

Orphan Boy Gold Mining Co'y.

LIMITED LIABILITY.

Incorporated under the laws of the Province of British Columbia, Companies' Act, 1890, and amending Acts.

CAPITAL STOCK:

700,000 Shares, - - Par Value \$1.00 Each

TREASURY STOCK:

200,000 Shares, - - Par Value \$1.00 Each

Head Office: REVELSTOKE, B.C.

Officers:

President—E. H. WEDEKIND, Trail, B. C.

Vice-President—J. W. HASKINS, Revelstoke, B. C.

Sec.-Treasurer—F. C. WHITNEY, Revelstoke, B. C.

Directors:

E. H. Wedekind, J. W. Haskins, F. C. Whitney, H. N. Coursier,
H. A. Brown, Chas. R. Carlyon.

Manager:—J. W. HASKINS, Revelstoke, B. C.

All preparation is being made to put up a mill on the Chilian principle, "which has been highly recommended by experts as the best for the ore," in the spring.

Power.—An unlimited supply of water power can be had by bringing it from the creek which runs through the claim.

Stock.—In the original transfer from the locator it is agreed that stock shall not be assessed by any Board of Directors or Managers. Also in the by-laws. No shareholder shall be liable for any contracts let, the claim only must be security, provided there is no money in the treasury for such work.

First block of 100,000 Treasury shares now on the market at 15 cents per share.

This prospectus was printed and circulated by the Board of Directors.

In placing the Treasury shares of this Company (limited liability) on the market, the Board of Directors are confident that they are offering the investing public a grand opportunity for a CHEAP, SAFE INVESTMENT in one of the future great mines of the famous Ground Hog Basin which has contributed from its placers \$1,250,000.00 from the surface alone, and at the present time, a bed rock, has struck it very rich again.

The Orphan Boy, taken strictly as a legitimate mining venture, affords the biggest opportunity of any property in the district. With its excellent natural surroundings, its large deposits of high grade ore, the owners of the Orphan Boy claim for this property that for the amount of development done, it has not an equal in the district, and is open for inspection for anyone to visit.

Situation.—The property of the Orphan Boy Gold Mining Co. is situated on the south slope of McCulloch Mountain on the head waters of the West Fork of McCulloch Creek, commonly known as Barrett Creek, and is a full 53 acre claim lying between the Rosebery and Homestake, which are now under bond to large English syndicates which will be pushed vigorously to the Spring.

Title.—The title is absolutely perfect, the Orphan Boy Gold Mining Company being in possession of a deed from the original locator. The Company has no indebtedness, bonded or otherwise.

Topography.—The surface of the claim slopes at an angle of about 45° on each side of the creek, which runs through the centre, thereby affording excellent advantages for development, either by tunnel or shaft, and abundant water power for all purposes.

Timber.—Abundance of standing timber, sufficient for mining and building purposes for years to come, covers the surface of the claim.

Veins.—There are three separate parallel and distinctive veins, running north and south from 18 to 30 inches wide at a distance of 30 feet apart. Also in an easterly direction at a distance of 400 feet there is an outcrop of about 8 feet wide. The veins are all strong and have been found regularly in place, cutting the slate formation at right angles, being free from the walls with casing from 1 to 2 inches wide, which is rich in free gold.

Ore.—The ore from the Orphan Boy is quartz carrying free gold and sulphurets of iron which will render it a free mill chlorination or cyanide which has proved so satisfactory in treatment of the Cariboo ore, saving 95 per cent of all gold in the ore. A fair idea of the values of these ores can be gained from the following assays:

No. 1. Solid sulphurets of iron give 7 oz.—\$140.00.	No. 4. Quartz all along lead, (no free gold)—½ oz.—\$100.
No. 2. Tale or casing give ½ oz.—\$10.00.	No. 5. Cream Quartz, 64 oz.—\$1280.00.
No. 3. Decomposed quartz give 3.6 oz.—\$72.00.	No. 6. Mill test, 1.96 oz.—\$39.20.

The above are not picked assays, but are all the assays ever made on the ore from the Orphan Boy, except No. 7 which is a small ½ inch lead running into the 30 inch fissure vein.

Development.—On the 30 inch lead a shaft is being sunk 100 feet deep, and on the 8 foot lead a tunnel will be driven 100 feet this winter, 5 men being employed since the 1st of October, 1896. A good house and blacksmith shop is now on property.

For further particulars, or any other information, address the secretary, F. C. WHITNEY, Revelstoke, B.C., or BARRETT, HEWELL & McDONALD, Brokers, Rossland, B.C.
