

ONE MILLION PRISONERS

Captured by Italians—Boaty Valued at Five Billions—The News in Paris

Italian Headquarters in Eastern Italy, Nov. 6.—(By the Associated Press)—The Italian army is gathering in the booty of its great victory. The value of the captured material will eventually reach \$5,000,000 (?) it is estimated. It now includes 200,000 horses and 6,000 guns. By a rough count 1,000,000 Austrian prisoners are now in Italian hands. It is said that the defeat of the Austrians in the last drive was ten times more costly to them than the defeat suffered at Caporette last year was to the Italians.

Italian troops are now beyond Bolzano and are slowly moving forward over roads impeded by the wreckage of war. Paris, Nov. 6.—News of the capitulation of the Austro-Hungarian army was received here with quiet satisfaction. It had already been discounted, for it was mainly inevitable as to lack any surprise, and it is but one in a succession of stupendous events, which the mind has difficulty in assimilating.

These sentiments are echoed in the newspaper comments this morning, which for the most part are extremely sober.

A VICTORY FOR AMERICANISM

Roosevelt Regards Republican Majority as Cause for Thankfulness to Loyal and Far-sighted Americans—Pro-Germans were Democratic

Oyster Bay, N. Y., Nov. 6.—Colonel Theodore Roosevelt issued a statement tonight in which he declared that the Republicans had made their fight "on the unconditional surrender issue" and, as it appears we have Republican congress, the result "must be a cause of profound thankfulness to loyal and far-sighted Americans."

Asserting that the "victory serves notice on Germany that Foch will dictate the terms of armistice and that the terms of peace will be determined by all the Allies," he declared that the election of the victors is really extraordinary, inasmuch as the entire pro-German and pacifist vote was behind the Wilson Democratic ticket, and in view of the fact that the enormous war powers of the administration have been used with such adroit and unscrupulous partisanship, I regard the result as much more a victory for straight Americanism than Republicanism.

U. S. ELECTIONS

Washington, Nov. 7.—Control of the United States senate continued to remain in doubt early today on the face of returns from three states where contests between the Democratic and Republican candidates continued close at the close of the day.

The Republicans further increased their majority in the house of representatives when two of the three seats from South Dakota were conceded to them. Three seats, one each in South Dakota, New Mexico and Montana still remain in doubt.

The standing of the two parties in the next house, without the three missing districts, is:

Republican 226 and Democrats 133.

In the senate without the three doubtful seats there are forty-seven Republicans and forty-six Democrats.

2 YEARS AGO

a rash broke out on my hands and the doctor told me it was eczema. So writes Mrs. McDonald, of Oyster Ponds, N.S. She adds: "In spite of the doctor's treatment had sores appeared which gradually spread over more area. Finding that the doctor's treatment did me no good, I turned to various so-called remedies, but I met with no relief.

"Knowing how terribly serious eczema is and how it will sometimes defy all treatment for years, I became almost discouraged. This was my state when I read about Zam-Buk and decided to give it a trial. By the time I had used one box the eczema was not so bad. The inflammation and the irritation were subsiding. Naturally I persevered with Zam-Buk and as I did so the disease was gradually overcome. Day by day the sores got less and less and, to my delight, the disease was finally driven out entirely. It seemed almost too good to be true and I feared the eczema might break out again, so I waited several months to make sure that it was permanently cured. I am; and Zam-Buk deserves all the praise."

If you are suffering with eczema, eruptions, blood-poisoning or any skin disease, don't delay, but apply Zam-Buk

THE PEACE RUMORS

When the report was current about the city that an armistice had been signed and that hostilities would cease at a specified hour there, was great excitement and hundreds of telephone calls were received asking if the report was official. Although the reports were unverified, people were inclined to accept them as correct in spite of official warning given against such reports. As the rumors spread throughout the city the greatest excitement prevailed. The air was tense with the expectation of big events and the citizens were keyed up to a high pitch. From the display of feeling over the unofficial rumors, it can be imagined what wild excitement will break loose if the reports are confirmed.

A U. S. Tribute To Great Britain

New York Commercial: Before the United States entered the war and for three or four months after German propagandists and a few English language newspapers persistently declared that England was letting her Allies do all the fighting and make all the sacrifices, America was warned not to fight England's battles and pay England's bills. The attempts to create dissension should not be forgotten, no matter how loudly the perpetrators now proclaim their loyalty and call for the overthrow of the Kaiser whom they serve with so much ardor until it became unsafe. England's casualty lists show that more than 1,000,000 men have died in its military and naval services since the war began and that 37,000 were killed, wounded or missing in the last reported week. Had America suffered as has been proposed by the cabinet for some time past in addition to acting as chairman of the Canada Registration Board, has been appointed minister of labor. Mr. Robertson was sworn in at noon today. Mr. Crothers resigned on the grounds of ill-health.

FUTURE OF GERMAN COLONIES

JOHN BULL AND THE WAR

New York Life: Everybody in the west gets more bouquets than John Bull, yet but for John there wouldn't be any war. It would have been over long ago, and Germany would be busy with the details of her appropriation of Europe. John Bull has saved civilization. We call it that, though civilization is a tough product and would have survived Kultur, just as it survived except through the successors of Mahomet and all the conquering hordes that swept over Europe. Belgium saved civilization when her body blocked the road to France as in history a woman's arm, that for a moment barred a door, saved a fugitive prince. France saved civilization by her sacrifice, Belgium and England. Let us cement the bonds of friendship between ourselves and our Allies by a display of good taste in accordance with the eternal fitness of things.

THE GERMAN IN FULL RETREAT

(Continued from page 1)

Forest has been thoroughly cleaned out by British troops, but some few Germans are still in Berlandcourt, where they are in danger of being cut off.

British forces are east of Poerquie and are advancing toward Pont-Sur-Sambre. New Zealand troops are marching along the road to Bavay and are near Hamanges.

Up till last evening the third British army had counted 128 German officers and 5,879 men taken prisoners since Monday morning. Since that time prisoners have been coming back through the lines. The fourth army had taken 4,500 by last night, while the first army had captured several thousand.

American Success. With the American Army on the Sedan front, Nov. 6.—(By the Associated Press)—Its footing well established east of the Meuse, the American army has forced its way along both banks of the river until tonight it is within six miles of Sedan.

Notwithstanding the fact that the Germans have put in fresh divisions, the American and French troops continue their grim advance. Murvaux, north of the Freya line, and east of Dun, was reached this afternoon and operations about the heights to the east of Sedan are well under way.

Reports from the centre of the American line are to the effect that the town "Wm. Thompson" to the deposit slip Sedan is burning.

The division fighting in the centre captured today twenty-three T7s, two hundred machine guns, fifteen trench mortars, 200,000 rounds of ammunition and much other material.
