REMARKS.

96. Value of Church property not given. Glebe consists of five acres good land.
97. Service at present in a Union Church, used during the week as School house. Congregation has attempted without success to obtain a proper site. Failure of crops has affected congregation. Cast themselves upon sympathy of Synod, to countenance aid.
98. Minister at present in receipt of £25 sterling from Colonial Committee.
99. \$2000 inserted in General Sheet No. 1, under "Manse," is value of Manse and Glebe. Congregation suffering in numbers from high average rate of sittings, have a desire to union with other Presbyterian bodies, believing that it would be the means of reducing price of pews, and increasing the interest and attendance in Presbyterian Church generally.
101. \$106 said to be derived from "other sources," inserted under "subscription." Minister receives grant of £75 sterling from Colonial Committee.
102. Return from Session partial. No return from Managers.
