

The Live Stock.

THE FAT SHORT-HORN HEIFER, "CLARA."

THE annexed beautiful Engraving will be recognized at a glance by all who attended the last Provincial Exhibition, as a life-like picture of the first prize fat heifer, "Clara," owned by Mr. Alexander Watt, of Salem, Township of Nichol, and County of Wellington, Ontario. This fine animal having failed to breed, was reluctantly put up to fatten, and visibly out-distanced all competitors at

the Provincial Fair. Our Artist, Mr. Page, has displayed his extraordinary ability by giving a somewhat unusual view of the animal, having "fore-shortened" her, (we believe that is the professional term for "Clara's" attitude), and it will be conceded by all judges that he has succeeded admirably in "doing" her to the life.

We subjoin the pedigree and a few particulars as kindly furnished us by the owner:

"CLARA," 23 New Series, red and white, calved May 29, 1866; bred by, and the property of Alex.

FIRST-PRIZE FAT COW OR HEIFER AT THE PROVINCIAL EXHIBITION OF 1869;

"CLARA," THE PROPERTY OF MR. ALEXANDER WATT,
SALEM, ONTARIO.

Watt, Nichol, Wellington County; got by North Wellington, (508); dam Mayflower 2nd, by Friar John, [273], 2892, (12905)—gr. d. Mayflower, by Fortworth Duke, (13892)—gr. d. d. imp. Margaret, by Snowball, (8602)—Redneck, by Harbinger, (9183)—by Nonsuch, (4581).

"Clara" was always a neat, compact animal, with a splendid constitution, very much inclined to fatten with moderate care, laying on layer after layer of beef, with surprising evenness, showing off

the points of a well-bred Short-Horn to perfection; in short, a perfect model of substance and beauty.

"Clara" was exhibited seven times, at Township, County and Provincial Exhibitions, always taking the red ribbon, twice as a calf, twice as a yearling, twice as a two-year old, and lastly as a fat heifer, at the Provincial Fair in London, last September, where she was sold to Mr. Smith, of Detroit, for \$300, to be fed until Christmas, and then slaughtered for holiday beef."
