## LEAGUE COUNCIL SMOOTHS THINGS

### Poles and Lithuanians Agree to Stop Fighting

Settlement of Dispute to Follow—Finland Also Agrees, With Reservations, on Aland Island Question.

Paris, Sept. 21.—The ninth session of the council of the League of Nations adjourned yesterday after having smoothed out difficulties among four nations in controversy which at one time threatened to result in war. Through its action in the Polish-Lithuanian crisis the council succeeded in getting the two countries to agree to an immediate suspension of hostilities pending a settlement of their dispute which both sides agreed to accept.

Finland also ironed out her difficulties with the council by accepting, with certain reservations the report of the council on the Aland Island question, which calls for an investigation by three commissioners.

League officials explained that, although neither Finland nor Sweden was legally bound to accept the league's decision, it was further pointed out that a settlement if backed by public opinion would virtually compel acceptance.

## FLATS COVERED WITH HERRING

### Gulls in Thousands Feast on Little Fish Stranded at Courtenay Bay.

Whether it was the championship regatta or some other attraction has not yet been ascertained, but the waters of Courtenay Bay yesterday and today presented a picture which has never before been seen in the bay. Thousands of gulls, mostly of the species known as "Laysan Gulls," were seen on Sunday evening and continuing all day yesterday, thousands upon thousands of herring came to the beach from the sea and were this morning lying in heaps along the shingle beaches. Following in their wake came the gulls, a white swarm of them, enjoying the feast of their lives.

He was sworn in as a patrolman on September 20, 1880 and since that time has had a creditable record as a policeman and sergeant. His promotion came three years after he joined the force. For the last nine years he has efficiently filled the position as police court sergeant and has always maintained order and command respect of all with whom he had dealings. ## Miners' Trouble in Nova Scotia Revived

### Strike in All the Mines Is Talked Of

Executive Is Unanimous Against Acceptance of Terms of Royal Commission Award—The Points of Difference.

(Canadian Press.)  
Glace Bay, N. S., Sept. 21.—Following an all-day discussion of the royal commission report, the executive of the United Mine Workers last night unanimously decided against acceptance; also to ask the locals to pass resolutions authorizing the executive to re-open negotiations with all Nova Scotia operators. Crystallized, the attitude of the miners is that they will ask for the \$1 a day to daily workers, and twenty-four cents a ton to contract men—and have conditions remain as they were laid down under the McKinnon award. This means that the chief stumbling block in the way of acceptance is that portion of the report recommending the adoption of the partial advance and sliding scale scheme suggested by the commission as a means of increasing production of coal.

Briefly, the situation is this: 1. The miners' executive reject the idea of the partial advance and sliding scale scheme, claiming the right to open negotiations with the operators every four months. 2. They reject the principle of "compulsory arbitration," which would be contained in the idea of the body recommended by the commission to be set up between operators and men, which the commission held would go far to settle minor disputes and obviate the possibility of "vacations" and "holidays." Silby Barrett, international board member of the I. M. W., said last night that if the operators did not grant the demands as outlined a strike in all Nova Scotia mines would result.

## ANOTHER BIG LIQUOR SEIZURE

### Eighteen Barrels and 183 Cases Captured at Edmundston.

(Special To The Times.)  
Fredericton, N. B., Sept. 21.—Chief Inspector W. D. Wilson has been informed of the seizure of a large quantity of liquor at Edmundston on Monday by sub-inspector A. McLaughlin. It embraces 940 bags of oats, 183 cases of liquor and eighteen barrels of liquor, all in baskets. At the government salmon pond in Little River it was found necessary to resort to pitchforks in order to clear the runways of the fish which were jammed into them. Those who saw the spectacle said that it was the most remarkable witnessed in this section for some time.

### Strike in All the Mines Is Talked Of

Executive Is Unanimous Against Acceptance of Terms of Royal Commission Award—The Points of Difference.

(Canadian Press.)  
Toronto, Sept. 21.—In discussion of preferential trade within the empire by the ninth Congress of the Chambers of Commerce of the British Empire yesterday, Geo. F. Higgins, representing the chambers of commerce of Trinidad, West Indies, said the West Indies would like to see free trade within the whole British Empire, but wanted it to be "trade and not free trade" as was accepted in England. He criticized some of the features of the reciprocal trade arrangement between Canada and the West Indies.

He said the West Indies were grateful to Canada for maintaining a subsidized steamship service, but objection was taken to the Canadians doing all their purchasing from the West Indies through New York brokers. "If the buyers in this country will come to us directly," said Mr. Higgins, "we will be able to get closer together." Mr. Higgins said that for political reasons political union between Canada and the West Indies was impossible. Lloyd Harris of Bramford, Ont., declared that "the whole policy of the British West Indies is settled in London by civil servants or government officials who know nothing about trade and look down upon trade." The government he added, was "not taking the initiative." He had learned to expect no results from anything a government might do. Mr. Harris advocated the appointment of an imperial trade committee, to be composed of three representatives from each of the dominions and colonies, and a certain number from the mother country, who would sit in London as a permanent council to study imperial trade questions. "I do not believe this will get anywhere," he said. "The matter is in the hands of a government," Mr. Harris said, "and it must be done by men who are qualified by practical experience and business training."

## THE GREAT SECRET MAY BE KEPT

### Maine Court Decides Women Need Not Tell Age When Registering as Voter.

Portland, Me., Sept. 21.—The supreme court yesterday decided that a woman should not be required to tell her age when she registers to vote. The case was brought on writ of mandamus ordered to enroll Mrs. Elizabeth Alden Holman "regardless of the fact that she refused to give the exact date of her birth or her exact age when the registers will be heard if they wish to oppose the order." Mrs. Holman was refused enrollment on September 4 when she insisted that it was sufficient for her, or any woman, to describe her age as "over twenty-one years." She announced her intention of making a test case on the issue.

## FREDERICTON RACES

Fredericton, N. B., Sept. 21.—Under ideal weather conditions the Fredericton Jockey Club's fall races will open this afternoon. There are three races on the opening card for today. The other starters include Jeffery, 2:16; Baton, 2:16; Corwin Hal, 2:18; Royal McKinney, 2:11; and George Swift, 2:17, and Northern Mac, 2:15, an irregular stake pacer from Aroostook county.

## As Hiram Sees It

"Well, sir," said Mr. Hiram Hornbeam to the Times reporter, "I'm not as settled down for a quiet evening with the newspaper as Hanner's knifed me in come Mrs. Ann Perkins.
