

GOOD THINGS COMING TO THEATRES OF ST. JOHN

"THE HUNGRY HEART" AT THE IMPERIAL

Pauline Frederick in David Graham Phillips Great Novel

Pauline Frederick was again seen to wonderful advantage at the Imperial yesterday in David Graham Phillips' society story, "The Hungry Heart."

The remainder of the Imperial's programme is filled with the choicest picture features, such as a lovely scenic trip along the shores of the Tarn in France, a Coaching Tour in Picturesque Kentucky, and the Pathe British Games and a simple convincing Drew comedy entitled "Safety First."

Annie Laurie Leonard is a newcomer in the singing department, and is a contrast of most pleasing quality, an artist who knows full well how to exact the very best from her vocal powers, and one who does not strain for effect with obviously showy and noisy notes.

Tomorrow the Imperial presents the noted star, William S. Hart, the good bad man of the movies, in his renowned western story, "The Cold Deck." "The Cold Deck" is the highly dramatic life of the early days in the wild western country will no doubt thrill "The Cold Deck" a veritable classic.

"DAMAGED GOODS" WILL BE SHOWN THURSDAY

Testimonial From Well Known People Who Have Seen "Damaged Goods"

The following letter is eloquent testimony to the merits of "Damaged Goods" which will be seen Thursday for the first time, continuing for men only, until Saturday, and the following Monday, Tuesday and Wednesday for women only.

We, the undersigned, greatly appreciate the privilege of seeing the picture called "Damaged Goods" last Saturday, and use very freely and gladly do we permit the use of our names and addresses in connection with it to be a subject that every man and woman of a thinking age in the city should see.

With the idea of segregated audiences is probably wise, at the same time, there is not the slightest reason why the most faithful of either sex should refrain from seeing the picture, and so very many reasons why your enterprise in giving to St. John the much needed opportunity of seeing "Damaged Goods" and we hope that very many will avail themselves of it.

Yours very truly,
Mrs. E. A. Smith, Mrs. J. V. Anglin, Mrs. H. A. Powell, Mrs. N. C. Scott, Mrs. H. H. McKewen, Mrs. E. R. Raymond, Mrs. G. J. Coster, Mrs. R. J. Hooper, Rev. W. R. Robinson, Mrs. H. P. Frink, Mrs. A. C. Wilson, Mrs. M. O. Skinner, Horace A. Porter, Judge Ritchie.

THE GOOD "BAD MAN" OF THE MOVIES TOMORROW
Never has big Bill Hart, the true representative of America's courageous picture performers, performed more hazardous stunts than in his latest screen production, "The Cold Deck," which will be shown at the Imperial Theatre tomorrow and Thursday.

The grim man of the desert is absolutely without fear, and yet, curiously enough, is one of the most sensitive of little girls up to the mountains where she may regain her health. Through treachery, he is made to appear guilty of the murder of a stage coach driver. He is placed in jail, and the Vigilante police are preparing to bend the bars of his jail window, leaping twenty feet to the ground below and escaping on his trail and his capture seems certain, but his daring is greater than theirs, for he deliberately turns his horse toward the edge of a precipice and rides down a break-neck incline.

MARY MILLS MINTER SCORES HIT AT UNIQUE
"The Mate of the Sally Ann" now showing at the Unique affords Mary Mills Minter wonderful opportunities to display her talents in the most dainty manner possible. A most delightful picture with a more delightful star. Pathe news also.

THE SUBMARINE EYE; BIG NOVELTY AT LYRIC
"Wonderful" was the adjective the majority of Lyric patrons used yesterday when their opinion of the Submarine Eye was solicited. It is wonderful. Under the sea is the stage for most of the action. You want to see it today and tomorrow only.

THE GEM TONIGHT
The Gem cozy and warm, invites you tonight out of the cold with a four-act programme, dramatic, comedy, and two excellent vaudeville acts.

DROPPED DEAD.
Sherbrooke, Que., Feb. 5.—Jos. Laventure of this city dropped dead in an express office here just as he had signed for a consignment he had received.

THE ROTARY CLUB
At Monday's meeting of the Rotary Club, H. Russell Sturder, N. R. Desbais and Rev. I. W. Williamson were elected members.

Soldier Farmers to Learn Book-Keeping

Vocational Training Officers Plan to Produce Farmers Who Are Good Business Men

No institutions in the world have a greater collection of interesting characters than the Canadian military convalescent hospitals which have sprung up in every district to care for the wounded further service.

Canada before the war appealed to the man with an imagination and the force of character put it into action. The west and the northwest were peopled by the adventurous spirits of the old country, and living in big spaces personally unhampered. These men were among the first to join the C. E. F. when war broke.

Veteran Bill Six Names
"Buffalo Bull," "Mustang Jack," "Dr. Powell," "Three Finger Jack," "John Briggs," who just now is receiving his mail under all these titles at the Spadina Military Convalescent Hospital in Toronto, was one of these.

There he was serving with the "Buffalo Bill," which name attaches to him by reason of his service with Col. Bill Cody's Wild West show for six years.

"I was the first man to turn a double somersault in this country, and without boasting I could do it now," declared the old veteran who will be seventy in May.

He stands straight to a good height and is distinguished by a head of silvery white hair and a beard. His home, he says, is where night overtakes him, and as for nationality he divides the honors between England, Scotland and Ireland.

With the United States army scouts "Buffalo Bill" got a close up on the tactics of Indian warfare. He also fought in the Fenian Raid. Finally he settled in the west where he now owns a ranch of 2,500 Mustangs.

He is serving the king in the army service corps because he wants to do his bit and all the money he earns in doing it he gives away.

No Refreshments Served.
At a reception in Quebec on January 9th, under the auspices of the Society for the Relief of the Deaf, Mr. Benoit, president of the society, set a good example in food conservation by insisting that no refreshments be served.

Notice of Births, Marriages and Deaths, 50c.

BIRTHS

MORROW.—On Feb. 2, 1918, to Mr. and Mrs. Wm. Morrow, 271, Quebec street, a son.

WILLS.—On February 4 at his residence, 61 Sewell street, after a short illness, George T. Willis, aged fifty-five years, survived by a wife and two daughters to mourn.

Funeral on Wednesday from his late residence, 1200 St. John street, at 2:30 o'clock.

HICKSON.—In this city on February 3, Maude E. Hickson, eldest daughter of the late A. W. Hickson, survived by her mother, one sister and two brothers.

Funeral services from her late residence, 1200 St. John street, at 2:30 o'clock.

McLEOD.—Tensbury Infirmary, on January 21, Greta I. Ferris McLeod, aged twenty-one years eleven months, daughter of Mr. Henry Ferris, and the late Milford Ferris leaving, besides her mother, one son, one brother and five sisters.

Funeral Wednesday from her mother's residence, 46 St. David street, Service at 8:15 o'clock.

IN MEMORIAM

WRIGHT.—In loving memory of William Charles Wright, died Feb. 5, 1918.

CARDS OF THANKS

Mr. and Mrs. George Jackson and relatives wish to thank their many friends, the Knights of Pythias, for kindness shown in their late bereavement.

RIVER STEAMER MAY QUEEN BURNS TO WATER'S EDGE

Veteran Craft Destroyed by Fire—Valued at \$50,000 With Insurance of \$160,000

The river steamer May Queen, which has sailed the waters of the St. John river since the summer of 1909, was last night burned to the water's edge and sunk while at her moorings, just below Mirford, on the western side of the St. John river. The steamer was valued at \$50,000 and was owned by the Grand Lake Steamship Company. The total insurance carried amounted to about \$160,000, being carried by Cowie & Edwards, St. John. The origin of the fire is not known.

The fire broke out early this morning and when day broke all that was visible of her was the smoke-stack and part of the boiler. After making her final trip this fall, she was moored for the winter at the old Cushing Mill wharf, Mr. Colewell, the manager of the Grand Lake Steamship Company, visited the vessel from time to time. Only yesterday afternoon he was aboard her. There was no fire in her boiler and none in her furnace. About a week ago when Mr. Colewell had occasion to board her, he found that the purser's office had been broken into and also the storeroom, and some of the general stores were stolen.

The steamer was purchased in August, 1915, by the Grand Lake Steamship Company, composed of F. H. Colwell, president and manager; George W. S. Harris, Mrs. A. Duncan, Mrs. W. S. Corbett, Mrs. Charlotte Waring and Blake C. Ferris. Fifty per cent of the shares were owned by two New York men, Daniel J. Leary and W. C. Reid.

The steamer was built in Carleton in the spring of 1909 by Orlis Small and Charles H. Hatheway. She had a registered tonnage of 840 and carried 500 passengers.

She was always considered a "lucky" boat. She had sailed the waters of the river for forty-eight years, and during that time was only ashore twice, and never damaged to an extent but what she could make her trip. She was the fastest steamer on the river during recent years.

In 1907-1908 she was rebuilt, having had new boilers installed and her machinery rebuilt at a cost of \$100,000. It is estimated that to build the steamer today under the present circumstances it would cost somewhere in the vicinity of \$60,000.

She was always on the St. John-Chipman route until this summer when the government refused to allow the company a subsidy. The steamer was taken off this route and put on the St. John-Carleton route.

Chief Engineer Wilnot Pitt of the government steamer Simcoe, which was lost off the Magdalen Islands in December, was the chief engineer on the May Queen for more than ten years. His son, Ralph, was killed in the same way.

Both father and son were drowned when the Simcoe was lost.

Says Acid Stomach Causes Indigestion

Excess of hydrochloric acid sours the food and forms gases.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hydro-acidity, meaning there is an excess of hydro-chloric acid in the stomach which prevents complete digestion and starts food fermentation.

Everything eaten sour in the stomach much like garbage sours in a can, forming acid fluids and gases which inflame the stomach like a toy balloon.

Then we feel a heavy lump in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead, get a glass of water, combined with a little acid and sodium phosphate in a tablespoonful in a glass of water before breakfast and drink while it is effervescing, and furthermore, to continue this for a week. While relief follows the first dose, it is important to continue the acid and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.

WHEN IN NEED OF Ladies' Men's and Boys' Clothing call at The New Store

LOCAL NEWS

RECORD EXCHANGE
Get our terms for exchanging your phonograph records. \$10 Union street, opposite Opera.

Let us share our profits with you; save the coupons given away by Louis Green, 89 Charlotte street, with every purchase of smokers' goods. Get beautiful gifts in exchange.

LONE STAR.
William Randall, the big favorite of the screen, today at the Nickel in Lone Star. Get there early, doors open 6:30; first show 7 o'clock. Matinee 2:30, and 8:45.

Rev. Dr. Hutchinson will give an illustrated lecture on "Birds in Poetry," Natural History Museum tonight. Free to public.

THE "BIG" TONIGHT
The street and the city firm at a bargain to be sold by King Square Sales Company away below cost. Visit our store tonight or tomorrow.

IS BELOW TEMPERATURE
The weather is more cold weather ahead. We have warm underwear for men and women; socks, gloves, and hats. King Square Sales Company.

Does your corset slip up under your arms especially if you are stout, or rub your hips if you are slim? Have your corsets fitted.—Daniel, Head of King Street.

PERSONALS
Mrs. Harold O. Evans (nee Campbell) will be at home to her friends, Tuesday and Wednesday afternoon, February 5 and 6, at her residence, 78 Sydney street.

Andrew O. Partridge of T. S. Smart & Co.'s staff, left last evening for New York and Baltimore.

HARD ON THE CHILDREN
A number of boys and girls arrived at the school yesterday morning with frost-bitten ears and noses. As a result of the intense cold only one session was held.

GEORGE V. KING
The death of George V. King occurred yesterday at the St. John's Hospital. He was a bright young man of sterling character and bore his tedious illness with Christian fortitude. He leaves, besides his parents, three brothers, James A. and Dawson of the Humber and Mrs. Henry Watters, of St. John's; also four sisters, Mrs. George Upjohn, Bangor; Mrs. William Humber and Mrs. Harry Watters, of this city, and Miss Ethel at home. The sympathy of many friends goes out to the bereaved family.

The Quinine That Does Not Affect Heart
LAXATIVE BROMO-QUININE can be taken by anyone without causing nervousness or ringing in the head. There is only one "Bromo-Quinine." E. W. GROVER, Sole Agent, St. John, N. B.

ELLIS-WATSON
A quiet wedding took place in the parsonage of the Methodist church at 11:30 o'clock, yesterday, when Miss Mary Watts, daughter of Mr. and Mrs. Joseph Watts of 29 Johnston street, was united in marriage to Percy J. Ellis, of Macon Bay, Charlotte county. The ceremony was performed by Rev. S. S. Poole, M. A., the pastor of the church. Following the wedding Mr. and Mrs. Ellis left by the noon express for a wedding trip to Nova Scotia points.

McDOUGALL-WATTS
A bridal wedding was solemnized at St. John's Methodist church yesterday, when Miss Mary Watts, daughter of Mr. and Mrs. Joseph Watts of 29 Johnston street, was united in marriage to Percy J. Ellis, of Macon Bay, Charlotte county. The ceremony was performed by Rev. S. S. Poole, M. A., the pastor of the church. Following the wedding Mr. and Mrs. Ellis left by the noon express for a wedding trip to Nova Scotia points.

EARLY DEALINGS MARKED
New York, Feb. 5.—(Wall Street)—Early dealings on Wall Street today were marked by free offerings of leading issues. Important rails and industrial offerings were prominent. Among specialties received were Liberty bonds, and a half point under steady pressure and Bethlehem Steel lost two points. Liberty bonds were inclined to react.

GEORGE HAMS' EPIGRAMS
The series of epigrams by Lieut.-Col. George H. Ham, given by the general manager of the C. P. R., given below, are from a most interesting character study of the Canadian people, as told by John D. Logan, the well known Canadian writer. Every one who knows George Ham will appreciate his voice in the following utterances:
Look out for the man who crowds all his religion into the Sunday.
Talk is cheap. That is why it is so prevalent.
Young man, when you think that you know more than the boss does it's time for you to quit.
Never offer an anchor to a drowning man.
What some people need for a stimulant is a good swift kick.
When the use of going away from home, when you only have to come back again?
Laziness is a worse disease than rheumatism.
There are a whole lot of contented volunteers in the great army of the unemployed.
The boaster who "can drink and leave alone," usually doesn't.
Never drink before the sun reaches the yard-arm, and then less after it.
When a man doesn't see the introduction, if you are seeking employment, I once knew a man who could converse in seven different languages, and do nothing in a dozen.
There is a couplet a distinguished Chief Justice used to recite that is good advice to young men:
"It's not birth, nor wealth, nor real estate,
But get-up-and-get that makes men great."
Solitude is fine—if you have somebody to share it with you.
Unkindness is a worse crime than theft.
If I could trade off all my pains and troubles for a horse, I'd be the Solomon of the twentieth century.
When a man doesn't want to be rich he generally gets his wish.
Friends frequently do not disappoint you as much as you do yourself—if you only know it.—Saturday Night.

WEEPING ECZEMA SOON RELIEVED

A Perfect Treatment For This Distressing Complaint

Wasing, Ont.
"I had an attack of Weeping Eczema so bad that my clothes would be wet through times."
For four months, I suffered terribly. I could get no relief until I tried "Fruit-a-tives" and "Sootha Salva." The first treatment gave me relief.

Both these sterling remedies are sold by dealers at 60c. a box, 6 for \$2.50, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

"Fruit-a-tives" is also put up in a trial size which sells for 25c.

DISASTROUS FIRE IN WINNIPEG; FEAR TWO WOMEN ARE LOST

Winnipeg, Feb. 5.—Two women and one man are missing, three people are injured, and damage estimated at \$175,000 is the result of a fire which completely destroyed the Riverview Hotel in the Elmwood suburb of Winnipeg, early today. The flames, fanned by a thirty mile an hour wind, swept up the street and the buildings on either side of Main Avenue for the distance of one city block are damaged. The missing are Martha Sheehan, a nurse in the family of J. O'Connell, proprietor of the Riverview Hotel, Lena Wuchan, kitchen girl at the hotel and Pal, Timmon, roomer at the hotel and said to be a returned soldier. The injured are Bessie Moran, waitress, who was badly burned before she could be rescued from the hotel; Geo. Watreck, barber, not so seriously burned about the face and hands; and a third man, unknown, who jumped from an upper floor and broke his leg.

A MOTHER'S WORK

Mothers as a rule spend so much time in looking after their children and in household work that they overlook the absolute necessity for that rest and relaxation which their rest depends. The consequence is that soon they find their health breaking down. The daily burden of household life as a mother knows it, with hurried meals and family and household cares, quickly thin the blood and weaken the nerves. Then follow headaches, pains in the side and back, swollen limbs, palpitations, a constant feeling of being over an inclination to fretfulness. These symptoms are the sign of poor blood, and are the forerunners of a mother's health falling and household duties becoming more and more than she can carry out. Whenever a mother's health demands that she should stop, she should stop. The safe and simple remedy is Dr. Williams' Pink Pills for Pale People. These pills are especially valuable to nursing mothers, and the quantity worn out with household cares. They renew her blood supply strengthen her nerves, and give her the strength to carry out her household duties. They are sold by all druggists and by mail for 50 cents a box or six boxes for \$2.50.

You can get Dr. Williams' Pink Pills from any dealer in medicine, or by mail for 50 cents a box or six boxes for \$2.50. Write to Dr. Williams' Medicine Co., Brockville, Ont.

PLANT TIED UP

Rumford, Maine, Feb. 5.—The plant of the International Paper Company was unable to operate today because of failure to receive a supply of crude oil used as fuel. A tank steamer with oil for the company due at a Maine port yesterday, was delayed and is not expected to arrive for several days. Eight hundred men are employed at the Rumford mills.

GEORGE HAMS' EPIGRAMS

The series of epigrams by Lieut.-Col. George H. Ham, given by the general manager of the C. P. R., given below, are from a most interesting character study of the Canadian people, as told by John D. There's A Reason

Why 75% of the buildings in Toronto, and the cities of the United States are equipped with Metal Weather Strip. I'll be glad to tell you why.

A. E. Winston, M. 2479, 86 Princess St.

INTERNATIONAL COMMISSION OPENS HEARING IN ST. JOHN

(Continued from page 1.)
Hon. Mr. Redfield replied and said that, on behalf of the commission, he concurred with the views of Chief Justice Hazen. He said that it was felt that desirable arrangements could be made whereby officers and members of the crews of United States vessels could be comfortable in Canadian ports. He said that the want in need of food and this question was receiving attention that it had never received before. He pointed out that questions of food and clothing were of great importance, and he said that it would take years, if ever, to bring it back to a condition prior to the war, and as a result, the people may have to look to the sea. He referred to the great struggle now being waged and spoke of the sons of Canada in the United States at present engaged in the same great cause on the battle field. If the aims of Germany should predominate and they should acquire domination of the world sea they would threaten St. John and Halifax just as they would Boston or other American ports. Thus being united in the greatest of all struggles, he said, we should leave what would be of common interest and remove, if possible, expense, annoyance and anything else which would prevent betterment of conditions at home.

Having in mind the common need of food, reasonable prices, he said that the people should recognize that there was an opportunity for a great distribution of business with proper remuneration. All the population in all countries were interested supremely and therefore it should be a common question arising at the present conference should be looked at in the broadest possible way and deal with in good fellowship.

Chief Justice Hazen then asked Mr. Gardner of Lunenburg if he would give the commission some light on questions dealing with the construction of ships in Nova Scotia, the cost of equipment and the cost of equipment in all countries were interested supremely and therefore it should be a common question arising at the present conference should be looked at in the broadest possible way and deal with in good fellowship.

FIELD-ROOT SEED SUPPLY IS SHORT

Europe is Not Producing the Stocks Upon Which Canada Has Been Dependent.
(Experimental Farm Notes.)
Canada has so far, as is well known, relied almost entirely on Europe for her supply of root seed. Before the war, i. e., as long as agricultural and transportation conditions were normal, there was no danger of Canada being inadequately supplied with seed of reasonably good quality, but with the outbreak of the war the conditions became different. It is true that during 1914 and 1915 the imports were not falling off as a matter of fact, Canada imported during these years more seed of both mangel and turnips than during any previous year. A mere study of the import figures therefore gave the impression that Canada at the end of 1915 was not in any danger of having the seed supply seriously curtailed in the immediate future. However, as the prospects for an early peace continue to remain far off, the agricultural activities in the seed raising countries of Europe had to be directed almost exclusively toward production of food for the armies. As a consequence, root seed growing was being neglected, especially in France, a fact that became noticeable as early as 1916. The immediate result of this was a rapid decrease in the seed supply in Europe, which made it necessary for the root seed producing countries to prohibit the export of root seed for the duration of the war. When this embargo took effect, it began to be realized in the seed supply needed by Canada in the near future. The danger gradually took the form of a serious aspect, as the immediate result of this was a rapid decrease in the seed supply in Europe, which made it necessary for the root seed producing countries to prohibit the export of root seed for the duration of the war. When this embargo took effect, it began to be realized in the seed supply needed by Canada in the near future.
