**Hon. D. S. Harkness (Calgary North):** On a question of privilege I should like to ask when my question No. 2,239, which is dated November 29, will be answered. I protest about the delay, because it is now nearly three months since this was first placed on

[Mr. Nicholson.]

the order paper. I know from my own experience as minister of agriculture for some three years that it could have been answered within a week by the Department of Agriculture without any difficulty whatever. In spite of that it has been nearly three months since I put the question on the order paper. I can only conclude that this minister is paying no attention to members' questions and making no effort to answer them in a reasonable length of time.

**Mr. Gilles Grégoire (Lapointe):** Mr. Speaker, I should also like to call the attention of the government to question No. 2,168, which has been on the order paper since November 10 last.

It is a relatively simple question and although it has been on the order paper for almost four months, I have not yet received an answer. Therefore, I wonder whether the government could not answer such a simple question, at least before this session is over.

On the orders of the day:

**Right Hon. J. G. Diefenbaker (Leader of the Opposition):** I should like to direct a question to the Minister of National Revenue, the guardian of our financial interests. I should like to ask him whether his attention has been drawn to the castigation of his department by the Auditor General, as recorded on page 64 of the report, regarding the case of the Studebaker Corporation which apparently
