Controllers Likely to Make Re-  
commendation To-day —  
What Physicians Have to  
Say as to Their Choice for  
the Vacancy.

Upon the outcome of this morning's  
meeting of the board of control de-  
pends in large measure whether the  
city council will be able to appoint a  
medical health officer at this after-  
noon's session, the last scheduled one  
until Sept. 11.

"I fancy we will be able to arrive  
at a recommendation," said Controller  
Foster last night. As the controller  
has only to change his allegiance to  
break the long-existing deadlock, his  
remark might be considered signifi-  
cant.

If a recommendation is sent on, the  
name will likely be that of Dr. Charles  
Hastings of Wellesley-street, who will  
be nominated by Controller Church.  
Dr. J. A. Amyot will also be nomi-  
nated, but, with many years of ex-  
perience as a guide, this will not solve the prob-  
lem. Neither will Dr. Goodchild's  
nomination. Controller Ward is will-  
ing as an alternative to support Dr.  
Hastings. Whether the mayor or  
Controllers Spence or Foster will do  
likewise remains to be seen.

The World last night gathered a  
number of opinions of representative  
medical men on the situation. An un-  
derlying regret that Dr. Amyot is not  
the choice of the board is noticeable  
in many of the utterances. This is  
easily understandable, considering the  
strong representations made on his  
behalf by the profession. It is to be  
noted, however, that many turn to  
Dr. Hastings as the most desirable  
alternative, recognizing also the fact  
that Dr. Amyot is personally a  
strong supporter of Dr. Amyot, and  
has only allowed his name to be con-  
sidered because of the seemingly un-  
breakable deadlock.

The possibility that Dr. Sheard  
will be asked to remain at an increased  
salary is also a serious factor to be  
reckoned with in forecasting the re-  
sult.

A "Capable Man."  
"Dr. Hastings would make a very  
good man for the office," was the  
enthusiastic opinion of Dr. Edmund B.  
King. "He is a big man, of extensive  
experience, broad-minded and of good  
determination, while at the same time  
he is not obstinate or opinionated.  
He is to be regarded as a capable  
man no matter who else may be in  
the field."

Dr. A. A. Macdonald said the de-  
partment needed reorganization by a  
capable man untrammelled by the city  
council. One man could not manage  
the department, but the council didn't  
seem to recognize the need of hav-  
ing the department keep pace with  
the growth of the city. He had no  
objection to Dr. Hastings.

Dr. W. F. Bryans: I think Dr. Hast-  
ings is well fitted for the position, but  
Dr. Amyot was my first choice.

Dr. R. S. Conboy: From what I know  
Dr. Hastings would make a splendid  
man for the position. He is well qual-  
ified in every way.

Dr. C. R. Dickson: I was on the de-  
putation that supported Dr. Amyot,  
whom we feel to be the best man for  
the position, because of his scientific  
training, but failing Dr. Amyot, I think  
Dr. Hastings is a man who would  
command universal respect.

Dr. W. H. B. Atkins said: Dr. Hast-  
ings is a very fine gentleman, and I  
think he would give great satisfaction  
to the medical profession.

Wanting Dr. Sheard.  
Dr. Bruce L. Riddan: I am in favor  
of Dr. Sheard. Dr. Hastings is a good  
man, but he has no special training in  
the work. Dr. Amyot has had special  
training, but I think we should keep  
Dr. Sheard at any cost.

Prof. A. McPhedran: I think Dr.  
Hastings will do very well, but I do not  
think he is in the same class with Dr.  
Amyot.

Dr. W. A. Young: Dr. Amyot is my  
choice. I would prefer to see him get  
the appointment.  
Dr. Clarence L. Starr: The best  
qualified man is Dr. Amyot. He has  
had a special training. Next, I think  
Dr. Hastings is the best man. He has  
had a good deal of training along medi-  
cal health lines and was on the milk  
commission. He is also a broad-mind-  
ed man, having possibilities of looking  
the job and making good. If Dr. Amy-  
ot is out of the running, I think Dr.  
Hastings should be chosen. The position  
needs a man of broad medical training.  
Dr. Hastings is interested in a num-  
ber of things that a medical health  
officer should be interested in.

Dr. George A. Bingham: The proper  
man for the position is Dr. Amyot. Dr.  
Hastings is the next best. He is a  
first-class man and ought to fill the  
job satisfactorily.

DECLARES

Speaks of Transportation  
Problems at Port Arthur—  
Government Committed to  
Building and Deepening of  
Georgian Bay Canal.

PORT ARTHUR, July 10.—(Staff  
Special.)—The problems of transpor-  
tation confronting Canada at the pre-  
sent time formed the principal theme  
of Sir Wilfrid's address at the opening  
meeting of his western tour last night.  
He showed the strategic position of  
Port Arthur and Fort William in the  
commerce of the country. He discus-  
sed at length the Welland Canal and  
the Georgian Bay and Ottawa Canal  
project, which, he said, was one of the  
"next things to be done" by the gov-  
ernment. Sir Wilfrid's remarks were  
accepted as virtually constituting a  
commitment to the scheme.

He spoke positively of the future  
policy of the government in regard to  
transportation matters, and in respond-  
ing to an address of welcome at Port  
Arthur, said: "We will spend two dol-  
lars to your one; where you take one  
step we will take two."

George A. Graham, ex-president of  
the local Liberal Association, was  
chairman, and on the platform were:  
James Connors, M.P.; Mayor L. L.  
Pelletier, Fort William; Mayor I. L.  
Mathews, Port Arthur; James Camp-  
bell, president of the local board of  
trade; J. B. Newby, W. W. Hamilton,  
Y. O. Corbett, W. K. O'Donnell and Dr.  
J. R. Manion.

The streets of the city were festooned  
with evergreen pillars, arches, bann-  
ers and mottoes. Sir Wilfrid was feted  
everywhere.

Several thousand thronged the large  
Auditorium and attentively listened  
to every word.

No Early Election.

"Whatever success has accompani-  
ed my efforts has come altogether  
not altogether certainly the greater  
part from those with whom I am for-  
tunate enough to be associated," said  
Sir Wilfrid, in responding to the civic  
address. He made sport of the fear  
of a section of the Conservative party  
that the election would immediately  
follow the present tour. The Conser-  
vative press admitted that delay would  
be to the advantage of the opposi-  
tion. He joked at the abandonment of  
the proposed Conservative convention  
at Ottawa. "There was no reason why  
I should not have an election in the fall,  
he was not afraid of the consequences  
of the naval policy."

He also wanted the country to know  
all about the cost of the National  
Transcontinental. "We have nothing  
to fear on the score, because every dol-  
lar that is expended on the railway is

TONE OF RENEWED HOPE  
FOR THE WESTERN CROPS

If Conditions Continue as at  
Present There Will Be a Re-  
markable Recovery.

## WHAT ABOUT THE CROPS.

In Ontario.—Fair.  
In the western provinces.—Uncertain,  
with a chance of nearly one hundred  
million bushels of wheat, where one  
and a half were expected.

Rain. If it comes in the west, can  
still do a lot.

WINNIPEG, July 10.—Cooler weath-  
er and showers over the greater part  
of the province have characterized the  
past forty-eight hours, with the result  
that a distinctly more optimistic tone  
is prevalent regarding spring wheat  
prospects in Manitoba.  
"The wonderful recuperative prop-  
erties of the soil are felt now," said the  
representative of a leading elevator  
interest to-day, "and provided condi-  
tions continue as at present, the next  
week or two will see a remarkable re-  
covery. Of course, the droughts and  
burning heat accomplished its work in  
some districts, where land is light and  
showers have been few."

The encouraging note finds expres-  
sion further west, and reports from  
the older settled districts of Sas-  
atchewan in particular are encourag-  
ing.

Lord Brassey Sails for Canada.

DOVER, July 10.—Lord Brassey has  
sailed in his yacht Sunbeam for Cana-  
da, and hopes to pass through the great  
lakes. He will visit Iceland first.

## May Tour Empire.

(G. A. F. Cable.)  
LONDON, July 10.—A  
tour of the empire by the King  
and Queen is rumored.

TROOPS CALLED  
TO GOAL STRIKE

Detachment of Royal Canadian  
Regiment, With Gatling  
Guns, Sent to Spring-  
hill, N. S.

HALIFAX, N. S., July 10.—(Special.)

Two hundred soldiers, members of  
the Royal Canadian Regiment, with  
gating guns, are on board a special  
train at North-street Station, in  
readiness to leave at daylight for coal  
mines of the Cumberland Railway and  
Coal Co. at Spring Hill, where nearly  
a thousand striking U.M.W. mine  
workers have been rioting for the past  
few days.

The men went out on strike a year  
ago and although there has been some  
friction between the strikers and the  
loyal men, no serious trouble occurred  
until last week, when a mob of five  
hundred strikers marched past the  
homes of the loyal workmen, and  
stormed the houses with sticks and  
stones, and assaulted anyone that  
ventured outside their houses.

Fearing serious trouble, the company  
stationed the mayor of Springhill to  
call out the soldiers and give them  
more protection, but the mayor refus-  
ed. The county judge, however, sign-  
ed a requisition to call out the sol-  
diers.

Serious trouble is looked for, as the  
men have been idle so long, and their  
pockets are being filled, that they are  
growing desperate.

## OUGHT TO EMULATE CANADA.

(Canadian Associated Press Cable.)  
LONDON, July 10.—The Financial  
Post says that shipping companies  
ought to join the chambers of com-  
merce and other influential bodies,  
urging the various colonial govern-  
ments to bring their wireless facili-  
ties to the level attained several years  
ago by Canada.

To see a Wright aeroplane prepared  
for flight is in itself an interesting ex-  
hibition. Several men conduct the  
plane to the monorail tracks, where it  
is placed on each wing tip, one at each  
of two detachable wheels like enormous  
casters, and one supporting the "tail."  
The plane is placed upon the rail, which  
is just a board on edge, faced with  
strap-iron. A flange, which can be  
drawn from a flange, is placed on a  
cross-piece in front rests on the track.  
Another flange, which is a loose  
cross-piece that is pushed under the  
runners of the machine from behind  
rests on the track in the rear.

A man stands at the tip of one of the  
wings to keep the nicely-balanced ma-  
chine from tipping to one side or the  
other. Two other men go to the rear,  
one to each of the big propellers. A  
mechanical gear to the front of the  
machine, worming himself in between  
taut piano wires, and begins to test  
the motor.

Then someone else gets under the  
frame and makes the plane fast to the  
track by a wire that is anchored to  
man Catholic Church there was no sal-  
vation, and that Protestants and other  
heretics would go to perdition. When  
the book was being read, the Roman  
Catholic children would turn and  
laugh at the Protestants. The Roman  
Catholic catechism was taught from  
8.30 to 4 p.m. each day.

One time during the winter when  
the priest was at the school the Pro-  
testant children were sent outside in  
the cold for some time while he heard  
confessions. Some of them were ill af-  
terwards in consequence. The next  
time the Protestant children were sent  
home.

James Edmund Smith, farmer of the  
Township of Clarence, Russell County,  
swears that when his children refused  
to learn the Roman Catholic catechism,  
Miss Grace Rankin, the teacher, hit  
them on the heads with the pointer.  
The teacher required all the children  
to repeat prayers to the Virgin Mary  
and she kept an image of "Virgin  
in the school room," says Smith.

## Cred Not Respected.

George Presley, a pupil in the pub-  
lic school at Curran Creek, "how  
much of a Dupples, swears that the teacher  
told them that he had been authorized  
by the French trustees to send the  
Protestant children home. The six  
Protestant pupils were out of school  
for eight months. Presley is now at-  
tending the high school at Plantagenet,  
and he declares that they teach Roman  
Catholic prayers there and the pupils,  
irrespective of creed, are required to  
repeat them four times per day. When  
the prayers are concluded, the teacher  
makes the sign of the cross and all the  
pupils must kneel.

"Not only the Protestants, but some  
of the enlightened Roman Catholics in  
those sections are opposed to that  
teaching," said Mr. Coburn last night.  
"The public schools are closed, on all

Continued on Page 2, Column 4.

## HITCH IN NEGOTIATIONS

Difference of Opinion Between Royal  
and Union Banks.

MONTREAL, July 10.—(Special.)

There is a hitch between the Royal  
Bank of Canada and the Union Bank  
of Halifax about a difference of opin-  
ion over the value of certain assets  
of the latter institution. It was stated  
here to-day that a leading official of  
the Canadian Bankers' Association  
would have to be called in to act as ar-  
bitrator.

Wm. Robertson and E. L. Thorne,  
president and general manager of the  
Union respectively, arrived here to-  
day, and will meet the Royal people  
to-morrow, when further progress, so  
it is said, will be made in the nego-  
tiations.

## STRAW HAT BARGAINS.

The Dineen Company, 140 Yonge-  
street, are putting on sale to-day some  
real hat bargains in summer straw.  
On your way down or up town this  
morning just take a look at the win-  
dow display and you will realize the  
nature of the offering. The Dineen  
Company represent the most exclusive  
hatters in the world and the bargains  
offered are always the broken sizes of  
standard lines left after a week of  
heavy selling. The store is open ev-  
ery evening.
