

KOOTENAY MATTERS

The Commissioners Finally Settle the Indian Difficulty.

Mounted Police III with Fever—Three Deserters—Indian Smuggling in Kootenay—The Government Office to be Moved to Fort Steele—Fugitives—Schemes—Roads for Huckleberry—Discovery of Quarries—Lower Kootenay.

Hon. Mr. Vernon, chief commissioner of lands and works, returned a few days ago from an extended visit to the interior. In company with Dr. Powell, superintendent of Indian affairs for the Province, and Hon. P. O'Reilly, Indian reserve commissioner, he thoroughly examined the reserves on the Kootenay and the Mary's river. The commissioners, with Mr. Yewell, S. M. and C. C., and Mr. A. Green, C. E., left Golden in the early part of last month on the steamer Duchess, but the low stage of water in the Columbia river necessitated waiting to be able to arrive at the lower landing. From thence their progress was slow, great difficulty being experienced in procuring provisions, and the result being so far advanced. The commissioners learned at the lower landing that the mounted police had been ordered to take two white men, had been tried by Major Steele, of the mounted police, and acquitted. It appears that no evidence was shown against the prisoners, who were summoned to warrant the prisoner being committed for trial.

CONDENSED DISPATCHES.

The recent cattle stealer of the Indians in Arizona has been repatriated on white cattle thieves, who have been stealing from the Indians.

The storm of rain which has petitioned congress to admit that territory into the Union, and have promised to carry out the provisions of the act.

Foreign deaths from cholera have taken place on board the steamer Aloha, at New York. The epidemic is to be prevented by an avoiding proper hospital accommodation.

The exports of wheat from British India increased from 300,000 tons in 1886 to 2,000,000 tons in 1887. The increase of 1886 over 1885 amounts to 5,000,000 tons.

The poor of London are assembling in large crowds clamoring for work and bread.

Advices from London state that the wool market is depressed.

Excavator Creighton, the convicted burglar, who was sentenced to life imprisonment, was last seen in New Mexico. The K. of L. is still in assembly at Miami.

The citizens of Denver commemorated arrangements with P. S. Gilmore and his famous band to be accompanied by several vocal artists or great vocalists, to be given in that city in June next on the occasion of the 100th anniversary of the settlement of Colorado by the whites. Cantos, songs, and a chorus of 500 voices will be features of the entertainment.

The second race between Courtney and Bunker took place at the Susequahanna and Oswego course on Saturday for a purse of \$1000. The Englishman beat Courtney, leading in the race, and in the third race Courtney was again victorious.

The police of New York broke up a meeting of socialists in Union Square Sunday night. The socialists have since had an indignation meeting, declaring they will make any father interference with them.

Hon. Mr. Powell has returned to Bellville from his recent visit to the Kootenay. George Christie, son of a New York lawyer, is lying nearly dead from the effects of cholera at the college of St. John's.

Advices from Shanghai report that the English gunboat Wasp, which left Singapore on the 10th inst., has been lost with all hands during the recent typhoon.

RED RIVER ROAD.

Ones that Led to the Failure of Norway's Mission—He Believes that the Road will be Built This Season.

Hon. Mr. Norway was interviewed in St. Paul by a representative of the press, and virtually committed himself to the following mission to the east.

"You know, I think I did not do much for the road, but I have exerted every effort and laid out some money to raise and to give to the road. The first cause of the failure of the road, almost amounting to a panic, but the prime cause was, I believe, the fact that the Canadian Pacific railway and the Dominion Government, who approached the matter, were not in sympathy with the project. The Canadian Pacific railway, who approached the matter, were not in sympathy with the project. The Canadian Pacific railway, who approached the matter, were not in sympathy with the project.

The commissioners took great pains to acquaint themselves with the necessities of the Indians, and to make additions to their present reservation, amounting to less than one thousand acres in the Kootenay region. Some of the places that had been improved or used by them. A tract was given Chief Isadore, embracing his house, fence, etc., and another tract was given to the Indians, which the Indians had been in the habit of utilizing. These additions were approved by the Indian Commissioner, Dr. Powell, and declared to the Indians upon their return.

The barracks erected by Major Steele, during his recent visit to the Kootenay, were fast approaching completion but many of the troops were suffering from ill health. The doctor of the force, Dr. Powell, reports that Dr. Powell was suffering severely from an attack of mountain fever, a species of typhoid. Some of the men of the Kootenay were also taken with the same complaint. Dr. Powell, Indian commissioner, attended the sick men with the greatest care, and under his kind and unremitting attention and skill the invalids, from last accounts, were doing well. One of the forces succumbed to the fever before the arrival of the commissioner and was buried not far from the fort. The other, it is understood, has deserted.

Major Steele was extremely kind and assisted the commissioners materially. He accompanied them to the lakes upon their return. The lines on Wild Horse creek, that produced so much wealth in days gone by, are now almost exclusively in the hands of Chinamen.

We understand it is the intention of the government to remove the government office now at Wild Horse creek to Fort Steele for the winter season. It is the public. Mr. Denis, the government agent, has left for the Lower Kootenay to comply with the request of a number of miners who have discovered some valuable quartz mines containing argentiferous galena, and who are now engaged in actively opening and developing them.

Mr. Bellie-Graham's sawmill on Canal Flat was about completed, and the gentlemen making preparations for the winter. The sawmill is understood, are to be erected at Golden next spring and new steamers are to be placed on Columbia river. The bridge over the Kootenay river, now being constructed by Mr. Rock, is for the provincial government, was also examined, as well as other public works in the Kootenay region.

Hon. Mr. Vernon remained over one day at Illecillewett to enquire into the wants of the people of this locality. We understand that the Hon. Mr. Vernon has sent a competent engineer to report upon the cost of making some roads, the necessity for the construction of a road, and brought to his notice. The mines at this point promise to be of great value in the near future.

The visit of the commissioner cannot but be productive of much good and sets at rest for the Indian difficulty respecting reserves on the Kootenay. The isolation of this Upper Kootenay from civilized centers, the outgrowth of the Indians to American territory, the encroachment of the Blackfoot in the Northwest territory, and their knowledge as to the manner in which annuities are given by the government, and the Yaltonian arguments, as well as food, etc., combined with the fact of so few whites being resident in the Kootenay valley, doubtless excite them to exercise a kind of terrorism and give them an exaggerated idea of their own power and importance. The government, however, would probably be most salutary effect, and it is to be hoped they will be retained by the Dominion government under their present management. Major Steele, in Kootenay for some time to come. Dr. Powell is expected to return in a few days, a medical gentleman having arrived at Golden some time since on route to Fort Steele to relieve him.

CAPITAL NOTES.

The Provincial Secretary Reaches Ottawa and has a Conference With Sir John.

Indian Affairs and Other Subjects Discussed—Canada's Debt Reduced a Million in September—Local Milling.

(From our Own Correspondent.)

OTTAWA, Oct. 7.—Hon. John Robson, provincial secretary of British Columbia, arrived to-day and held a lengthy conference with the premier on Indian affairs and other subjects. He says he does not know whether he will attend the Inter-Provincial Conference or not.

W. J. Quinn has been appointed lieutenant-colonel of the 1st Battalion of the New Westminster militia.

In September the public debt of Canada was decreased over a million dollars.

LECTURE ON HYGIENE.

Delivered by Dr. G. L. Milne before the High School Pupils—A Subject of Interest.

A study of anatomy has been ordered in all the higher divisions of the public schools of the province, and all the text-books now in use are so arranged that the same have been provided; but to thoroughly illustrate and define the study needs the interpretation of a skilled medical man. Mr. Dr. G. L. Milne, a specialist in education, having invited Dr. G. L. Milne to deliver a course of twenty minute lectures on the subject of hygiene, and the first lecture of the course took place yesterday.

The lecture was given in the High School building, and was attended by a large number of pupils. The lecturer, Dr. G. L. Milne, is a well-known and popular lecturer, and his lecture was most interesting and instructive.

The study of hygiene has of late years become more of a science than in former times, and in the case of disease, has become much more of a science, and it is, therefore, of great importance that the children of our schools should be taught the principles of hygiene, and that they should be made to understand the importance of cleanliness, and the necessity of proper ventilation, and the necessity of proper food, and the necessity of proper exercise.

The lecturer, Dr. G. L. Milne, is a well-known and popular lecturer, and his lecture was most interesting and instructive. He explained the importance of hygiene, and the necessity of cleanliness, and the necessity of proper ventilation, and the necessity of proper food, and the necessity of proper exercise.

BOULANGER AND MACKAY.

Their Joint Interest in the Great California Wheat Corner.

Why the Frenchman Worked up the Recent Flour Shortage—The American Collector of San Francisco.

A few days ago we thought we had seen the last of Boulanger and Mackay. Their joint interest in the great California wheat corner, which has been the subject of so much speculation, has been the subject of so much speculation, and the result has been the subject of so much speculation.

The Frenchman worked up the recent flour shortage, and the result has been the subject of so much speculation. The American collector of San Francisco, who has been the subject of so much speculation, has been the subject of so much speculation.

The Frenchman worked up the recent flour shortage, and the result has been the subject of so much speculation. The American collector of San Francisco, who has been the subject of so much speculation, has been the subject of so much speculation.
