mittee of Supply, being read;
Hon Mr Hineks moved, That the House do now
resolve itself into the said Committee;

Hon Mr Boulton moved in amendment, That all the words after "That," to the end of the said mo-tion be left out, in order to add the words, "the appropriation and expenditure of the Public Revenue of this Province by the discretionary authority of the Executive Government without any legislative appropriation previously made in that behalf, necessarily tends to extravagance, and a wasteful expenditure of the public money, to the great detriment of the best interests of the people.

"That to prevent in future any expenditure with-out the sanction of the Legislature, it is expedient that no warrant should be signed, issued, or addressed to the Receiver General, or any other public functionary, for the payment of any sum of money whatever out of the public revenue of this Province, unless the amount and purpose of such pay ment shall have previously been authorised by legislative enactment, to be named and expressed in the body of each warrant as the authority for issuing the same, and that no contract should be entered into, nor authority given by any member of the government, or other public officer in this Province, involving the expenditure of public money, unless authorized by an express Act of the Parliament of this Province so to do;
"That no pension should hereafter be granted or

paid to any public functionary whatsoever, nor should any public functionary receive any Pension, until in each particular case an Act of the Parhament of this Province shall hereafter be passed determining the amount thereof, & the period when such pension should commence, and to which the same should continue to be paid, any Act heretofore passed, or any usage, Order in Council, or other matter or thing to the contrary thereof in any wise

notwithstanding;
"That no public functionary, officer, clerk or other person, should be employed in any ordinary duty, office or employment, or receive any cinclument for the performance of any public duty or service, until the office, duty or employment, shall have been created or authorized by an Act of the Legislature, expressing in general terms, the duties of each officer, and the services which he shall be required to discharge, or the office in which each subordinate shall be intended to be employed: Prorequired to discharge, or the office in which each subordinate shall be intended to be employed: Provided that no such regulation should extend or be construed to apply to the appointment or duties of the Governor General, or other person administering the Governor General, or other person administering the Government of this Province, nor to the expenditure of any sum granted by the Legislature for unforescen, casual, or contingent expenses to be accounted for at any ensuing Session of Parliament;"—Yeas, 8:—Nays, 53.

New Steamboat arrangements.

We sincerely regret being obliged to state, that the "Through Line," that line of steamers whic we foundly hoped would have commanded universal Lines at full prices; and so, after mature delibera-tion and due consultation, the steamboat owners have determined to lay up one Line. Consequently the Passport and New Era will no longer make their weekly trips, and the Comet will become a regular Freight Steamer in the business of Messrs. McPherson & Crane. The River Mail Line and the Lake Mail Line will continue their daily trips as before, with this difference—that in a few days the new Highlander, one of the finest and fastest vessels affoat, will take the place of the Canada in the River Mail Line; the latter vessel going into the Freight business of Messes Hooker & Holton. Capt. Stearns, the most popular steamboat Captain on the Canadian waters, will resume the command of the new Highlander, while O'Connor will leave the Canada for the Lord Elgin.--Whig.

TORONTO NECROPOLIS.

NOTICE.

THE DIRECTORS of the TORONTO NECROPOLIS beg to inform the Public that the ground is now completed, and the Cemetry will be open for Interments from this date, and that they are now in a condition to receive applications for PLOTS of GROUND for Private Tombs or Family Burying Places.

In the selection of a piece of ground for the formation of the Toronto Necropolis, the Directors endeavored to the Foliation rections, the Directors entervoice to keep in view, and secure certain accountages, which it appeared to them desirable, that every Cemetry should posses. The advantages referred to are the following, viz.:—1st. Amenty or beauty of situation. 2nd. Proximity to the City, or convenience of access, combined at the same time, with that peaceful seclusion which all admit to be so appropriately associated with the Grave, as the resting-place of the remains of departed relatives and friends. 3rd, The highest attainable security that the remains therein deposited shall continue undisturbed, and not hable to be removed or intruded upon, in any way; and this at such a moderate expense, as might be within the reach of all classes of the community.

It gives the Directors the utmost satisfaction to have to state, that in the situation fixed upon for the Poronto Necropolis, (which is towards the North-east of the City, and bounded by the River Don.) all these advantages have been secured in a very connent degree, and this upon such moderate terms as, it is confidently believed must secure the approbation of the Public generally.

1st. For amenity or beauty of situation it will be admitted by every one who has examined the grounds, that

the Toronto Necropoles stands unrivalled.

2nd. Proximity to the City, combined with solutide and rearement. The Necropoles is situated within a convenient distance from the city, and at the same time is as seeladed and retired as if it were at the distance of several miles. The access for carriages is by two spacious Gothic gates, one placed near to the Superintendent's house on the plank road leading to the Don, and one on Sumach Street, which Western gate forms the centre, and main entrance to the grounds.

The security of the ground as a place of deposit for the remains of departed friends, has been promoted by every possible means and is most effectually protected and guardpossible means and is most effectually protected and guarded, and in this the Directors have spared neither labor nor expense, considering the perfect security of the ground, as an object of the highest importance. In surveying and laying off the ground into plots, the Directors have kept steadily in view the propriety of meeting the desire now so generally felt by almost ail parties, to secure for themselves and families the exclusive property of a private bit vine place, and in order to accommodate as far ying place, and in or accommodate as 18 as possible, they have arranged for the disposal of lairs in all the different blocks, and fixed the prices, varying from 5s. to £5 according to situation and size of lot.

Whilst the Directors feel anxious to encourage the ac-

quisition of such private plots, they have, however, set aside a considerable portion of the ground for public use

The semicircle of the mound, at the eastern extremity which overlooks the River Don has been laid off for the erection of vaults for such as may prefer them. These vaults can be constructed, so as to admit of interments either in the soil within the building or in catacombs, to be erected along the walls, as may be preferred by the

Arrangements have been made for the erection of Public Vault in the centre of the ground.

With respect to the regulation for interment, the Necropolis will be conducted on the most convenient and unexceptional manner. The whole grounds are thrown open to all sects, without distinction; leaving it in the option of every family, to bury, either with the service of clergy of any denomination, or without any service of all

Parties purchasing plots will be allowed every facility and encouragement for enclosing their ground, or erecting monuments or tombstones, according to their various tastes and wishes (subject always to the regulations, adopted or that may be adopted from time to time, by the directors.) The directors only reserving to themselves, this right, for the purpose of preventing any undue interference with neighboring plots or with the general beauty or amenity of the ground.

The directors respectfully invite the public to an early personal inspection of the grounds, and feel the utmost confidence that on examination it will be found to compare favorably with any other cemetry in the country every information relative to the Necropolis can be obtained by application to
SAMUEL SPREULL, Secretary,
