

... BARGAINS IN ...

PRINTING PRESSES, ETC.

A FEW WORDS TO THE PRINTER:

A Second-Hand Press is not a bargain to the purchaser if it is not in condition to do satisfactory work. No matter how cheap it is bought, it becomes a costly adjunct to the business, unless it is capable of performing the right kind of service. Try he ever so hard it is not every machinist who can put a Printing Press in first-class order. It requires men who understand thoroughly the requirements of the printing business, who have been trained in this particular class of work, and who are conversant with the importance of accurate fitting and close adjustments.

A FEW WORDS ABOUT OURSELVES:

We make a specialty of buying and selling Second-Hand Printers' machinery. We have a machine shop filled with appliances adapted for doing this kind of work. We employ none but the best skilled mechanics who have had a life-long training in overhauling and rebuilding Printing Presses. We are able to give a guarantee with every machine we sell, and we never ask a price for a machine not consistent with its proper value.

A FEW WORDS ABOUT PRICES:

You can rely on this, that no concern in the country gives more value for less money than we do. We can deliver all complete, ready for work, a good Job Press for Seventy-five Dollars, or a reliable Cylinder Press for Five Hundred Dollars. Write when you need any kind of machinery for the Press Room or Bindery
