

Peruvian Guano Substitute.

BAUGH'S RAW BONE SUPER-PHOSPHATE OF LIME

BAUGH & SONS,

Sole Proprietors & Manufacturers,

Delaware River Chemical Works, PHILADELPHIA, U.S.A.

For Wheat, Rye, Barley, Corn, Oats, Potatoes, Tobacco, Buckwheat, Sorghum, Turnips, Hops, Garden Vegetables, and every Crop and Plant.

Especially recommended to the growers of

STRAWBERRIES, RASPBERRIES, BLACKBERRIES, AND ALL SMALL FRUITS.

MORE than 15 years of regular use upon all description of Crops grown in the Middle and Southern States, has given a high degree of popularity to this MANURE, which places its application, now entirely beyond a mere experiment.

BAUGH'S RAW BONE SUPER-PHOSPHATE OF LIME,

is eminently a success as a Substitute for Peruvian Guano and Stable Manure—and is offered to the Agriculturists of the Northern and Eastern States and British Provinces, as a fertilizer that will cheaply restore to the Soil those essentials which have been drained from it by constant cropping and light manuring.

IT is very prompt in its action—is lasting in effect to a degree unattained by any commercial manure in the market, and is afforded at a much less cost than bought Stable Manure, or Peruvian Guano. The labor involved in its use is far less than that of applying stable manure, while there is no risk from the introduction of noxious weeds.

Farmers are recommended to purchase of the dealer located in their neighbourhood. In sections where no dealer is yet established, the Phosphate may be procured directly from the undersigned. A Priced Circular will be sent to all who apply.

Our NEW PAMPHLET, 'How to Maintain the Fertility of American Farms'—90 pages, giving full information in regard to the use of manure, &c., will be furnished gratis on application.

ATTENTION!

BEE-KEEPERS!!

HAVING purchased the interest held in the Firm of J. H. Thomas & Bros by H. M. and N. M. Thomas, the business will hereafter be conducted in my own name, with the same promptness and despatch as heretofore.

Being now more favourably situated, I shall endeavour to raise the business to a standard never before known in America, and make Brooklyn the "head-quarters" in Canada, in the truest sense of the word. Believing that nearly all Italian Queens offered for sale have a dash of black blood, I have, at great expense, secured queens for breeding purposes bred from last year's importations. Queens bred from these and guaranteed pure, \$5. I have also made arrangements to import, direct from Italy, an Italian queen at a cost of \$50. The order has gone forward, and if successful, she will arrive about the last of June, when I shall be able to supply a limited number of queens bred from a native purity, price \$7. Having secured the services of an experienced apiarian to assist me I shall be able to supply the demand. No queens will be sent away until proved to have met it with pure drones. Safe arrival by express guaranteed. All orders will be registered, and filled in regular order as received. I shall also be able, in the fall, to supply a limited number of Italian Stocks, in my Movable Comb Hives, at the following prices:

In the S. B. Hive, including a right to make, \$15; in the D. B. Hive, including the same \$10.

They will be securely put up and sent by express at the risk and expense of purchaser. Third stereotyped edition of the

BEE-KEEPER'S GUIDE,

now ready, price 25 Cents, post paid.

N.B.—All orders for Hives, Books, Bee-furniture, and Pure Queens must be accompanied with the money, and addressed to

The market continues quiet with a slight tendency to rise. Flour—Some lots sold at \$7 90, and to-day a lot of 600 barrels changed hands at \$9. The market closes firm and with an upward tendency.
