SPANIARDS REFUSED AMERICAN PROPOSITIONS

However, the Negotiations Have Not Yet Been Broken Off.

Philippine Surrender Will Not Be Countenanced by the Spanish Peace Commissioners—Some Very Hot Talk in the French Press in Regard to the Attitude of America.

Paris, Nov. 4.—The joint session of the Peace Commissions today lasted two hours. The Spaniards refused the propositions made by the Americans on Monday last, but the negotiations were not broken off. While it is believed that no formal counter proposition was made, there was a discussion of the Philippine question outside the lines of the American propositions. The commissions then adjourned until Tuesday next.

The French says: "The claims of the informed on absolutely reliable authority that Spain will refuse to discuss the unconditional surrender of the Philippine Islands. Spain, it is further asserted, has made particular reserves concerning the retention of the Philippine Islands and the Spanish Minister of Foreign Affairs, Duke Almodovar de Rio, had himself, at the time of signing the peace protocol, stipulated that the island of Luzon alone should remain occupied by the American troops, while the peace negotiations were in progress, and that Spain would resume sovereignty over the archipelago as soon as a more liberal form of government for the islands should have been decided upon."

The French says: "The claim of the United States on the Philippine Islands also looked upon with disfavor at St. Petersburg. The powers might, in case of America proving too obstinate on this point, be provoked to protest."

The French remarks: "Your money or your life." is the battle cry taken by America in regard to Spain. The latter, having no money, offers Porto Rico and the abandonment of Cuba, and thinks she has thus discharged her ransom."

"Pardon me, answers Jonathan, you yet have the Philippine Islands, which are only an embarrassment to you. I will relieve you of them. Why? because, with Fontaine, I have the strongest reasons for so doing." The Imperial says: "The Philippines are States that have shown in the protocol their intention to keep the Philippine Islands, the matter would not have taken the course it did. Spain has not considered the Philippines as lost, nor has she desired their loss. On the contrary, her intentions were shown by her facing the German on the question of the Caroline Islands."

In conclusion the Imperial remarks: "America by her conduct has lost her place among civilized peoples, and henceforth will only count as the most numerous and opulent of hordes."

The opening meeting of the Canadian Institute, which should have been held this evening, has been postponed until Saturday, Nov. 12, in view of the banquet to His Excellency the Governor-General.

A Place for Tears. The President then voiced the regret of all at the coming separation, there was a pause in his heart—"Mrs. President, we can't hear a word"—came from a decided lady in the rear, and this led to clapping—"did you ever see a woman clasp-taper fingers putting slender palms. Then some thing happened—a few ladies scraped their chairs—more followed, then the idea spread a rush of a sea, this room full of be-lit and be-lit ladies grasped their chairs and advanced. They only wished to get nearer to hear Her Excellency.

The address was as follows: Last Address. To Her Excellency, the Countess of Aberdeen, President, National Council of Women of Canada.

May it please Your Excellency. In honoring us with your presence on this occasion you are adding one more to the many favors and kindnesses already bestowed upon the Toronto Local Council, and we desire to express to Your Excellency something of the gratitude and love which alone would fill our hearts were they not overcharged with sorrow by the thought of your approaching departure from Canada.

As the Senior Local Council of the Dominion, we feel that we have been specially happy in having, for a longer period than any other, enjoyed the privilege of your sympathy, your counsel and your active interest, and whatever useful work we may accomplish in the future we feel will be largely due to the wisdom of our early training under your guidance.

Remembering the unfailing kindness of His Excellency to the Toronto Local Council, we would venture to express our lasting gratitude to him also for encouragement and gracious patronage ever freely accorded. We would associate his name with your own in our prayer that a full measure of divine blessing may be poured out upon you, and those near to you; and we would put our farewell into the old-time words "God be with you."

Lady Aberdeen. Lady Aberdeen then rose to reply. She appreciated the welcome extended by the first president of the first council. She remembered the assistance rendered when the future was not so bright as it is now. "My dear friends, if I may call you so, three months ago I should have been surprised if told I should not come before you fully prepared. But, getting away from the measured, rather stilted manner, "I rely on your friendship to allow for the very busy time I have had for the past few weeks."

She was pleased to note the corresponding secretary's mention of the Ladies' School of Art; the council itself was healthy and in a growing state. She hoped in the course of a few years all the societies would federate and make it the strongest as well as the oldest council. She referred to the great scope of the council, the splendid workers, and great success attained; to the efforts of the local council as a husband and wife. The society owed much more than she could say to the loyalty and unselfishness of Mrs. Willoughby Cummings.

A Special Fund. She was pleased to be able to announce that a special fund of \$1000 had been raised in a year for 3 years, whereby to furnish funds for the new paid secretary.

All doubts and anxieties were at an end for the future of the body, when she knew Lady Edgar had promised to act as president.

There only remained, then, "that last word." You do not know how much you have been to me, or how much you have done for me. I thank the Countess; "we come here strangers, it is you that have enabled me to feel as one of yourselves, your kindness has meant more to me, and I thank you, and I thank you, and I thank you."

Lord Aberdeen Presented. Mrs. Cummings spoke briefly, and presented Lord Aberdeen with an illuminated rosette.

A Boy With a Warm Heart.

The early start in the school of life not only sharpens the wit of the newboy, but has made a proverb of the saying that he never forgets a kindness. Among the mourners at the bedside of Gus Hamilton, the noted jock, who died a few days ago, was a small newboy, who sobbed in a heartbreaking way. The family had never seen him before and Mrs. Hamilton drew him aside. Between his sobs the little chap blurted out that he used to run messages for the great Gus, and Gus was very kind to him. He had saved \$20 as the result of his paper sales and begged that he might leave half of it to help pay for the funeral or the dead rider. Of course

it wasn't accepted and the youngster went home inconsolable. No one will deny that in its simplicity and pathos.

Boys' Brigade. The third annual convention of the Boys' Brigade in Canada is in session. There was a meeting of officers last evening in the Upper Canada Bible House, when today's program was arranged. The Executive Committee will meet in the U.C.B. House this morning and an hour later the Brigade Council will assemble. At 5 o'clock Their Excellencies will review the Toronto Battalion, which will be presented with a stand of colors by Lady Aberdeen.

Cabinet Does Not Seem Over Anxious to Discuss the Matter of an Export Duty on Pulp Wood—Insistence of Writs for By-Elections — When the House Will Meet—Quebec Notes.

Quebec, Nov. 4.—The date for the session has not yet been fixed by the Government, but in all probability the House will be called to meet some time about Jan. 12.

The Issuance of Writs. The Government's attention at the present time is engaged by the issuance of writs for the by-elections and it seems as if they will be held in about a week. A movement is on foot to hold the Federal by-elections as near the same time as the local one as possible.

About Pulp Wood. The Government is also taking up the question of exporting pulp wood to the United States. It has been forced pretty strongly by one of the members of the Cabinet, Mr. Mackenzie, who does not seem over-anxious to discuss the matter, although it is shown, on account of the small supply of that article in the States and the unlimited spruce forests of Quebec, that this province can easily dictate terms to the Americans.

The Government is asked to protect Canadian workmen and force the manufacture of pulp in Quebec by imposing a stampage on all pulp wood cut, and giving a rebate of that amount if it is cut in the United States and shipped to Canada. It is believed that if the Ministers would adopt this policy, many places might be built up along the borders of the province, such as Grand River, where one pulp company has spent about \$2,000,000 in a few years.

Toronto Athletic Club. Editor World: I do not often trespass on your space with communications, but as the matter to which I desire to refer is (to me at least) so important, I trust I may be pardoned for its publication in your columns.

I am deeply grieved to learn that the "T.C.C." has been forced to look for support, and has apparently been handed over to the mortgages for disposal. Whether this has arisen through improvidence or mistakes of the original promoters, in the cost of the venture, is now needless to discuss. The question I have to propound is: Are the men of our fair city so lost to all sense of the responsibility that they will sit down quietly and allow this magnificent and necessary institution to slip away from them, after all the expense and effort made to secure it?

I speak as one who subscribed liberally for the stock, and protest against the squabby and indifference of our moneyed men in this matter. Surely they must recognize that this club is the only thoroughly athletic institution our city possesses and is absolutely necessary for our young men, if we desire to maintain the high standard we have already attained in sport. I sincerely hope that a committee of prominent citizens will be at once formed to consider this matter, as I feel satisfied that the necessary funds can be secured to tide over the present emergency, and enable us to retain this valuable property for the purpose for which it was intended.

I cannot bring myself to believe that the citizens of our progressive city will allow the finest club house in the Dominion to be sacrificed without an effort to prevent it. If they do, it will be a death blow to sport in Toronto, and a standing disgrace to the city at large. John I. Davidson.
