# THE ANARCHISTS The Government Anxious To

have reached here about the war on ters from the Government to the lower classes, the latter having many ing sober, honest, and laborious workacts of a few countryless desperadoes who have already been repudiated by their own fatherland and have sought refuge in America, thus hoping to escape justice. The Government authorities here will co-operate in every way in the campaign by preventing the departure of any who have the least stain on their record by refusing passports. A Government circular to all the prefects in the kingdom has given most stringent orders on the subject. The trouble is that the undestrable emigrants manage to sail from non-Italian ports. Information received here states that once in America these criminals are especially dangerous to other Italians, who often apply to the home Government for protection, but Italy cannot possibly interfere. But it is hoped that President Roosevelt's proverbial energy will be successful in standing off who are trying to give their crimes a political character by calling themselves propagators of new doctrines. Nobody here forgets that Paterson, N. J., is the den from which Bressi was instigated to murder King Humbert.
