

matters affecting society and individuals. We think it will prove valuable as a supplement to ordinary education, and an introduction to political and social life."—*Queen*.

"The author of the popular 'Citizen Reader' has here provided another entertaining book for the use of schools—the law of the land, the laws of nature and reason, and kindred topics, being treated in a crisp and telling way."—*Daily Chronicle*.

"The composition and publication of a school-book on such topics mark a great and salutary change in the educational ideals of the time."—*Globe*.

"The work is an elementary text-book of political economy, written according to the method and with all the skill of this author's admirable 'Citizen Reader.' It forms a most suitable companion to that work, and is one of the very best school-books that could be put into a child's hands."—*The Scotsman*.

"Its original illustrations, the wisdom and simplicity with which it is written, and the fulness of its information, exceed anything of the kind we have had before."—*Birmingham Post*.

CASELL & COMPANY, LIMITED, Ludgate Hill, London.

"We have no hesitation in pronouncing Messrs. Cassell's 'Citizen Reader' the most important contribution to the literature of elementary education that has appeared in the last decade."—*Journal of Education*.

205th Thousand, strongly bound in cloth, price 1s. 6d.

The Citizen Reader.

By H. O. ARNOLD-FORSTER, M.P.

WITH PREFACE BY

The late Right Hon. W. E. FORSTER, M.P.,

Formerly Vice-President of the Committee of Council on Education.

FULLY ILLUSTRATED.

"The 'Citizen Reader' is so called because it is intended to prepare those who read it for becoming good citizens. It is chiefly composed of chapters which explain in simple language the nature and working of the various institutions by means of which the government and defence of the country are carried on, such as the throne, the Houses of Parliament, the public offices, the courts of justice, the army, navy, and auxiliary forces. In addition to these there are chapters on patriotism, freedom, thrift, education, and our duty towards foreigners."—*Athenæum*.

"Merely to conceive such a plan was laudable; to carry it out in such a way as to combine interest with instruction is to confer a national benefit of which it is impossible to exaggerate the value."—*Academy*.

"The scheme of the book is excellent; and its practical realisation leaves little to be desired. Such a course of reading is simply invaluable to pupils completing their education, and about to enter on the stern duties of life."—*Educational News, Edinburgh*.

NOTICE.—A Scottish Edition of "The Citizen Reader" has been specially prepared, strongly bound in cloth, price 1s. 6d.
