

D. Guidelines for Schedule 3 1/

The following criteria shall be taken into account when considering whether a dual purpose chemical or a precursor chemical, not listed in other schedules, would be included in Schedule 3:

A. Dual purpose chemical

1. It is produced in large commercial quantities 2/ for purposes not prohibited by the Convention, and
2. it has been stockpiled as a chemical weapon, or
3. it may pose a risk to the objectives of the Convention by virtue of its physical, chemical and toxicological properties being similar to those of chemical weapons.

B. Precursor chemical

1. It is produced in large commercial quantities 2/ for purposes not prohibited by the Convention, and
2. it may pose a risk to the objectives of the Convention by virtue of its importance in the production of one or more chemicals listed in Schedule 1, or in the production of precursors to such chemicals 3/ [ , and
3. it contributes one or more atoms other than hydrogen, carbon, nitrogen or oxygen to the final listed end-product 4/].

---

1/ These guidelines are in the process of further consideration and development.

2/ The question of a quantitative criterion, possibly including a numerical threshold, requires further discussion.

3/ A view was expressed that only precursors which may pose a risk to the objectives of the Convention by virtue of their importance in the production of one or more chemicals listed in Schedule 1 or 2 part A should be included.

4/ Whether this criterion is unduly restrictive should be further discussed.
