World News In Short Metre

LONDON — Under conditions of the deepest secrecy, a fleet of 50 high-speed daylight bombing planes is being built for the British Air Ministry to equip the new home defence squadrons.

BERLIN — Nine thousand miles of roads will be improved under a government road-building scheme now under discussion which will probably render Germany an ideal country for automobiles. It is understood that the completion of the roads will take about six years and be carried out in intervals.

LOS ANGELES — Thirty old placer mining claims in the San Gabriel river valley, relics of the days when gold mining in California was at the "boom" and "boom" stage, will be wiped out during the next few months when flood control dam construction work gets underway.

MEXICO CITY — Mexico will hereafter bar all negroes from the country. Minister of the Interior Tejeda sent orders to all ports and border points to exclude them. The order applies to negroes of all nationalities. The bar was raised because of fear of negro competition against Indian labor in the Southern States. There has been a considerable influx lately from Haiti, Santo Domingo and Jamaica.

NEW YORK — The number of deaths caused through the fall or jump from skyscrapers during the past three weeks was increased to five when Mrs. Elizabeth Clark Rogers, 54, of Brooklyn, Mass., jumped or fell from a window of the sixteenth floor of the Commodore Hotel. She had been depressed since her husband's death recently.

JACKSON, Mich. — Timothy Ellis wanted to catch a train, so he called for a taxi. The phone girl misunderstood his number and called a fire department instead. So Ellis was taken to his train on a fire truck, the chief giving him a lift.

BELFAST, Ireland — Mrs. Annie Clark, of Raphoe, is past 90 years of age, but she is still able to take care of her small farm. She recently completed the mowing, tying and stacking on an acre of oats, accomplishing the task in a week.

WELLESLEY, Mass. — When John Hastings "let's say" he can't work, he doesn't want to live any more, he says. Every day the 80-year-old man takes a buck-saw and saws up firewood. He is the grandson of a revolutionary soldier.

BRUSSELS — Panic stricken by the rush of flood waters, riverside inhabitants in the Meuse, Sambre and Ourthe valleys have been deserting their homes during the past few days of heavy rains. The Meuse at Liege had risen by nine feet Monday, and was rising at the rate of an inch an hour, threatening the houses bordering the river have been flooded to the second stories.

SAN FRANCISCO — A record-breaking export of 4,000 cars of lettuce within the last month is reported from Watsonville, Salinas and the nearby districts, famed as the native home of California lettuce. This region is about 180 miles south of San Francisco.

LONDON — The birth rate of Great Britain for the quarter ended July 30 of this year is the lowest that ever has been recorded, except during the war years, 1917-1919, according to the London correspondent of The Journal of the American Medical Association. The rate per thousand of population has dropped from 19.3 in the corresponding quarter of 1925 to 18.7 this year.

Paris Press Pleased Over "Wet" Strength

PARIS, Nov. 5.—The Parisian press has reluctantly come to the conclusion that the outcome of the United States elections cannot be interpreted as meaning any change of heart or policy so far as Europe is concerned. To the French the most pleasing expectations from the United States elections is the expression of "wet" sentiment over "dry" in those states where a referendum was taken on the prohibition issue. "Well, let our champagne, burgundy and Bordeaux pay our debt and send monsieur Three Star Hennessy as ambassador to Washington," L'Intransigent also interprets the referendum results as presaging "the return of United States wine buyers to France, their pockets bulging with dollars enough to pay the French debt to Washington."
