

## FROM THE GARDEN TO YOUR CUP

The tea contained in the sealed lead packages labeled

# "SALADA"

Is not touched by the human hand while being packed, and the lead packages prevent impurities of any kind getting into it; then "SALADA" is ALL TEA, no dust. We have a machine in connection with our plant that takes every particle of dust out of the tea and disposes of it. From the above you will understand why SALADA is so pure.

All grocers sell SALADA, either Black, Mixed or Green, in the following grades:

GOLD LABEL	60c PER LB.
RED LABEL	50c PER LB.
BLUE LABEL	40c PER LB.
GREEN LABEL	30c PER LB.
BROWN LABEL	25c PER LB.

## DEADLY FIGHT FOR A BRIDE

Artist Slays Chum in Duel Over Model, Latter Looking On.

New York, April 18.—In a furious pistol duel for the hand of an artist's model who had promised to wed the victor, one man was killed instantly. The victor, whose bullet had plowed through the heart of his best friend and lifelong chum, turned his weapon against his own heart and inflicted a fatal wound. The young woman was one of many friends who saw the fatal combat.

This extraordinary affair, which has no parallel in the police annals of New York, occurred at Ozanne Park, a suburb of Brooklyn. The participants in the duel were Vincenzo Sica, 23 years old, and Antonio Tindino, 25 years old, who roomed together at 277 Ocean avenue, East New York.

Both men were artists of considerable reputation in Italian circles in New York. The young woman for whose affections the two chums fought is Marie Allegretto, a dark haired girl of 23, whose beauty had made her famous in the studios of Naples before she came to America and made herself a favorite model for Italian artists in New York.

Death in Girls' "Yes." For months both artists had been paying devoted attentions to the model, and although each knew Marie's acceptance of the other would be sealing his fate, their relations were as friendly as ever. Both had pleaded with the beautiful model to decide soon, telling her frequently her delay was only making it harder for either to give her up. The light-hearted girl only laughed and said she loved them both so much it was hard to choose.

To friends of the two young artists it has seemed of late as though Marie's preference was for Sica. Sica and Marie were returning from a Brooklyn theater when Tindino met them and chided the model for accepting Sica's attentions on a night when she had promised to be with him. Tindino spoke so hotly that Marie hid behind her escort and asked him to protect her. Sica then espoused her cause, telling Tindino the girl practically had assured him she would be his wife. Tindino then produced two revolvers and proposed they fight a duel for the girl. The offer was accepted by Sica.

Girl Goes to Watch Combat. With Marie walking between them the two artists started for a patch of woods where there would be no danger of interruption. They stopped on the way to awaken several of their best friends and took them along as seconds. With the light of a street lamp as the only illumination the two artists stepped twenty paces apart and began firing. After three shots had been fired by each Tindino dropped dead with a bullet in his brain.

Marie ran to Tindino's side and placed her hand over his heart, and as Sica hurried to the side of the friend who had driven him into the duel Marie arose and said: "Let's go home." Sica dropped to his knees and kissed his comrade's head. Then he jumped up, and thrusting aside his sweetheart's hand, fled from the spot. An hour after the shooting, when everyone supposed Sica was miles away, a youth whose face was disguised by a false mustache and whose features were enveloped in a muffler, stole up and joined the throng of curiosity seekers where lay the body of Tindino. Then he drew a revolver,

and, pointing it at his breast, fired. It was Sica. Tonight he died in a hospital.

## SWETTENHAM'S APOLOGY

British Government Publishes Correspondence Over Quake Incident.

London, April 19.—A white paper issued tonight contains a portion of the correspondence relating to the resignation of Sir Alexander Swettenham as governor of Jamaica. It gives verbatim the letters of Rear-Admiral Davis and Sir Alexander as detailed at the time in the dispatches of the Associated Press, and the cable comment of the Colonial Secretary, Lord Elgin.

The latter notified the governor on Jan. 22 that "If such a letter is correctly attributed to you, I must observe that both in tone and expression it is highly improper, and especially inappropriate to his majesty's representative in addressing an officer of a friendly power, engaged on an errand of mercy. I must further require you to withdraw forthwith and reservedly any such letter, and to express your regret for having written it. Your withdrawal should be telegraphed to me at once, when it will be transmitted to the Government of the United States through the proper channels."

On Jan. 24 the governor cabled to the Colonial Secretary, asking that the letter be transmitted to Rear-Admiral Davis.

"At the instance of the Secretary of State for the Colonies, I desire to fully and unreservedly withdraw my letter of Jan. 18, and to express my regret that I wrote it."

On the same date the governor cabled to Lord Elgin as follows:

"I respectfully apply for permission to retire on account of age, forthwith, and to be relieved."

Plot to Kill President

Band of Anarchist Assassins in Pennsylvania Menace Mr. Roosevelt.

Newark, April 19.—An alleged plot by Pennsylvania anarchists with headquarters at Hazleton to assassinate President Roosevelt is being investigated by secret service men. Information which led to the investigation was given by Chief of Police Adams, just before he killed himself. The chief told the secret service officials that he obtained his information from Jan. Bartula, of Audenried, Pa., and who claimed to be a member of the band. He said they had gone back on him. He gave Chief Adams the names of several persons whom he said were implicated in the plot, and further said that Czolgosz, who assassinated President McKinley, had been a member of the band.

NEW NIPPISSING BOARD.

New York, April 18.—The new board of directors of the Nipissing Mines Company elected at the recent annual meeting at Augusta, Me., today elected officers of the company for the ensuing year. Ellis P. Earle was elected president; Lyman B. Kendall, vice-president; and Richard T. Greene, secretary. S. W. Holmes was elected treasurer at the regular annual meeting.

The report of President Earle, as well as that of Samuel Newhouse, president of the Nipissing Mining Company, was submitted and approved. The reports will be issued to stockholders within a few days.

Mr. Newhouse, president of the operating company, has appointed Mr. Kendall, who was today elected vice-president of the holding company, as managing director of the operating company.

## CANADIANS NOT SEEKING FAVORS

Sir Wilfrid Again States His Position at Banquet to Premiers.

London, April 19.—Touching on the tariff question at the luncheon tendered by the Imperial Industries Club to the colonial premiers today, Sir Wilfrid stated the declaration that Canada wanted no favors; it was for the English people to decide. His usefulness and influence did not extend beyond Canada. He spoke for less than five minutes; then, accompanied by Lord Strathcona, left for the Hotel Cecil.

Mr. Haldane announced that no effort will be spared to procure opportunities for the colonial premiers acquiring information regarding the volunteers and yeomanry.

## VICTORIA SENATE MEETS

Bright Outlook for the Methodist University at Toronto.

Toronto, April 19.—Three prominent clergymen of the Methodist Church had the honorary degree of doctor of divinity conferred on them by the senate of Victoria College yesterday evening. The newly-elected divines are Rev. Thomas Crosby, the well-known missionary of British Columbia; Rev. James A. Rankin, pastor of Carlton Street Church, this city, and Rev. Wm. McDonagh, of Stratford.

The meeting of the senate was most protracted one, the session lasting from 2 to 11:30 p.m. Chancellor Burwash was reappointed secretary of the board of regents, and C. W. Kerr, K.C., will act as assistant secretary. The treasurers are Revs. Dr. Potts and Dr. Burwash.

The outlook for the future of the university is a very bright one, and its financial standing is excellent. The reproductive endowments have now amounted to the neighborhood of \$1,000,000.

The session was attended by Rev. R. H. Goring, B.A., of Exeter; Rev. Jasper Wilson, M.A., of Leamington, and Rev. A. J. Irwin, B.A., B.D., of Tara.

## HON. MR. BLAIR'S FORTUNE

Left an Estate Valued at Two Hundred Thousand Dollars.

St. John, N. B., April 19.—When Hon. Andrew G. Blair died so suddenly a few months ago, the general impression was that he was a poor man. Scarcely anyone, even among his near friends, believed that he was possessed of more than \$10,000 or \$15,000 worth of property, the idea being that the principal amount of his wealth was invested in the New Brunswick Telephone Company. Hence, it comes as a great surprise to all to learn that Mr. Blair left an estate valued at no less than \$200,000.

Mr. Blair's will has been entered for probate in the probate court at Ottawa, and the draft inventory fixes the amount at about that sum.

It is learned here that the will has not yet been admitted to probate because of a disagreement in regard to the succession tax to be paid to the Provincial Government of Ontario. This has been the cause of the delay, but it is anticipated that a settlement will shortly be reached. It is understood that the bulk of Mr. Blair's estate goes to members of his family.

## HAUGH ELECTROCUTED

Physician Pays the Penalty for Murder of Parents and Brother.

Columbus, Ohio, April 19.—Dr. Oliver C. Haugh, the Dayton physician, was electrocuted at midnight last night for the murder of his parents and brother. Nov. 1, 1905, "The Haughs" home at Dayton was burned, and the bodies of the elder Haugh, his wife and a son were found. Haugh's defense was insanity, but he was legally declared sane. It was brought out, however, that he was addicted to the use of a drug known as hyoscine-hydro-bromate.

Attempts were also made to connect him with the murder of several women in Cincinnati, who were mysteriously strangled.

## LANDLORDS MUST SELL

Third Reading of Radical Amendment to Irish Land Act.

London, April 19.—By a vote of 208 to 69, the House of Commons today passed the second reading of the bill introduced by the Nationalist party, amending the Irish land acts. Under the new law, the power of the land commissioners to acquire estates, sell them to tenants, and provide the purchase money, is extended, so that they can compulsorily buy out such landlords as Lord Clanricarde and others who refuse to sell. The commissioners will be empowered to themselves fix the price of estates to be so acquired. The Unionists opposed the measure, which they described as being "pure confiscation."

## RICH MAN TRIES SUICIDE.

New York, April 19.—Benedict Gimbel, the wealthy Philadelphia merchant, who was arrested in this city on the double charge of exerting improper influence over a 16-year-old boy and attempted bribery of police, lies tonight in a Hoboken hospital, unconscious, from self-inflicted wounds. It is thought that his injuries will prove fatal.

# NEWBRO'S HERPICIDE

Is the original remedy that "kills the dandruff germ"

EDNA D. ALLAN.

WITHOUT dandruff the hair must grow luxuriantly, except in chronic baldness, which is incurable. Dandruff is a contagious disease caused by a germ or microbe. To cure dandruff, this germ—a tiny vegetable growth—must be destroyed and kept out of the scalp by Newbro's Herpicide.

## A WOMAN TO BE PRETTY

A woman to be pretty must have pretty hair. Beautiful locks have a subtle charm, for the poet says, "fair tresses man's imperial race ensnare." The unpoetic and intensely real dandruff microbe makes the hair dull, brittle and lusterless with later dandruff, itching scalp and falling hair. Newbro's Herpicide destroys this enemy of beauty and enables the hair to resume its natural luster and abundance. Almost marvelous results sometimes follow the continued use of Herpicide. Overcomes excessive oiliness and makes the hair light and fluffy. It contains no grease or dye. Stops itching of the scalp almost instantly.

Discriminating ladies who have used Newbro's Herpicide, speak of it in the highest terms, for its almost magical effect upon the scalp, and also for its excellence as a regular hair dressing. It is delightfully fragrant and refreshing.

"I have found Newbro's Herpicide excellent for the hair. The first application stops itching of the scalp and it leaves the hair soft and silky."

## VACCINATION TEAS

Smallpox Scare Starts New Fad in Fashionable Paris.

Paris, April 19.—Vaccination teas are the latest fashionable fad in Paris. A few days ago a woman who moves in the highest circles issued invitations to her friends for a 5-o'clock tea. Conversation was in full swing, when a smartly-groomed gentleman entered the drawing-room and was greeted as "doctor" by the hostess.

Of course, the talk turned on the recent smallpox scare, and the doctor remarked that it was not a smallpox scare, but rather a vaccination epidemic. At this point the hostess explained that she had got the doctor to leave his practice for an hour or so in order that any of her friends who wished might be vaccinated at once. Most of them took prompt advantage of the offer.

Subsequently quite a number of women who were at the original vaccination party gave vaccination teas of their own.

## The Jamestown Exposition.

The Jamestown Exposition, which opens on April 25, 1907, promises to be one of the most interesting of the larger expositions which have been held in later years. Its location at Sewall's Point, on the historic Hampton Roads, some nine miles from the city of Norfolk, Virginia, and directly opposite Old Point Comfort, in itself a different and many, and the magnificent array of warships that will congregate here from all the countries of the world will attract a tremendous number of people from all parts of the American continent as well as from abroad. To Canadians who have not had the privilege of visiting the south, this event will be the best opportunity that will present itself, and the low transportation rates that are offered will lend an additional attraction.

The only Canadian exhibit at this great fair will be that of the Grand Trunk Railway System, who have erected a building of their own, in which the resources and attractive features of Canada will be shown, and at which building Canadians will be welcome, and where all information may be obtained. Another feature that is offered is the many different routes that can be taken to this exposition from Canada, including rail, river and ocean journeys. The true hospitality of the southern people, the historicity that surrounds the locality, and the many things to see and do, should be the means of inducing a large number to go from the north. Grand Trunk agents will gladly give information as to rates and routes.

Pigeons and turkeys each have a natural temperature of 109 degrees, which is 19 degrees higher than man's.

EXTERNALLY OR INTERNALLY, IT IS GOOD.—When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue as well as the liniments do, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing, and will cure affections of the bronchial tubes and respiratory organs. Try it and be convinced.

The most notable "literary event" of London was the hanging of Tyburn, on February 20, 1749, of two Irish poets, Charles Gahagan and Terence Conner, "for fling the coin of the realm," then considered high treason.
