THE MARKET'S

Chicago Wheat

Chicago, Aug. 31.—Selling out by traders who did not care to hold wheat over two holidays made prices today weak from the start. The close was 1-3c of the bottom figures of the season and 1 to 1-1/4c under last night. Corn showed a net loss of 3-8c to 1-3/4 and oats a fall of 3-8c to 5-8c.

Winnipeg Wheat

Winnipeg, Aug. 31.—On the wheat market today trading in futures was more active and prices lower than on all months.

Chicago closed 1 to 1 1/4 lower. An increase of 1,000,000 in primary receipts was the biggest factor. There was an excellent demand for No. 1, 2 and 3 N.W. wheat, and for lower grades fair inquiry with little on offer and export quiet.

London Stocks

London, Aug. 31.—Tendency of the market is undoubtedly upward. Perhaps the beginning of the clearing of the international situation has something to do with it. No doubt better weather had to do with it. The uplift in home rails and good common news was probably also promoting for freight traffic. Markets were active and firm. In the Kew garden there was encouragement and betterment. C. P. R. weakened under news that the opposition to the new stock issue was not subsiding. It was felt that the position was ominous of reductions in freight rates which may make the rate report just issued the last in a series of common opinion that thinks that the subject should be dealt with promptly at Ottawa and some assurance given regarding the freight rate question.

Represented Britain at Washington Five Years and Has Reached Ripe Age of 74

Lewis Harcourt and Alfred Spender Mentioned as Possibilities to Succeed Him

London, Sept. 1.—The impression that Ambassador Bryce will not retain his post at Washington many months longer persists in parliamentary circles despite the repeated official denials of a change. When Prime Minister Asquith answered the last question on that subject he said merely that Mr. Bryce would return to Washington and resume his duties in September, which was not an entirely convincing denial of an early change.

The fact that Mr. Bryce has held the office for five years and has reached the age of seventy-four, together with the possibility that the Liberal government may not continue long in power, and that others have let it be known that they would consider the Washington embassy a suitable reward while yet this government has the power of appointment, furnish reasons for the belief that a change may soon take place.

Lewis Harcourt, secretary of state for the colonies, and J. Alfred Spender, editor of the Westminster Gazette, are two names most favored by the Liberals as candidates for Mr. Bryce's successor. It is noteworthy that neither belongs to the diplomatic corps, and that both are comparatively young men.

The Washington post is regarded as one demanding qualities not apt to be found among professional diplomats, whose careers have been spent in European capitals.

Mr. Spender's title to recognition is that he has been the most influential writer supporting the Liberal party in the London press. While the Westminster Gazette, an evening paper, is not the most powerful Liberal organ, Mr. Spender's utterances on political questions carry more weight than those of any other individual in the party press. He is recognized as one of the foremost British journalists.

Mr. Harcourt is a practical politician and a society man. His health has not been robust recently, and transfer to a position demanding less hard work than a cabinet portfolio would be welcome to him. Mr. Harcourt was an American, daughter of the late Walter H. Burns of New York, and an American wife usually is considered a valuable asset for a European diplomat in Washington.
