Chicago Gossip.

Marshall, Spader & Co. wired J. G. Beaty at the close of the market:

Marshall, Spader & Co. wired J. G. Beaty at the close of the market:

Market fluctuated within narrow limits to-day. The forecast of showers in Kansas City caused longs to dump a good deal of their wheat and also induced selling for short account. Market, however, was very stubborn and refused to concede very much in prices on account of the heavy selling, and the commission houses absorbed most of the offerings.

The tig export trade was ugain a feature in the market. There was no let-up in the damage reports.

We believe it is only a question of a little while before wheat will sell considerably higher and we strongly advise purchases on any weakness such as we had to-day. Chicago Gossip. dan age showing in southern counties. Three-quarters of the state sufering from drought, and permanently damaged. Present situation will not warrant crop expectation of over 75,000,000 bushels."

to-day, Ennis & Stoppani wired to J. L. Mitch-Wheat-Scattering showers and snow flurcaused a slight recession from initial piles. There was good support on the declines, however, commission houses being the leading buyers, which caused a reaction diring which period the high prices of yesterday were again reached. Subsequently temperated a shade lower, due to resumption of sales by longs and further pressure on the period bearish traders. There was no change in the character of the news, damage reports being pleatiful and emanated from a still wider area, while the foreign markets were all strong and nigher. Statistics of a bearish nature will irobably be forthcoming in the next few days and the price and the sale of the park. Both pointed out the heart of the news, damage reports being pleatiful and emanated from a still wider area, while the foreign markets were all strong and nigher. 30% on Money Invested

This investment will bear the clessest scrutiny.

It has a foundation of absolute earning power. It is proposed to supply a demand for power which is in excess of the total possible supply. This is an unfailing source of revenue, the proceeds of which can be exactly computed, as the following schedule shows:

The Company has obtained a concession from the Canadian Government to instal a power plant on the Montreal River, which will develop electric power and light for the sowns and mines of the Cobals district.
