Bufalo, N. V. A. rs.

One morning several years age, just as the in the back, wounds and sores it is the best known remedy, and much trouble is save i dull grey light was beginning to show itself

known remedy, and much trouble is save to be the cast, a small band of men might have been seen deployed about a house on Ferry atreet in Buffalo. There was nothing special either in the dress or appearance of the man to indicate their intention, but it is man to indicate their intention. the men to indicate their intention, but it was plain that they had business of importance on hand. Suddenly a man appeared at one of the windows, took in the situation at a glance, and swinging himself outward with wonderful quickness, scaled the roof.

A number of little Spanish boys near Satta Barbara, Col., make a very good living by killing humming birds and selling them to be stuffed. They get from ten to fifteen cents a piece for them and kill them with slings, using small gravel or bird shot. with wonderful quickness, scaled the roof.
This man was Tom Ballard, the notorious counterfeiter, and armed to the teeth and fully realizing his situation, he defied justice and the officials below him. Some of the officers, knowing the desperate character of the map, proposed to shoot him until he was killed, but one of the number prompt y protested, and declared that if his brother officers would assist him to ascend he would counterfeiter, and armed to the teeth and officers would assist him to ascend he would

protest d, and declared that if his brother officers would assist him to ascend he would capture the man alive. Accordingly he began the difficult and dangerous task, and succeeded in bringing his prisoner to the ground in safety.

The man who accomplished this tack was Mr. Thomas Cartin, the present superintendent of city police of Baffal 2, N.Y. Mr. Curtin is a man who is known by very prominent detective and policeman in America, and he stands preseminently in the frost rank of his profession. Quiet and gentlemanly in appearance and manners, he pofessess a courage, combined with marked physical polyers, that make him the tarror of evil-doers and the pride of law-abiding citizens. Eaw people can realize, however, the trials, exposures, and even privations, to which the members of every municipal polices and fire department are exposed. Compelled to be on duty at uncertain hours, subjects at other most inclement weather, and ofter necessitated by the nature of their duties to protracted undertakings, they endure a nervous and physical strain that is terrible. Such was the experience of Mr. Curtin in former days, and it is not surprising that he found himself suffering from a mysterious physical trouble. In relating his experience to a representative of their duties to protracted undertakings, they endure a nervous and physical strain that is terrible. than a year I have enjoyed almost perfect

on the road to certain death by Bright's
disease of the kidneys and traveling at a

McGregor's Speedy Cure.
From the many remarkable cures wrought
by using McGregor's Speedy Cure for dyspersia, indigeation, constipation and affection of the liver, and from the immense sale
of it without any advertising, we have concluded to place it extensively on the market,
so that those who suffer may have a perfect
cure. Go to F. T. Burgess' drug store, 364
King street east, and get a trial bottle free,
or the regular size at 50 cents and \$1.

"That is just what I want to tell you, for I believe it may be of great service to many others in my profession, who may possibly hear of it. I began the use of a popular remedy at the earnest solicitation of a number of friends in this city, and found to my great gratification that I began feeling better. This feeling continued, and I gained in strength and vigor until now I am perfectly well—and wholly through the instrumentality of Warner's Safe Cure, which I believe to be the best medicine for policemen, firemen, railroad men, or any other class of people exposed to dauger or a change of weather, ever discovered. Since my recovery I have recommended it everywhere, and never knew a case where it failed either to cure or benefit. I would not be without it under any consideration, and I am positive it is a wonderfully valuable, and at the same time entirely harmless remedy. Indeed, I see that Dr. Gunn, dean of the United States medical college of New York, andorses if in the highest terms."

"So you experience little difficulty in the execution of your duties now, Mr. Curtin, do you?"

"None whatever. Our department was "None whatever. Our department w

"None whatever. Our department was never in better condition than at present."

"And do you never have any fear of some of the desperadoes whom you have been the means of bringing to justice?"

"Not in the least. Such men do not try to retaliate, partially because they have mot the courage, but oftener because they respect an officer who does his duty."

The policemen, firemen, letter carriers and other public employes in this country have a particularly trying life. When, therefore, a simple and pure remedy that can rectore and sustain the health of all such men is found, it should be cause for great congratulation, especially when great congratulation, especially when great congratulation, especially when tendent Thomas Curtin of Buffalo.
