## NOTICES OF MOTION.

For Monday, 25th November, 1867.

Enquiry by the Honorable Mr. *Ryan* :

Nov. 20.—Whether it is the intention of Government to include in the estimates to be laid before Parliament this Session amounts equal to one half the usual Grants to Charitable and Literary Institutions, so as to prevent them from suffering loss in consequence of the recent change in our form of Government, those institutions having hitherto received such Grants for the years terminating December 31st, and the Local Governments only having come into existence on the first of July last.
