HAYWOOD AND MOYER TAKE STAND THIS WEEK

Examination of Accused Murderer
Will Be Long—Defence De-
clines Not to Call Adams.

BOISE, Idaho, July 7.—Counsel for the defence in the Haywood murder case held a long conference Saturday both at their downtown offices and in the cell of Haywood, Moyer and Pettibone at the county jail, and it was said afterward that it would be next Wednesday before Haywood would take the oath as witness in his own behalf.

The program as it now stands is to begin Monday morning by reading the depositions taken at San Francisco as to the explosion at the house of Fred Bradley. These depositions are to be supplemented later with the evidence of an expert in explosives. It is con- sidered by the defence that if 10 pounds of dynamite had been exploded, as Orchard swears were contained in the bombs he used, that amount would have blown Bradley into pieces and destroyed the whole front of the build- ing.

Additional testimony will be given to show that before he fled from Coeur d'Alene in 1899 Orchard at- tempted to sell his interest in the Hercules Mine. There will be a show- ing also as to the movements and ac- tions of Jack Simpkins when he went to Denver in the fall of 1900, after having parted with Orchard at Cald- well. This will about conclude the case, except for the testimony of Hay- wood and Moyer. It is believed that Moyer's testimony can be reached by Tuesday afternoon.

Steve Adams will not be called by the defence. To call him would open the way for the state to get his re- putation confession before the jury, and it is deemed the better strategy to avoid this.

The direct examination of Haywood, according to the statement of counsel for the defence, will be long. He will give a sketch of his life which will embrace all of its important events, including his connection with the Western Federation of Miners. It is said that opportunity will be given for the fullest and widest cross-examination that the prosecution may de- sire to make. Haywood himself will explain that the \$100 sent to Jack Simpkins nine days before the remain- der of a federation expense account which Simpkins left with Haywood to be forwarded to him at his home in Spokane.

The presentation of the state's re- buttal will probably begin on Thurs- day next, and be carried over into the succeeding week.

CHEAP LAW IN U.S.

Former Judge Says Roosevelt's At-
titude on Capital is Almost Fanatical

LONDON, July 7.—The Sunday Ob- server publishes an interview with Morgan J. O'Brien, former judge of the supreme court of the State of New York, in which President Roose- velt's attitude on capital is described as "almost fanatical." It has re- sulted in the prosecution of the sta- tionary engine in the United States. Comparing the legal delays in En- gland and America Mr. O'Brien at- tributed the former to an insolvency law, the costs are too high in En- gland and too low in America, he said.

Grocers Early Closing.
OTTAWA, July 6.—In the police court this morning R. G. Code in- voking H. W. Booth, a grocer, for violation of the early closing Sat- urday night law, claimed that, as the first grocers' bylaw had been de- clared in violation of the bylaw, the second bylaw regarding general early Sat- urday night closing did not include the grocers. Moreover the bylaw was worded in accordance with the statute. The magistrate reserved his decision until Tuesday.

WHAT TO WEAR

Bows of all sizes and shapes are at present the vogue for gowns, hats and shoes.

It is an art to know how to tie a bow correctly, and an art not to be despised. Clever women in Paris make fabulous incomes simply by their ability to tie an artistic and distinctive bow, and no great lady will consider her wardrobe complete without some really original, signed bows. Here are a few pointers about bows easily made at home:

A neat knot for your evening slippers is made from one yard of material—silk, satin or leather, 2-1/2 inches wide. Cut off two pieces 5-1/2 inches long, and two pieces 5 inches long. Fold all the pieces down the middle and sew across the ends, turn inside out and you have points. Lay each 5-inch piece to a 5-1/2-inch piece and gather in the middle. Then pass a loop of the material loosely around each bow in the centre, and sew to the shoe. If the points refuse to lie flat enough, press with an iron.

Some handsome hats, which came from Stitt's, had the velvet ribbon laid in loops of graduated length, falling perfectly flat and smooth, and set at the back of the hat so as to lie partly on the puff of hair beneath. The effect is absolutely the best that can be got with velvet ribbon, for the reason that it does not gather well. In the lighter shades, however, a broad piece can be brought in a single perfectly simple loop, and still look its best. Some of the prettiest mushroom shapes had such bows as their sole trimming, on top in a current English journal.

If your lace gloves have worn out in the fingers, why not cut them off in the old fashioned style, leaving a mit effect with a half thumb. Lead no point lace edging to match the glove. You can buy the edging in all styles. If you are wearing a dress, the effect would be very quaint and pretty, besides being decidedly cooler for summer.

While semi-fitted coats in pony length are really the vogue, empire coats for older ladies and refiners for very young ones are much worn. A contrasting shade, takes the place of last year's three-quarter length dust-coat. Many of the newest and prettiest coats are made with a silk vest, which sometimes comes only to the waist line. This style means that are seen in a fashion- able trimming. At present the buttons are mostly of the same material as the suit, and few in number.

Hats seem to be almost all of medium size, with a wide range of shapes. We shall probably have no new develop- ments in them till autumn.

Pin-striped voile is one of the most popular of this summer's materials. A beautiful child's dress is seen in the colors were green and white. It would have made a singularly effective evening gown, especially if touched off with a soft dark green to give it depth. A French woman would add a touch of flame-color to such a dress, and wear it with brilliant sunset roses with it.

The curious combination of grey and yellow, which is attempted by some of the smartest New York women. It is barely possible that a most delicate shade of grey might be seen in har- mony with a dull gold. The effect would be striking if it really arrived.

THE WORLD'S HOME MAGAZINE FOR WOMEN

Edited by Miss L. E. McCULLY.

The Promise

There's a somewhere, I know, in
A little spot set apart;
A somewhere that holds a tender
face—
A peace for the restless heart.

There's a somewhere, I trust, with a
cushion of dreams
Maybe, with the sleeping dead,
A place where the wing of an angel
gleams
Aslant on the weary head.

There's a somewhere, I dream, with
A crystal wall,
And a dew for the lips that crave;
But who in this dreary old world
can tell
If it's here or beyond the grave?

Nothing New

"Proof is below," says The Youth's Companion, "that ladies criticized each other's wigs in the seventeenth as in the twentieth century—and in phonetic spelling. In 1686, May or June, Bridget Noel wrote her sister, Countess of Rutland, 'My lady Gans- bourer meet us at Burley, but in such a dress as I never saw without disgust. Her tignon mantle is the worst of its kind, it is purple, and a great deal of green, and a letel gold and great flours, there is some thing with the green and noe lining which looks abominable.'"

Corelli and the Suffragists

Marie Corelli, the impassioned authoress, has just completed a series of articles denouncing woman suffrage. "Use your charm," says she among other things, "use your feminine in- fluence. It is your best weapon, and men will succumb to it sooner than they will by a hysterical appeal for a vote." Her tignon mantle is the worst of its kind, it is purple, and a great deal of green, and a letel gold and great flours, there is some thing with the green and noe lining which looks abominable."

Two Women Athletes

Two striking instances of the fact that women are by no means neces- sarily inferior in athletics have oc- curred during the last week. Miss May Sutton, the famous tennis player, has clinched the championship in En- gland, and is now indisputable cham- pion of the world. She will probably meet the Canadian champion, Miss Hays, in the final round. More re- markable, however, is the instance of the girl jockey, Dorothy Tyler, who has recently won a race at Joplin, Mis- souri, riding her own horse. She is only thirteen years of age, but loves sports of all kinds, and is a very fine rider. Her father, Dr. Tyler, does not oppose her taste, but rather seems to encourage it. He is himself a sportsman and lover of horses.

WM. KENNY RETIRES.

Steward of National Club for the Past Eighteen Years.

William Kenny, for the past eighteen years steward of the National Club, on account of ill-health, will resign his position on the first of next month. His resignation is viewed with much regret, especially by the older mem- bers of the club, who know the work Mr. Kenny did during the club's dark days, ten or twelve years ago, and who concede that much of the club's pre- sent success is owing to his devotion to its interests.

NORTH PERTH CONSERVATIVES

Messrs. Maclean and Torrance Again Nominated.

MILVERTON, July 7.—At the North Perth Conservative convention, held here yesterday, Alex. MacLaren, M.P., was re-nominated for the federal house and James Torrance, M.P., secured nomination for the legislature, being opposed by H. B. Morphy, bar- rister, of Listowel.

WILL WITHDRAW RESIGNATION.

MONTEPELLIER, France, July 7.—The municipal council of this city has decided to withdraw the vote with- draw the resignations of the members handed in during the trouble arising from the protests of the wine growers of the south. This means the collapse of the agitation in this section.

Marcelin Albert, M. Ferroul, mayor of Narbonne, and other leaders of the movement, have sent a letter to the court demanding their release on bail.

EARTHQUAKE IN MAINE.

KITTERY, Maine, July 6.—A slight earthquake was experienced here to- day, following several severe ones last week.

ACROSS CANADA IN 90 HOURS.

VANCOUVER, B. C., July 7.—The Trans-Canada Express of the C. P. 2, arrived from the east Saturday morn- ing on time, inaugurating the fast service from Montreal to Vancouver. The distance was made in 90 hours, the fastest of any trans-continental train in America.

DOUBLE CANALS IN MARS.

CAMBRIDGE, Mass., July 7.—The Harvard observatory officials have re- ceived a telegram from Prof. Percival Lowell, director of the Lowell observa- tory, at Flagstaff, Arizona, stating that the expedition to Mars, which will leave on August 1, has been successful. Andes had seen the double canals of Mars.

Toronto Oratorio Society.

Singers wishing to become members of the chorus of the Toronto Oratorio Society may apply to the conductor, J. M. Sherlock, at his residence, 8 Huntley-street, any evening by ap- pointment. Arrangements are being made for the season's work, which will include performances of Haydn's "Creation," and Alfred R. Gaul's his- torical work "Joan of Arc," a most interesting composition, and one that will be exceedingly popular. The chorus now numbers 267, and it is intended to increase this to 350 mem- bers.

Give the Conductor His Due.

Someone, name not given, sends us a little item re the article which ap- peared on Saturday last, in this page, entitled "Woman and the Street Car Service." The item is as follows:

"A \$5 bill was tendered last week by an old lady to Conductor 905 (King car) for his kindness. West Barn."

Not only is this true, but we know from personal experience that there is a conductor on the College-street line who never scowls at lady passengers because they are slow, and who knows his regular passengers by name. We do not mean to hurt the feelings of such persons as these. We feel they are the salt of the earth, and hope they may ultimately be promoted. Cer- tainly they are not so common that the company or the public can afford to lose their services.

VOID LEGACIES FOR MASSES

French Courts Decide Against Church in Several Cases.

PARIS, July 7.—A number of suits have been brought in France by the heirs of Catholics, to recover property bequeathed to the church for the specific purpose of saying masses for the repose of the souls of dead persons.

The decisions of the court thus far have invariably been in favor of the claimants, on the ground that the law of separation rendered the execution of the legacies impossible.

AUTO RACE FORBIDDEN.

German Government Puts Ban on the Sport.

STUTTGART, July 6.—The interna- tional motor car contest arranged for to-day was forbidden officially.

This is the first direct step of the government towards the entire sup- pression of automobile racing on public roads in Germany, and it follows the recent announcement to that effect made by the imperial ministry of the Interior.

QUEBEC'S SURPLUS.

Provincial Exchequer is Reported \$500,000 to the Good.

MONTEREAL, July 7.—(Special.)—A special from Quebec says: The fiscal year which closed June 30 last has been a most lucrative one for the Province of Quebec, and the treasurer is en- abled to place to the credit of the province a surplus of \$500,000.

The revenues from the different sources, but more especially from li- censes, duties on successions, and taxes on commercial corporations, were in excess of preceding years.

FALLIERES' HOLIDAY.

PARIS, July 7.—President Fallieres has postponed his projected trip to Norway, Sweden and Denmark till 1908, due to the interior situation of the country. Instead of going abroad the president will make an extended tour of the disturbed regions in Sep- tember.

MR. BLAKE'S RESPECTS
TO "RATIONAL" SUNDAY

Churchman's Remarks at the Lay-
ing of Corner Stone of the
New St. Anne's.

The ceremony of laying the corner- stone of the new St. Anne's church on Gladstone-avenue, near Dundas-street, was performed Saturday afternoon by Hon. S. H. Blake. The new edifice will be a handsome white brick structure, cost about \$42,000, without the land. Ford Howland is the architect. The seating capacity will be 1400.

Addresses were given by Hon. S. H. Blake, Rev. W. S. Cowper, a former rector of St. Anne's; Rev. Mr. David- son, rector of Mt. George's Church, Guilford, and formerly a curate at St. Anne's; Rev. H. A. Macpherson of Chalmers' Presbyterian Church, and Rev. L. Mackintosh of Olivet Bap- tist Church.

It was intended to conduct the ser- vices outside, but the rain began to threaten shortly after Mr. Blake began to speak, so the remainder of the ad- dresses were delivered in the old church. Mr. Blake said he was glad to be present, because he also was a member of "the dear old Church of England."

"I rejoice," said he, "that you stand for the Lord's Day in its entirety. We hear people talk about keeping the Sabbath rationally, while in reality they are kicking both feet thru it, and are not keeping it at all."

"Pay no heed to those who only un- derstand carnal things, and yet who would give a 'rational' interpretation of the Scripture. We know not any part of the Bible that is not inspired," he continued. "It is God's work, and so simple that any one can understand it. We don't want any larger ritual like that of the Church of Rome."

Concluding the speaker said he was glad the new church would face the west.

"I am a glad worshipper," said he, "and I am glad your pastor will go in the old paths, and teach the old truths."

Rev. W. S. Cowper, in speaking of the early days of the church, when he was rector, said that at that time the population of the whole City of To- ronto did not number larger than the present Parish of St. Anne's, which contains 12,000 people. He said the old church was built 46 years ago, and rector Taylor Denison, presented the corner stone at that time.

Rev. Mr. Davidson, who was for the curate of St. Anne's, said it was with pleasant memories he re- called the old days when Rev. Mr. Ballard, the rector, and himself, work- ed together there in harmony.

Much of the success of St. Anne's he as- cribed to the labors of Rev. Mr. Bal- lard, when the church was passing thru dark days.

Rev. Mr. Macpherson, who spoke on behalf of the Presbyterian Churches of the city, said that at that time the population of the whole City of To- ronto did not number larger than the present Parish of St. Anne's, which contains 12,000 people.
