### Catarrh Of the Stomach Is Dangerous

'Thousands Have It and Don't Know It," Says Physician. Frequently Mistaken for Indigestion -How To Recognize and Treat.

"Thousands of people suffer more or tess constantly from furred, coated tongue, bad breath, sour burning stomach, frequent vomiting, rumbling in stomach, bitter eructations, gas, wind and stomach acidity and call it Indigestion when in reality their trouble is due to gastric catarrh of the stomach," writes a New York physician.

Catarrh of the stomach is dangerous because the mucous membrane lining of the stomach is thickened and a coating of phlegm covers the surface so that the digestive fluids cannot mix with the food and digest them. This condition soon breeds deadly disease in the fermented, unassimilated food. The blood is polluted and carries the infection throughout the body. Gastric ulcers are apt to form and frequently an ulcer is the first sign of a deadly cancer.

In catarrh of the stomach a gard and

an vicer is the first sign of a deadly cancer.

In catarrh of the stomach a good and safe treatment is to take before meals a teaspoonful of pure Bisurated Magnesia in half a glass of hot water, as hot as your can comfortably drink it. The hot water washes the mucus from the stomach walls and draws the blood to the stomach walls and draws the blood to the stomach while the Bisurated Magnesia is an excellent solvent for mucus and increases the efficiency of the hot water treatment. Moreover the Bisurated Magnesia will serve as a powerful but harmless antiacid, which will neutralize any excess hydrochloric acid that may be in your stomach and sweeten its food contents. Easy, natural digestion without distress of any kind should soon follow. Bisurated Magnesia is not a laxative, is harmless, pleasant and easy to take and can be obtained from any local druggist. Don't confuse Bisurated Magnesia, miks, citrates, etc., but get it in the pure bisurated form (powder or tablets), especially prepared for this

Our Fifth Floor is a scene of unusual gayety and activity this week. For two hours each morning, it is thronged with dozens of interested and skilful workers. They gather in informal groups around the little tables and learn from our capable instructors how to make gay flowers and vases.

You can "say it with flowers" very inexpensively too! After a lesson or two, the colored crepe paper will blossom beneath you fingers -into the soft mauve tones of the iris, the flaunting beauty of the poinsettias, or the sunshiny brightness

Honors are equally divided between flowers and wax work. Here are little spurts of blue flame, and a suggestion of incense in the fragrance of melted sealing wax. Vases, beads, candlesticks, and pendants are easily made in harmonious blended colors of cerise, blue, black, gold and copper-bronze.

It won't take you long to learn—there are beginners every day, and you can purchase your inexpensive requirements for this free instruction class on the Fifth Floar. This art opens up a delightful range of possibilities your Christmas gifts, and for bright bits of cheeriness in your home.
