CALGARY FAVORED FOR TECHNICAL SCHOOL BY EDMONTON PAPER

Journal Says That Dominion Grant for Alberta Should be Left With the Calgary University and Strongly Supports Such a View.

WOULD BE HAPPY SOLUTION OF DIFFICULTY

Praises People of Calgary for Liberality and Enterprise In Establishing University of Calgary; Sees Great School of Technology in Future.

The Edmonton Journal comes out definitely and positively in favor of having that portion of the Dominion government grant for technical education which will come to Alberta being left with the Calgary University. Doubtless it reflects the opinion of the people of Edmonton. As the University of Alberta is the only probable rival to Calgary for this grant, it would seem now that Calgary is very likely to get the grant when it does come.

The Journal article is as follows:

The Calgary papers say that what has been known as Calgary University, though it has never received degree-granting powers, will be given $150,000 from the Dominion government's appropriation for technical education, and that it will be converted into a great school of technology.

This would be a very happy solution of the difficulty that has been created by the desire of the people of the southern city to establish an institution of higher learning within its boundaries. By thus specializing it could supplement the work being done by the provincial university; not draw away from the latter's strength, as would have been the case if the original plans had been adhered to.

The Ottawa government will undoubtedly follow up the recent report of the commission on technical education by making liberal provision for its encouragement, and with the wide variety of resources that we possess, it is imperative that Alberta should be kept in the forefront of the movement.

Too much cannot be said in praise of the spirit that has prompted the people of Calgary to give so liberally to the establishment of such a seat of learning as they have had in mind. But if the present plans go through, it will mean that their efforts will be devoted to a much better purpose. Higher education is something that involves large burdens on the public at large, and it would be folly to waste money and energy in mere local rivalry.

The Journal urged over a year ago the exact solution of the university difficulty that is now proposed, and it is a most encouraging sign that the suggestion is at last being taken up so enthusiastically.

GARY DISAPPROEVS STEEL CONTRACTS

New York, June 12.—Judge E. H. Gary, chairman of the U. S. Steel corporation, was called upon today by government counsel in the suit to dissolve the corporation to explain certain alleged contracts entered into by the corporation, with competitors, under which they agreed to stay out of the steel business. The witness was asked to reconcile them with the policy of "fostering competition," which he had testified had been the policy of the corporation, quoting him as saying that he would rather keep the Shelby Tube company, formerly a competitor, under the control of the corporation than buy it out.

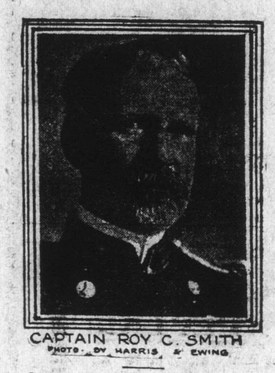
Judge Gary answered many of the questions put to him by saying: "I do not remember," but explained that on general principles he did not approve of the contracts referred to.

Fake Bomb Finders

London, June 12.—The suffragette bomb outrages have been responsible for the growth of a new profession—that of bomb finder. The police have issued descriptions of more than a score of men who are wanted for "finding" fake bombs.

The method adopted was to plant a "bomb" in some semi-public spot, "find" it, and after turning it over to the police rush off to a newspaper office and so get as much as possible for the "scoop." Many newspapers have fallen for the stunt, and they are getting a bit tired now.

CONVICT OFFICERS OF THE ARKANSAS



CAPTAIN ROY C. SMITH
PHOTO BY HARRIS & EWING

Captain Roy C. Smith, commanding officer of the battle ship Arkansas, and Lieutenant William W. Smyth, acting navigator of that vessel, were convicted by court martial held recently at the New York Navy Yard, on charges of unnecessarily hazarding the Arkansas.

HE IS MATHEMATICAL WIZARD OF THE DAY

SYDNEY A. GROSS.

Theories accepted by mathematicians for centuries will be relegated to the realm of things to be forgotten if experts find that Sydney A. Gross, a sophomore in the Central High School of Philadelphia, is correct in asserting that he has discovered a method of trisecting an angle less than a right angle.

BIG CITY DOES NOT APPEAL TO UTAH BOY

Chicago, June 12.—Chicago entertained a modern Rip Van Winkle Saturday and Sunday. This person, however, was a boy, 13 years old, who, until ten days ago, like the more noted sleeper, awoke in a new world of railroad trains, street cars, moving picture shows and automobiles.

This Rip of modern timse is Clinton Larsen, who hails from Dixie high school, St. George, Utah. He won second place in the high jump at five feet seven inches in the Marathon interscholastic meet Saturday. His school is sixty miles from the nearest railroad train.

He drove by stage to Salt Madena, Utah, where he got his first train ride. When he reached Chicago he got his first automobile ride, saw the "movies" for the first time, and strained his neck gazing at the high buildings. After it all he said:

"I am going back to Utah. I dont' like your big city."

LORD MURRAY SAYS HE WILL RETURN IMMEDIATELY

Former Whip Keeps Nothing Back and Explains Marconi Purchase of Shares

London, June 12.—The parliamentary committee which is investigating the scandals connected with the government wirless contracts today received a cablegram from Lord Murray of Elibank, who is now in Quito, stating that is chief whip of the Liberal party he had bought 3,000 American Marconi shares which he still holds. The fact of the purchase was revealed during the evidence given yesterday at the sitting of the parliamentary committee.

Lord Murray further says that he did not inform his successor, P. H. Illingworth, of the transaction, because he did not wish to involve him in the matter. He further confirms the evidence of Attorney General Isaacs and Chancellor Lloyd-George, as to his joint interest with them in Marconi shares, but declares that outside the foregoing he never had any interest in American Marconis.

Despite business obligations in Quito, Lord Murray announces his willingness to return to London at once if further evidence is required of him.

U. S. NOT PREPARING FOR WAR WITH THE JAPANESE

Washington, June 12.—The state department has received from Mr. Bailly-Blanchard, charge d'affaires of the American embassy at Tokio, by cable, copies of dispatches from the United States in Tokio papers, giving excited accounts of preparations in this country for war with Japan. The greater number of these dispatches were sent from San Francisco, and consisted of details of the movements of United States troops to the Philippines and Hawaii. Secretary Bryan has authorized Mr. Bailly-Blanchard to deny the statements made in these dispatches emphatically. This formal statement was issued:

"The state department has authorized the American embassy at Tokio to deny a San Francisco telegram which appeared in Japanese papers to the effect that preparations were being made for war. The report was to the effect that troops of artillery were being sent to Hawaii, and that the Philippine garrison was to be increased.

"A few artillerymen have been sent to Hawaii in pursuance of plans adopted before this administration began, but no increase is contemplated in the Philippine garrison. The changes that have taken place are only the customary exchange of regiments.

"The department regrets that any newspaper or newspaper representatives should send so misleading a telegram from the United States."

At the war department, Secretary Garrison and Maj. Gen. Wood, chief of the army general staff, emphasized the denial of the misleading reports, and deplored the fact that any one should send such statements, the obvious effect of which must be to feed and stimulate war feeling in Japan.

Swiss Officer in Trouble

Brandon, June 12.—Alfred Leo Worder, a Swiss ex-army officer, was remanded for a week here today on six charges of theft and four of false pretenses. The prisoner absconded from the district some months ago to El Paso, Texas, and arrived back in custody last night.

THIS PRINTER SHOWS ROVING DISPOSITION ABOVE HIS FELLOWS

In Three Year Jaunt Has Covered Sixty-Eight Thousand Miles Reaches San Francisco in Last Lap of Round the World Expedition.

HAS SEEN ALL CITIES AND KNOWS ALL MEN

Tells in the Same Breath of Fevers in Mid-Africa; Snow on Himalayas, Sunny Antipodes and Chronicles of the Union the World Over.

Vancouver, June 12.—Samuel Murray, well known throughout the jurisdiction of the Printers' Union, and perhaps the most famous of printer globe trotters, "passed in" through the Golden Gate on March 24 on the liner China. Mr. Murray is on the last leg of a three-year jaunt to places of interest throughout the world, having left New York for London February 9, 1910, arriving in San Francisco with a trifle more than 68,000 miles of travel to his credit, included in which total is the following itinerary:

New York to London, thence to Rio de Janeiro and Buenos Ayres in South America. Then to South Africa, stopping at Durban, Bloemfontein, Kimberley, Johannesburg, and Pretoria, and on to Victoria Falls in Rhodesia; thence to Capetown and back to Durban, and later a trip into Zululand. From Durban to Australia, visiting Perth, Melbourne, and Hobart; thence to New Zealand, calling at Dunedin, Christchurch, Wellington, Rotorua and Auckland. Back to Sydney and a trip to the Blue mountains. Then to the Fiji group, to Apia, Samoa and the Friendly Islands. Return to Auckland, from there to Sydney, Adelaide, Ballarat and Melbourne, and then back to South Africa; thence to Bombay via the east coast of Africa, stopping at places in German East Africa and Zanzibar. On to Mombasa in British East Africa, through nature's zoo that is traversed by train to Nairobi; thence westward to Port Florence on the eastern shore of Victoria Nyanza, and across this lake 125 miles to Entebbe, Uganda; to Ripon Falls (headwaters of the Nile), thence to Mombasa and over to Bombay. From Bombay to Agra to see the great tomb, Taj Mahal. From there to Delhi in the Punjab, and on to the other "Mutiny" cities of Cawnpore and Lucknow; thence to Benares (sacred city of the Hindus, and on to Darjeeling in the Himalayas, from where is visible the crown of Mount Everest, 28,000 feet above the sea. From Darjeeling to Calcutta, southward to Madras, then to Colombo and Kandy, Ceylon. From there to Singapore, to Hongkong, to Manila; back to Hongkong and a run up to Canton; back to Hongkong again and on to Shanghai and the Japanese cities. From Japan to Honolulu, and thence to San Francisco.

The writer was one of a party gathered about Mr. Murray on a recent evening to be entertained by a recital of some of the experiences and impressions gained from his wanderings to the far corners of the earth. Victoria Falls he described as most wonderful, being a mile and a quarter wide, and the water having a sheer drop of 400 feet. He told of the desolation following the ravages of "sleeping sickness" in the region adjacent to Victoria Nyanza, related amusing peculiarities of the Zulu tribes, described at length his visit to the sacred city of Benares and its sacrificial temples, and declared that Darjeeling, in the Himalayas mountains, revealed to his eyes the most beautiful view in the world.

Mr. Murray spoke in eloquent terms of the fraternal spirit shown by the officers and members of typographical unions in South Africa and Australasia, and of the keen interest taken by them in the progress of the craft in the United States and Canada.

Naturally, conversation drifted to other printers and their travels abroad. In this connection Mr. Murray mentioned particularly Gilbert I. Brayton (who had preceded him in some foreign lands), remarking enthusiastically: "It was a pleasure to follow in the wake of a man who had left no kinks behind him—whose every trail was clear."

Mr. Murray has resumed him journey to New York city. His many San Francisco friends regretted to see him go.

GRANT FOR FARMING FOR THE PROVINCES

Ottawa, June 12.—The minister of agriculture acting on the advice of C. C. James, ex-deputy minister of agriculture for Ontario, who has been engaged by the government to administer the annual grant for aid to agriculture under the vote of $10,000,000 passed this session, has announced the details as to the spending of the money this year. The total appripriation to be distributed among the provinces during the current fiscal years is $500,000. Ontario's share on the per capita basis is $175,733; Quebec's, $139,482; Nova Scotia, $34,288; New Brunswick, $24,509; British Columbia, $27,334; Manitoba, $31,730; Saskatchewan, $34,296; Alberta, $26,094. Half of the appropriation for each province is to be paid over at once as soon as the greements are signed by the respective provincial minister of agriculture. The balance will be paid as soon as the federal government is satisfied that the provinces are properly spending the money for the purposes specified. It is provided that the aid given to the provinces shall be supplementary to the agriculture votes now made by each province, and shall not in any way curtail present grants by the provinces.

The Manitoba and Saskatchewan votes for this year include the following specific purposes: Manitoba, for demonstration farms, $16,000; for demonstration trains, $4,000; course of lectures, $6,000; plowing matches, $2,000. Saskatchewan, college of agriculture for extension work, $16,000; weed control, $3,000; Dairying and poultry, $4,000; livestock, $4,296; supplementary grants for livestock and farmers' organizations, $7,500.

EVELYN NESBIT THAW AGAIN ON THE STAGE

London, June 12.—Evelyn Nesbit Thaw slipped quietly into the cast of the Hippodrome last evening. She did one dance alone and then danced the tango and turkey trot with Jack Clifford.

After the performance, in which Evelyn showed no change from the "angel child" days, she said:

"Why, I've gone on the stage simply to earn my living. After the trial I refused several offers to go on the stage simply because I declined to make a freak of myself. I am working hard, and I am anxious to succeed. If I win success I can return to the United States and reappear on the stage as a genuine artist and be judged upon my merits as an artist."

Clever Crooks.

Sas'atoon, Jan. 11.—The King George Hotel company was robbed of $700 on Monday night by a clever crook who entered the office when the clerk was called upstairs by a man who had taken a room and who is now supposed to have been a confederate of the thief. The money was in the safe and the thief worked the combination and thn picked the lock on the inner door. Another robbery was committed the same day. A man entered the jewelry store of George E. Ash, on Second avenue, and wanted to purchase a clock. While Mr. Ash was busy with him another man entered, but had left before Ash had completed the sale to the first person. Shortly after Ash discovered that a tray of rings valued at $1,000 was missing. There is no clue to the robbers.

Riots at Ipswich, Mass.

Ipswich, Mass., June 12.—The Ipswich mills near the gates of which one woman was killed and a number severely injured in a riot last night, were opened today with further disturbances. Under the protection of a large force of police about 200 operatives resumed work. Nearly 600 remain on strike.

OLD SCOTTISH IRON FIRM HAS FAILED

Glasgow, June 12.—James Watson and company, members of the Glasgow pig iron market, suspended payment today. The firm is of old standing, and has connections all over the world. The announcement of its suspension caused a sensation, but no figures can be obtained at present as to the extent of the liabilities.

It is understood that the firm sold heavily against its holdings in iron concerns, but owing to the sudden fall in prices was unable to meet its commitments.

FIGHTING THE CABBAGE FLY

Dominion Entomologist Is Making Practical Experiments at Agassiz

Agassiz, June 13.—In order to test the efficacy of treatment for the extermination of the cabbage fly under conditions similar to those which a farmer must face, Mr. R. C. Treherne, the Dominion entomologist at Agassiz, is growing cabbages and turnips in patches of two acres each. Experiments are being carried on daily.

So far, the cabbage fly has proven invulnerable to all of the usual methods of treatment to destroy the eggs, which are deposited on the ground next to the stalk of the growing plants. The roots and later the plant itself is attacked by the swarm of young flies. The only successful treatment discovered so far is to wash the plants with an emulsion of carbolic soap as soon as the young flies are hatched.

The cabbage fly is regarded as the most serious pest which the truck farmers of the Vancouver and Delta districts have to contend with.

Actress Fired Race

London, June 12.—Kitty Marion, an actress, and Clara Elizabeth Giveen, a militant suffragette, were arraigned today on suspicion of having set fire to the stands on the Hurst Park race course on Monday. The police have evidence connecting them with the outrage, and they were remanded on bail of $15,000 each.

PRYCE JONES--Store News

TWO DAYS' SALE of Extraordinary Importance.

Matchless savings for customers. Matchless selling for the store. Every price a sensation. Every item an irresistible bargain. Every purchase backed by our guarantee. You must come here to realize.

You Must See to Appreciate

Silks and Woolen Dress Goods 25 p.c. Off

Day in and day out the best values in Dress Goods and Silks are to be found at Pryce Jones, but for the next three days this liberal reduction is made on our **already lowest prices**, really making every item an **absolutely unmatchable bargain.**

Plain and Fancy Silks, all **25** per cent. off.

Woolen Dress Goods, every yard in stock **25** per cent. off.
