Description:

Reciprocal visits by Canadian and Dutch specialists.

Origine/Background:

In the spring of 1984 an Ontario delegation of specialists in the field of vocational education visited the Netherlands. A Netherlands delegation in the field of educational software development will visit several institutions and authorities in Ontario in the autumn of 1986.

Objectifs/Objectives:**Décision et mise en oeuvre/Decision and Implementation:**

Both sides would welcome to continue these efforts in the future. The Council of Ministers of Education, Canada, is pleased to share information, through diplomatic channels, with the Netherlands Ministry of Education and Science in the field of the evaluation of educational software, focussing in particular on the development work and operations of its newly established clearinghouse for the Evaluation of Educational Software, in which all ministers/departments, in Canada responsible for elementary and secondary education participate.
