THE EVENING

B., FRIDAY, NOVEMBER 29, 1889.

shelter from the rain, but she speaks highly of the kindness and care of the captain and mate in doing all in their power to make the best of their unhappy venture. The steamer struck just above their upper line keel and it was about the only place about the point where there was room at the foot of the cliff to land.

After a most exhausting climb over the cliffs in slush and rain, the passengers and crew reached the residence of Mr. Coleman, where they were very kindly treated, and after getting warmed and dried, several of them were furnished with lanterns and made their way to the city. Mrs. Johnston was kindly offered shelter for the night, but she wished to get home and pluckily footed it with the rest of the party, and reached home quite late.

The steamer, which was lying on her side so that the smoke stack is in the water, may be righted up tomorrow and brought back to the falls. She is owned by Captain Porter and G. F. Baird, M. P., and is not insured.
