, which cannot attain full development without them. They promote a good appetite, perfect digestion, create pure, healthy, vitalizing blood, and supply the waste constantly going on in the system as the result of mental and physical exertion. Being combined with Calisaya, the Gumbo Bark, the only specific for Chills and Fever, and that condition of Nervous Prostration and General Debility arising from low vitality and exhaustive diseases, it forms an elegant and agreeable, invigorating Tonic, purely physiological in its action, that may be taken safely under all circumstances, and in diseased conditions of the body, as it builds up the constitution in the same manner as our daily food.
Sold by all Druggists at \$1.

POSITIVELY A FACT.

The Largest of any Company in the World.

This Society has led the van in the Insurance world for many years; it has introduced more improvements and given greater impetus to the business than any Life Company in the United States, and is deserving in this respect of the praise and gratitude of the community.

There are many reasons for selecting the Equitable Life Assurance Society.
1st—No company has such large annual transactions, thereby infusing into its business a constant accession of fresh and selected lives which is one of the greatest elements of strength.

2nd—Liberalty in dealing with all claims: observing at the same time, a due regard to the interests of its present large body of policy-holders by a firm resistance to any attempt at imposition.

3rd—Perfect organization in every department: being one of the most progressive institutions of its kind in the world, it is ever prepared to seize at once upon all the improvements in the business that science can suggest.

The Equitable Life Assurance Society insures every recognized form of policy, and especially the **TONTINE SAVINGS FUND INSURANCE** which the Company introduced. This new plan has become very popular, as equalizing among all who are insured under it the advantages which arise from the profits of the business, without in any respect infringing upon the normal results for which Life Insurance was first instituted.

The EQUITABLE feels that it has the strongest claims upon public confidence. Under the management that distinguishes it and the principles by which it is guided, perfect security is given for the future, than which no greater inducement can be held out to all who wish to insure their lives.

Further information regarding the different kinds of Policies issued by the Society can readily be obtained at
