Alderman Towe made a notice of motion at the last meeting asking for the re-opening of the question, and this is the reason of tonight's gathering.

While the mayor, Aldermen Greer, Towe and Smith are seeking to have the ematter discussed, some of the other councillors believe that to reopen it up is to refute the former action of the council in letting the tender. The argue that they had all the necessary intermation at the time of letting the tender and that to go back again is uncalled for.

Meanwhile Alderman Towe has been building up the case for an investigation during the week, and says he has the information necessary to satisfy the most exacting of alderselved and will respond to his efforts to extricate himself from his imaginary prison. It costs money to get out of the prison in Spain.

This year's record for the payment of the second installment of the city taxes is over the top, and accordingly City Treasurer Bell is elated. He was expecting that this installment would net the city about \$277,000, and now finds that \$293,000 has been paid into the coffers.

The steadings of the City of London financially may be reflected in the very small difference between the amount of the taxes gathered in at time last year and the figures 1924. Last year the amount was \$2,103,000, and this year the total is 104,000, another fact that helps to keep the treasurer smiling.

SURVEY COMMITTEE TO MAKE REPORT SOON

A preliminary report of the survey will be brought in at the special meet-ing of the board tomorrow afternoon. This committee, appointed some months ago to inquire into the efficiency of the ounting of the board and the system handling the accounts, has beer making some investigations.

Special to The Advertiser. Sarnia, Aug. 20 .- Gloom was turned into joy for several thousand Sarnians today when, after a continually threatening and partly rainy morning, the sun shone for the double event of the international picnic and the annual outing of the builders and supply men. The former picnic was held for the first time at Port Huron and proved splendidly successful, with an attendance of ten thousand. The many events were about evenly divided between Sarnia and the American competitors. The aquatic sports were particularly successful, and in command of the United States great interest was taken in the Walround-the-world flight, who hopes to pole Island Indian band in full war paint. At Lake Huron Park the Sarnia builders ran off a splendid program which closed with a supper.
