

CALL MONEY IN FROM GERMANY

FRENCH FINANCIERS CAUSE EMBARRASSMENT

Germany Has Sent Reply to France Regarding Claims in Morocco

Paris, Sept. 11.—The nature of Germany's reply to the proposals submitted by France with the idea of reaching an agreement regarding the Moroccan problem has affected French government circles unpleasantly.

Germany asks, it appears, that every claim of German subjects to concessions in Morocco shall be recognized by France, and that no new enterprise shall be undertaken in Morocco without the approval of the French protectorate without being internationalized equally.

The claims of the German subjects, particularly those of Mannesman Brothers and speculative companies organized by them, are enormous. The German terms also ask for a free hand in Morocco with conditions that would, according to the French view, deprive France of all her arguments and would give Germany privileges in Morocco beyond those of any other power.

A semi-official note issued today says that Minister Desclaux has examined the observations presented by the German government in reply to the French proposals and that he probably will take a favorable view of the suggestions contained therein for establishing the economic equality of the powers in Morocco, but that in opposition to this international economic equality are privileges desired by Germany alone. Other points, the note says, are raised, several of which are of the nature of demands, and the responses which are equally serious.

The negotiations between France and Germany, the note says in conclusion, probably will be prolonged for some time.

It is understood that Germany in return for the recognition of France's free hand in Morocco demands economic guarantees, which amount to privileges and which would be unacceptable not only to France, but to all the other powers, as they would practically suppress commercial equality in Morocco.

It appears certain that the financial difficulties of Germany are partly the result of the operations of French financiers. The German monetary world was caught at a time when it was unable to resist the sudden hostility of the Paris bankers, who three weeks ago began to cut off credits which in any way concerned Germany. A good deal of Berlin paper is held in Paris and considerable by Swiss bankers, who are debiting to the Paris bankers. When the political situation was taking on a dark phase, as an ordinary measure of prudence, French financiers began calling in the debt owed by Germany. German embarrassment was immediately perceived and this process was encouraged by the French government as a diplomatic manoeuvre.

A French banker of distinction, who has close relations with the government, reached here Friday from Berlin, where he has made a thorough examination of the situation. There is no disposition among the Paris bankers to push matters too far, but they explain that they desire the return of their money at a time when apprehensions concerning the political future exist.

Distrust among the Germans of their own government is, according to French opinion, going to exercise a strong influence in settling the Moroccan controversy. It is known that the financial hurry has been intensely annoying to German statesmen.

Kaiser Confers With Minister.

Berlin, Sept. 11.—Emperor William, before starting yesterday for the scene of the army manoeuvres, held a conference of two hours with the German minister of foreign affairs, Herr Von Kiderlin-Waechter.

The Lokal Anzeiger to-day, in what is evidently an inspired article, emphasizes that Germany does not demand any special rights whatever in Morocco, but seeks mainly guarantees of the public works, mining and trading rights and against certain practices in the customs administration—guarantees that would benefit all countries equally.

The only subject requiring a special arrangement between Germany and France, the paper says, would be a treaty ceiling territorial indemnity. All other points would be covered by an amendment to the Algeiras agreement, providing the other signatories would accept the German proposal to commission, France to take over a protectorate of Morocco along with the obligations involved to maintain order.

The opinion prevails in the highest political circles of the capital that the matter will be substantially settled this week.

Saturday's Bourse panic seems to have passed off quickly as it arose. The market presented a completely changed appearance. Heavy buying orders came in from the provinces and from the outside public generally. The market was also improved by the publication of the Prussian grain estimates, which show bigger yields than did the first estimates published several months ago. This caused a heavy fall in wheat and rice prices which reacted favorably on the stock market.

Cheaper money also assisted in recovery which almost wholly wiped out Saturday's losses.

May Hasten Settlement.

London, Sept. 11.—Some of the London morning papers take the view that the severity of the financial crisis in Germany resulting from the withdrawal of German credit will compel Germany to hasten a peaceful settlement of the Moroccan difficulty.

The Daily Telegraph's Tangier cor-

respondent reports the massacre in the Suez region, Morocco, of four Germans who were studying mineralogy.

Preparing for Emergency.

Amsterdam, Sept. 11.—The government has cancelled all military leave and is taking every possible step to be prepared for eventualities.

GERMANS AND MOROCCO.

Berlin, Sept. 11.—At the annual convention of the Pan-German League yesterday, resolutions were passed protesting against the withdrawal of Germany from her political position in Morocco, and against her acceptance of territorial indemnity in the French Congo.

The German imperial chancellor was asked to break off negotiations with France relative to Morocco rather than settle the dispute on that basis.

The speech of the chairman was to the effect that the acquisition by Germany of western Morocco corresponds with the wishes of the German people.

Another resolution demanded the speedier building of warships.

ENRAGED MOB SETS FIRE TO HOSPITAL

Two Women Burned to Death—Cholera Patients Carried Through Streets

Chiasso, Switzerland, Sept. 11.—Massacre, a town in the Italian province of Lucina, has been the scene of outbreaks similar to those at Gioia del Colle, where the populace, incensed by the measures adopted by the authorities to check cholera, marched to the hospitals and carried out the patients.

While the municipal council was in session discussing the best measures for combating the cholera, thousands of demonstrators howling "death, death," gathered about the city hall. The mayor and councillors suspended the meeting and fled from the building. The mob then moved toward the cholera hospital, keeping up a running fight with the police, who were unable to stop the marching.

The mad crowd attacked the hospital and overhauled barricades erected against them. The crowd piled burning wood against the building and smashed in the doors with axes. When further resistance was impossible the rioters and nurses fled from the building. The rioters entered the hospitals several of the wards were already afire. Women patients were crying, hysterical, and some of the rioters were dangerously injured.

OLD CONSERVATIVE DENOUNCES BORDEN

Mr. R. C. Brandon, one of the leaders of the Patron movement, and a very well known Conservative living near Cannington, in Ontario County, has written the following letter to the Weekly Sun on Mr. Borden's attitude towards reciprocity:

"After reading Saturday's proceedings on the Conservative gathering in Toronto I wish to express my opinion as a Conservative. My old political friends have mesmerized themselves into the opinion that the Ontario farmer is the most glib creature in the world. The miraculous discovery that the Fielding-Paterson trade agreement with the neighboring States, with their 50,000 of people to provide food for, would cause Canadians to lose their individuality and our country its identity, if such is carried through, is amusing. The great light of revelation which granted this knowledge to my friends must have been greater than that which surrounded Paul when on his way to persecute the Christian. It is time every farmer in Canada asserted his God-given self-respect. It is now evident that a death struggle is on to regain possession of Canada's swelling treasury, but the plan of campaign which our friends adopt is to be a species of andacity quite in keeping with his want of discretion as a statesman. Reciprocity, if enacted, would add 30c. to each bushel of barley, 30c. to each horse, from \$3 to \$9 to each bullock sold, \$4 to each ton of hay, and would remove 25c. per bushel and 30c. per bushel against our peas and wheat on going to the United States market. The Canadian Manufacturers' Association and the favored trusts and mergers have skillfully anchored our old political party to the rear end of their crusade of deception and slander."

R. C. BRANDON.

WOMAN MURDERED.

Essex, Ont., Sept. 11.—Mrs. Geo. Reid, wife of a prosperous farmer, was found dead in bed at her home in Malden township Sunday afternoon, by her son. The woman's head and face were terribly smashed, the body lying in a pool of blood and an axe was nearby. The husband is missing and detectives are working on the case.

TO OPPOSE SIR WILFRID.

Quebec, Sept. 11.—At a convention held here R. Leduc was unanimously chosen to oppose Sir Wilfrid Laurier.
