Realty and Building

from the holidays. Some have been to Europe, some to the States, some nearer home. As they pick up the threads Notice to Contractors they are refreshed and they are certainly hopeful as to the outlook. H. Williams is back from Europe, to take up some big commissions; F. B. Robins, also back from London, has plunged into a lot of things awaiting him, and he has a big staff about him, all busy with new business. So with the others, the general prediction is activity and still wider territory to deal

Trinity square, N., E., S. and W branches, around Trinity Church. stantial and vigorous manner. Toronto and immediate suburbs exceed a population of 400,000 and ought to grow 100,000 in a year. Why? Because of immigration, because of the immense demand for goods and manufactures from the Canadian west, because of the increasing amount of money that flows here yearly from our new provinces. A regular percentage of all the money brought into the west by new settlers, by railroad building, by new industries, flows here to Toronto, making more work, supporting more people. Our own new country up north sends a similar and growing stream. Cobalt built or bought many a home in Rosedale. Por-cupine may do the same. Retired farm-ers continue to come to the city's suourbs. The market gardening industry occupies a widening population

and an expanding territory. Some day we will have a real railway olicy directed by Ontario as a provnce and it will bring us a lot more Cameron sousiness. Toronto owes little to the two big roads in the way of building her up. The Canadian Northern prom-

ises better.
Where will the activity be? In Mimico, in Lambton, in and along St. Clair. North Toronto, Rosedale, over the Don, especially along Danforth-avenue. Go especially along Danforth-avenue. out and see the building that is under way in all these directions.

If realty is active, building will also be active. Reasonability in prices will

provide the most business. Some considerable time was spent yesterday afternoon by the provincial cabinet at the parliament buildings in over the eight or nine plans submitted for the new government house However, no statement was made in this regard, and it is expected that it will be some little time yet before an

award is made. W. P. Murray has taken out a permit for the erection of a residence on Roxborough-street, to cost \$20,000, and Hobberin Bros. have received a permit for the erection of a four-storey office and showroom at the southeast corner of Richmond and Yonge-streets, to

DON MILLS ROAD IMPROVEMENTS

Mills-road, now in the city, is having a sewer put down, and the work ought to be completed in a few days. The gas and water have already been put down and there is therefore no reason now why the citizens on this first quarter of a mile of Don Mills-road should not go in for a block asphalt pavement this fall on the local im-provement plan. The whole quarter of a mile will rapidly turn into a business street if such a thing is done, and all it wants is someone to start the thing along.

happen to the Don Mills-road generally, for the residents and property owners from the city limit up to Taylor's hill, a distance of about a mile and a half, is to also go in for the sewer and water and completion of the gas supply on that road, and then pave it with block asphalt. If that were done they would have one of the finest residential properties about Tor-
