THE LATEST. THE BEST.

SIXTH EDITION

—OF—

ARITHMETICAL
PROBLEMS

—FOR—

Senior and Entrance Classes
in Public Schools,

—BY—

G. H. Armstrong, Principal Niagara Street School, Toronto.

This edition contains nearly 900 Problems. The Entrance Papers for the last twelve years are appended, also the Public School Leaving Examination Paper for 1892. The answers to all the Problems are given. No other work possesses these features. Seventy-five per cent. of the Public Schools of Ontario use it, also several Commercial Colleges.

READ WHAT TEACHERS AND INSPECTORS SAY OF IT:

I am highly pleased with your Arithmetical Problems for Senior classes. It suits my Entrance candidates exactly. A book such as this is needed by every Fourth Class pupil.—Geo. KIRK, Head Master M.S., Chatham.

I have just examined your Arithmetical Problems for Senior classes. The problems are very suitable and the collection must prove very valuable to teachers. I heartily commend it.—G. D. PLATT, B.A., P. S. Inspector, Prince Edward.

After a careful examination of your "Arithmetical Problems for Senior Classes," I find them well graded and very suitable for the purpose intended. The teacher who uses them for home or class work, will save himself a vast amount of labor, and in all probability secure to his pupils much better results.—J. S. DEACON, Inspector, Halton.

I have no hesitation in saying that for the purpose for which it is intended the work is infinitely the best with which I am acquainted. Its strong point, to my idea, is the logical, sequence in the problems by which the pupil is almost insensibly led on step by step until he reaches quite a difficult style of question. The printer, too, has done his work very well, and there are but few typographical errors. I shall certainly recommend every teacher in my inspectorate to use a copy.—J. C. MORGAN, M.A., Inspector, Barrie.
