

Although the fall wheat in Maryboro was considerably injured by winter frosts, Hamilton thrashed from 30 acres, 700 bushels of spring wheat of a splendid sample; John Stinson thrashed from 11 acres, 300 bushels; Geo. Plect 800 bushels, giving an average that has never been realized before.

The balloon in which Duront and his wife made their perilous ascent from Calais, France, has been found in the North Sea, 150 miles from Christiansand, and has been placed on exhibition at the Crystal Palace, London, together with a compass, a stopped watch, a discoloured log-book, and other articles saved with the adventurous aviators.

The boss coopers of New York profess to be perfectly independent of the society men, as there are plenty of good men eager for work. They believe that many of the Unionists will desert the Society. The Union men of course are, as usual, confident in victory.

The price of wheat has been gradually lowering for the past few weeks, and the prospects are that in another month or so it will be down to 75 or 80 cents per bushel. Prophecy is not in our line, but we would advise farmers to sell their wheat as soon as possible. The world seems well supplied with wheat—Russia, France and the United States, all great wheat growing countries, have crops as bountiful as Canada, or nearly so.

M. Guizot has left a will, in which he makes a profession of his faith. He says that he dies in the bosom of the Christian Reformed Church of France; that he has acquired, and even doubted, but that he has returned to the convictions in which he was cradled; and that he believes in God, and how bears the mysteries of the Bible and the Gospel.

PROTECT YOUR BUILDINGS

Which may be done at one-fourth the usual Expense, by Using Glines' Patent

SLATE ROOFING PAINT

AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slate may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slate, for ONE THIRD THE COST OF RE-SHINGLING. The expense of slating new shingles is only about the cost of simply laying them.

The Paint is Fire-Proof

Against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff as for Slated Roofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, and never cracks nor scales. For Pewee it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheeting Felt can be made water-tight at a small expense. The Slate Paint is

EXTREMELY CHEAP!

Two gallons will cover over 100 square feet of shingle roof, or over 100 of tin or iron. No Tar is Used in this Composition, therefore, it does not effect decayed shingles if filled up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Corrosive or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and STOPS THE LEAKS. The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate color, and, to all intents and purposes, SLATE. The Paint has a very Heavy Body, but is easily put on, and, although a slow dryer, rain will not affect it in the least one hour after applying.

ROOFS EXAMINED. ESTIMATES GIVEN. And when required will be Thoroughly Repaired.

Orders Respectfully Solicited. S. A. RUSSELL & Co., Toronto, Ont. P. O. Box 292. CHARLES DAVIDSON, Guelph.
