Mercantile Summary.

THE steamship *Damara*, of 2,500 tons, built for the Halifax Steam Navigation Company, and launched at Glasgow, Scotland, on the 18th instant, will sail for Halifax on the 2nd prox.

TENDERS are asked for city of Toronto corporation debentures maturing at the expiration of 40 years, and bearing interest at four per cent. The amount is £47,200 sterling, or \$229,706.

THE appointment of Mr. Albert Clemens Killam, formerly of the legal firm Ross, Ross & Killam, of Winnipeg, to a puisne judgeship of the Manitoba Court of Queen's Bench, has given lively satisfaction in that province.

MR. W. W. NATION, for some time manager of the Dominion bank at Uxbridge, has been promoted to the post of inspector of the bank, and Mr. Robert Ross, late of the same bank, has been appointed manager of Uxbridge agency of that bank.

T. A. Gossan, a general store man in Carleton place, Man., has found himself unable to carry out the arrangements made with creditors some fifteen months ago. The stock will probably be sold for benefit of creditors. G. C. King & Co., traders at Colgate, N.Y., are offering sixty cents in the dollar.

WE observe that the commissioners from Canada to the exhibition at Antwerp, who are Messrs. S. C. Severn, of Montreal; A. W. Wright, Toronto; A. H. Litch, Bowmanville; and R. Pingle, Cobourg, have been in Ottawa making arrangements with the Department of Agriculture for the exhibition. One of them states that the Canadian exhibit will be a tolerably good one, although the time to prepare it was too short.

AN excellent grocer, says the St. Thomas Journal, purchased a quantity of eggs and apples from a farmer on Saturday, which were to be delivered. The farmer getting a chance to sell his eggs for a cent a dozen more and the apples for five cents a bag more, did so; and upon the grocer threatening to put the matter in Chief Justice's hands, the greedy farmer became greatly excited and handed the grocer a sum of money to refrain from prosecuting.

WE are told by the gentlemen grave digger in the city that a tanner's body will last for some time, his life being so tanned with his trade that it will resist decay a great while. It would seem that the trade in question is a potent charm against some diseases as well, for we learn from the *Tanner's Gazette* that during the recent epidemic of cholera in India, tanners were not attacked by the disease, and that the epidemic was less severe in towns containing tanneries.
