"Canada as a Hostage"

The issue in the United States at the present time is called "Preparedness," which means,-Is the Republic to get ready for the future with trained soldiers and guns or with more reams of note paper. Naturally in the discussion that is going on the name of Canada is brought in "Enclosed find \$1 to keep me in good from time to time. One writer in standing. We look forward each week 13 A. E. C. Billings of Brooklyn answers the argument as follows:

But how "take Canada?" It cannot be done by a rhetorical flourish. Your correspondent speaks of the subjugation of Canada as though it could be easily accomplished by sending a portion of our small army, and perhaps a few regiments of National D. D. Could this be so easily done in the face of Canada's veteran army of 200,000 or 300,000, or perhaps 500,000 men, fresh from European battle-fields? We might find, while we were getting ready in our easy-going manner to go through with the necessary red tape incident | us! to mustering in the National Guard. that Canada had assumed the offensive and that we ourselves were more likely to be taken as "hostages."

A Lucky Decision

One day a Montreal girl decided FIRE, ACCIDENT AND SICK BENEVIT she would take the Government course and become a nurse, and qualify for her Lieutenancy. So she vent down to Halifax when she was 'off a case," and passed her examinations. That was in June, 1914. Who in Canada ever dreamed of war then? But war broke in a month's time and she was immediately called Ticket Agent For C. P. R.-Ticket upon for war service. She went to ngland in the early autumn and King, His Majesty, King George. A well-known Petrolea boy attempted to enlist and was found to be physically fit, but was turned down on account of being under age. A splendidly fit young fellow named H. Marchant from Dawn Tawnship also applied. He was such a big fellow that he easily appeared to be over 18. but was discovered to be only 15 and accordingly was refused. Both these boys were greatly disappointed at their failure to get into khaki.

Making it Swim

From the Philadelphia Public Ledger.
There is a story told that some years age the keeper of the lighthouse on Tory island got married to a London girl, and his wife had among other effects a piano sent after her to her new home. By and by the news reached the island. By and by the news reached the island that the instrument was on the mainland perhaps a few regiments of National and two islanders were dispatched in a Guard hastily mustered into the lugger to fetch it across. The lighthouse Federal service, across the Canadian keeper and his wife were waiting the arrival of the piano, which was to bright-en the long winter evenings, but to their disapointment they saw the boat return-

"Where is the piano?" shouted the lighthouse keeper when the lugger had got within hailing distance.
"It's all right," replied one of the boatmen. "Sure we're towin' it behind

Not the Soldier's Fault

General Leonard Wood took in to dinner at a Washington party a young woman who had just returned from 'The young soldiers," she said "are

having it all their own way with the girls over there now Too much their own way, in fact. I know of a young lieutenant in the Blues who is said to be engaged to seven girls simultaneously."
"Oh, well," said General Wood with a deprecatory smile, "oh, well, Cupid, of course, is using a machine gun these days."

The Bowels Must Act Healthily.-In most ailments the first care of the medical man is to see that the bowels are open and fully performing their functions. Parmelee's Vegetabe Pills are so compounded that certain ingredients in them act on the bowels solely and they are the very best medicine available to produce healthy action of the bowels. Indeed, there is no other specific so ser-viceable in keeping the digestive organs in healthful action.

MILITARY NOTES Every young Canadian who puts on the

King's uniform brings the end of the war some fraction of time nearer.

A widow in Wellington, New Zealand, on applying for a pass to be present at the departure of reintorcements, was asked "Are you next-of-kin to a soldier?" ed "Are you next-of-kin to a soldier."

She answered, "Yes, I have only one left. I had eight boys; seven are already gone, four are killed, three are wounded, and now I am sending my last. There is only me." The men of the 149th have received

an issue of leather mitts. The mitts are strongly made of leather and fur-lined and are comfortable. The meu appreciate them, and feel that everything possible is being done for their comfort by the militia authorities.

Young man! aren't you ashamed of yourself when you see the fine fellows in the Watford Co., training to fight your battles, to preserve your freedom, your honor and home? You know without being told that you should be in khaki. There is a uniform waiting for you! Get into it!

New Garage at Bothwell

The Heart of a Woman

Reid Bros., of Bothwell, the well known firm who has secured the district agency for the Chevrolet, have just completed a new cement garage at Bothwell. It is a handsome and convenient building 40x40 feet, with large front and rear doors, for driving right through. It has large plate glass windows on either side of the front door and sufficient other windows to well light every portion of it. The building has a repair department where a stock of repairs for the Chevrolet will be kept on hand. There is also an apartment for cleaning cars for customers and tourists. A general garage trade catered too, and the word of the women folk, but it does not mean that British women would not do the same for their husbands or sons. They are not allowed to do so, and they don't have to, and that is all the difference. Their hearts are just as big and their love as keen, as those unfortunates almong our Balkan Allies.
