HOW TO SAVE LIFE.

houses well ventilated and the water

tions." But what is Mr. Greenway to get in this conciliation deal? What is to be done to compensate him for the risk he runs and the trouble he takes. Us is not the him of members to Cadiz and as they witness the Us is not the him of members to cadiz and as they witness the He is not the kind of man to permit him-self to be passed over when there is any-departure of the troops they weep and

There are many disbelievers even in these days in sanitary science. Those disbelievers record the man who talk disbelievers regard the men who talk about taking precautions against the spread of disease, who insistupon having more definite before the negotiations are more definite before the negotiations are disbelievers regard the men who talk leagues and supporters. There is a whis- be in imminent danger of lynching. The

supply made pure and kept pure, as faddists, as a kind of amiable cranks

addists, as a kind of amiable cranks who are sometimes a little troublesome, and who every now and then require to be sat upon heavily and resolutely. It is a pity that these sceptics could not be convinced that they are the en-emies of themselves, of their own fam-ilies and of their fellow-citizens. If they could be convinced that attention to ilies and of their fellow-citizens. If they could be convinced that attention to what they regard as matters of little consequence saves the lives of thousands of men, women and children every year in the cities of the civilized world, they would change their minds and see that

the general health and diminishing the general mortality. They will hear with incredulity that what they call faddism and fussiness has been the cause of lengthening the average term of life in most parts of the civilized world, and would make life even still longer if they would make life even still longer if they

At the Congress of the Sanitary Insti-tute held in Newcastle in the early days of the present month. Professor Corfold of the present month, Professor Corfield killed them on the spot. The same man is still wonderfully large. The number cution of the Company's undertaking and delivered an address on sanitary science told me that on June 21 several of names on the list amounts to nearly a delivered an address on sanitary science total me that on supe 21 several of names on the list amounts to nearly a and preventive medicine. In this ad-dress he sketched the progress made in certain district near which the Japanese certain district near which the Japanese the very ording. The actual number of the re-cipients of the nation's bounty was for follows: the preservation of the public health soldiers had been burning villages. and discussed various current questions Most of the inhabitants had fled and and this multitude receive in the aggre-

bounds of possibility that the permanent alas for them! On June 23 and 24 soldeath-rate of a mixed community should diers were sent to these villages and be as low as 10 per 1,000 per annum? With a death-rate of 10 the The Chinese complain that The Chinese complain that many of would be 551/2 with a birthrate of 30, and bands of robbers that infest the moun- forged documents. It is said, too, that Now, the mean length of life in London lagers are treated as the correspondent sion frauds and that the pension list is, during the past 18 years was nearly 39 years, and in St. George's, Hanover-describes it is not surprising that they square, in 21 years, over 55 years; while are ready to do anything that gives them during the last 10 years the figures were 40½ years for London and nearly 60 for St. George's, Hanover-source A mean St. George's, Hanover-square. A mean length of life of 51 years, which, with a death-rate of 10, would merely imply a birth-rate of 30-the present birth-rate
