

the building, and the two exhibiting rooms and great entrance court from the Court of the Fountains side of the building, lie on either side. Along each side of this court, and extending the entire length, are roof-covered arcades under which the visitor may find rest on the comfortable benches.

The pool itself is 175 feet long and twenty-seven feet wide. It is placed in the centre of the court. The bank is sodded and planted on all sides, forming a pleasing frame or border effect; the water is low so as to receive the reflection of the growth around the pool.

The fountain is an important feature, placed in the centre of the pool, and giving life to the scene and freshness to the atmosphere. Throughout the court are pleasant walks and paths, bordered with low-growing shrubbery and plants, and at

intervals at axis-points with the arcades, rare plants are placed in great vases, making a truly architectural landscape effect. The entire scheme gives the effect of an admirable enclosure of a mission cloister, and is planned as one of the many little oases for the refreshment of the weary sightseer.

WOOLEN MILLS CONSOLIDATION.

After negotiations extending over six months, an amalgamation of a number of the principal woollen mills in Ontario has been effected, the mills that have consolidated their interests being those at Hespeler, Waterloo, Lambton, Markham and Carleton Place. The negotiations were conducted by Mr. Reuben Millicham, who announces that a charter would be issued at once to the new company.

The amalgamation will have an important effect upon the woollen industry of the country, as it will result in a large saving in operating expenses.

The new company is capitalized at \$2,000,000, of which \$800,000 is paid up. The mills and machinery were valued on a cash basis, the owners taking paid-up stock for the full price of their mills. Mr. W. R. Brock is president of the company, and the provisional directors are: Messrs. T. Eaton, Toronto; A. W. Brodie, Hespeler; John F. Morley, Waterloo; George F. Benson, Montreal, and R. Millicham, Toronto. Instead of a manager for each mill, as is now the case, there will be only one manager, who will be appointed at the first meeting of the board. The different selling agencies are also to be adopted, and a central selling agency established in Toronto, with Mr. R.
