

STRIKE OF SEATTLE STREET CAR MEN

DECISION REACHED EARLY THIS MORNING

Other Unions May Quit Work—Company Anticipates Little Difficulty in Maintaining Service.

Seattle, Sept. 9.—At 1 o'clock this morning the Street Railwaymen's Union declared in favor of striking. None of the members of the union will take out cars of the Seattle Electric Company to-day.

The decision was bitterly fought at a meeting which began at 7:30 last night, attended by the advisory board, consisting of representatives of all the other unions of the city.

The majority of these representatives opposed the strike, and after a long debate the question was passed up to the executive committee of the street car men.

The company anticipates little difficulty in maintaining service with the support of the new Trainers' Union and about 200 non-union men.

Fear Strike Will Spread. Seattle, Sept. 9.—The street car strike promises to be a fight to the finish between the union and company.

The company has in operation about half its cars on the regular routes, and promises to have all running regularly before the end of the week.

No Violence Has Occurred, and the strike is being conducted in an orderly manner. The business community is in a state of unrest as it is feared all unions may be drawn into a sympathetic strike, and an industrial war inaugurated.

The strikers will attempt to get the company's coal miners at Skiatook to walk out, and thus cripple the power plant.

THE SEATTLE STRIKE. Only Ten Cars are Idle—Demands Made by Men.

Seattle, Sept. 9.—Seattle is in the peculiar position this morning of having upon its hands a strike of one of the unions of the street car system and at the same time a full complement of cars in operation.

This morning the executive of the old union declared a strike because the president of the railway refused to grant any of the demands made by the union or to submit the demands to arbitration.

These demands, which were recognized by the union, the reinstatement of all men discharged by the company because of their connection with the union since the strike last March; a wage scale of 30 cents an hour, time and a half for overtime and equal holidays, and other unimportant demands.

When the order to strike was promulgated the great majority of the employees discarded their union badges and went to work upon the promise of the president that he would talk with a committee of men on the matter of increase in wages.

As a result all but ten cars are running. The effect of the strike will be to disorganize the Seattle branch of the Amalgamated Order of Street Railway Employees of America.

EXPLOSION IN MINE. Three Men Were Instantly Killed—Bodies Terribly Mutilated.

Everett Sept. 7.—An explosion in the Fride, otherwise known as the New Discovery, mine at Monte Cristo late yesterday afternoon, killed three miners and injured three, one of whom was a boy.

The accident occurred in a sort of "portal" just inside the entrance of the mine.

All three dead men were mangled beyond recognition. Not until the rock was called was it learned definitely who they were.

It was at first supposed that the accident was caused by the powder in the thresher exploding, but Mr. Kimball this morning said that that was not the case. When he went to the room after the accident he found the powder that had been in the thresher lying on the floor, unexploded.

He thought the accident must have been caused by the explosion of a box of caps. The men probably, while waiting to prime their charges, had supplied themselves with powder and put it in their pockets, and the explosion of the caps set it off.

FLED TO TORONTO. L. J. Stern, Indicted for Complicity in Alleged Fraudulent Contracts Has Been Located.

Washington, Sept. 8.—A dispatch to the post office department announces that Leopold J. Stern, who was indicted several weeks ago for complicity in alleged fraudulent contracts for furnishing carriers' satchels to the government, has been located at Toronto, Canada.

Toronto, Sept. 8.—Mr. Stern refused to be seen when reporters called at his home today. He referred all queries to his attorney. Mr. Stern's lawyer said that his client was ready to appear before an extradition judge and prove his innocence, which is interpreted as a declaration that extradition proceedings will be fought to the end, and that he will not leave the city. The attorney said that if an extradition warrant is served, Mr. Stern will at once leave for Washington.

RUSSIA IN MANCHURIA. Some of the Conditions of Evacuation of Provinces.

London, Sept. 9.—The Pekin correspondent of the Times telegraphs that M. Lessar, the Russian minister, in his note to the War (Wo) Pu enquiring that Newchwang and Moukden provinces should be evacuated by the Russians on October 8th, undertook that China will be permitted to resume administrative rights in three provinces of Manchuria, provided that on her part China undertake that no portion of territory shall be conceded to any other power; that no concession shall be granted to Great Britain.

According to the Times, the Russian minister has granted equally to Russia that there shall be no increase in the present import tariff on goods entering Manchuria by railway; that in the event of an epidemic at Newchwang, a Russian sanitary officer shall be appointed to deal with it; that Russia shall retain her own military telegraph along the railway and that the agencies of the Russo-Chinese bank in Manchuria shall be guarded by Chinese soldiers.

If the above conditions are agreed to, Newchwang and Moukden shall be evacuated October 8th, and the remaining province in due course. The correspondent, commenting on the foregoing, says: "It will thus be seen that in its objections to the proposals of the other powers the more objectionable features of the demands made by M. Plandon, (who was recently in charge of affairs in Pekin), have been omitted, and while Russia surrenders no material advantages, she has gained time and can rest content that China will never act in any way counter to M. Plandon's demands. Russia further hopes to pacify Japan's resentment by retaining absolute military control, and hoping now to be able to push to completion, undisturbed, military preparations."

LETTER FROM POPE. Confirming the Appointment of Four Cardinals as Commissioners.

Rome, Sept. 9.—It has been announced that Pius X. will publish to-day his first encyclical address to the Catholic hierarchy and people throughout the world, but this was incorrect. The Pontiff published to-day his first official document, consisting of a letter addressed to Cardinals Nuttali, Rampolla, Ferrari and Vivesy Tute, confirming their appointment by Pope Leo as a commission to commemorate the fiftieth anniversary of the Dogma of the Immaculate Conception. The letter, which is very brief, is followed by a prayer to the Virgin Mary, which will acquire importance as being the first to bear the signature of Pius X.

CITY AND COMPANY. Two Men Arrested at Vancouver on a Charge of Trespassing.

Vancouver, Sept. 9.—The city police, who were engaged from the engineering department, had a clash this morning with the workmen driving piles in the east end of False creek for the Great Northern extension. The city men opposed the trespass on the end of the street, though the latter is in the right-of-way. Finally the city men cut the pile driver's anchor rope, and the company's men retaliated by cutting the line attached to the city charges. Two workmen were then arrested and were charged at the police station with trespassing.

THE EXCELSIOR AGROUND. Steamer Stranded Near Wrangell—Crew and Passengers Camped on Shore.

Vancouver, Sept. 9.—Steamer Amur, arriving this morning from Skagway, brought news that the Seattle-Valdez steamer Excelsior was ashore on the end of Midway Island, near Wrangell. The steamer's main deck is apparently covered by water at high tide. The crew and passengers are camped on the shore.

ABOARD THE STEAMER. Lieutenant Abord the steamer came Lieutenant James, of the Mounted Police, who was bringing down three inmates of the minister. One of these escaped at Skagway and could not be recaptured.

RULER'S TOUR. Emperor Francis Joseph Will Visit King Edward, the Czar and the Kaiser.

London, Sept. 9.—The Daily Mail's correspondent in Vienna learns that the emperor is visiting London Emperor Francis Joseph intends to return the visit of the Czar and the German Emperor.

According to a dispatch from The Hague to the Daily Telegraph, the Queen of Holland is projecting a visit to the Czar during the coming spring.

Twenty-two hundred of the striking employees of the Seattle mills, Philadelphia, operated by John & James Dobson, returned to work on Monday. No concessions were made by the firm.

A WARNING NOTE FROM THE SULTAN

WILL CROSS FRONTIER TO PUNISH BULGARIANS

Another Christian Murdered at That —Foreign Consuls Ask That Warships Be Sent.

London, Sept. 9.—A dispatch to the News Agency from Constantinople says that the Turkish government is preparing a circular to the powers calling attention to the attitude of Bulgaria, and declaring the intention of the government to pursue armed Bulgarian bands in Macedonia, and even to Bulgarian territory.

The official and press reports from the Far East today emphasize the seriousness of the situation there, and confirm the belief of the authorities here that, owing to the general irritation throughout European and Asiatic Turkey, the official and press reports from the Far East today emphasize the seriousness of the situation there, and confirm the belief of the authorities here that, owing to the general irritation throughout European and Asiatic Turkey,

Disquieting rumors are current in regard to the situation in Syria. Bedouins arriving here from the Arish district are reported to be in arms, and fears are entertained of a massacre in Lebanon.

Official reports from Beyrout show the growing gravity of the situation there. Another Christian was killed yesterday. The Turkish soldiers are making common cause with the Mussulmans during the attacks on Christians. A number of houses have been pillaged, one French shop was destroyed and between 400 and 500 French residents, terrified at these depredations, have sought refuge at the French college. The American naval commander, it is asserted in the dispatches received here, proposed to land marines at Beyrout, but the foreign consuls believe the step to be inadvisable at this time, as it might lead to increase of the excitement prevailing and precipitate a crisis.

The dispatches proved himself too weak and incompetent to deal with the situation, therefore Neasim Pasha, the vali of Damascus, was ordered to assume the direction of affairs at Beyrout. Neasim Pasha, who has already arrived at his post, is displaying great energy. The consuls express the hope that he will be able to stem the disorder. The French warship is in the Gulf of Volo, Greece, but unless Neasim Pasha speedily restores order and completely safe-guards French citizens, France will act decisively by dispatching from Salonika.

Ask For Warships. Constantinople, Sept. 9.—Consular accounts received here from Beyrout are key toward the Christians as a result of the Macedonian revolt, the Sultan may be swept by the uncontrollable sentiment of his Ottoman subjects into a war with Bulgaria in spite of the unwillingness of the Porte to precipitate such a conflict. The Turkish officials express gratification at the Russian-Austrian proposal for coercive diplomatic action on the part of the powers at Sofia. They are confident it will be accepted by France; but, whether it is adopted or not, the Sultan's hand has already been greatly strengthened, as he is in a better position to act than heretofore.

There is no question in official circles that the Porte will take energetic measures to suppress any trouble at Beyrout.

Germany has asserted that she will not order warships to Beyrout. Great Britain, whose missionary interests in Syria are practically nil, has not as yet sent any vessels to Beyrout, relying upon the American warships to protect the consulates.

A high diplomatic authority reported today that Bulgaria had dispatched a vessel to the coast of the Black Sea fleet to Turkish waters. He asserted, however, that when Russia submits to the Porte her proposals for the pacification of Macedonia, she may dispatch her Black Sea fleet to Turkish waters, and it will make a much longer stay there than did the Russian squadron at Isafdia Bay. He added that Turkey could not be expected to inaugurate new reforms until order was restored.

The St. James's Gazette this afternoon says that an arrangement has been arrived at between Great Britain and Austria, which will come into operation under certain eventualities.

The Turkish embassy issued another statement today, declaring that the reports of massacres emanate from the Bulgarian side, and are purposely exaggerated in the hope of securing European intervention.

Thousands Have Perished. Sofia, Sept. 9.—The Macedonian inter-organization estimates that 150,000 women, children and old men are hurrying into the mountains and forests of Macedonia. The Turks are burning the

forests in the districts of Lerou and Kosbre, and killing fugitives who attempt to escape to the plains. The Vlach village of Copech, three hours distant from Monastir, has been burned by Turks, who are reported to have thrown several of the inhabitants into the fire. Thirteen thousand Turkish soldiers re-assembled on the frontier and plains at Kratovo and Gobechni, and are plundering the surrounding villages.

The general staff of the insurgents has issued a circular ordering the bands not to molest the peaceful Turks and abandoned villages.

All reports from the vilayet of Monastir agree in describing the situation as appalling. Between 30,000 and 50,000 Bulgarian inhabitants are believed to have been massacred by the Turks, and every Bulgarian village in the vilayet has been destroyed. The refugees in the mountains and forests are dying of starvation by the thousands. The revolutionary headquarters estimate that 30,000 Bulgarian men, women and children have been killed, while at least the same number of refugees are slowly perishing of hunger.

In official circles these figures are regarded as an under estimate and are believed to be inflated to the number of massacred excess 50,000. The Turks are apparently determined to exterminate the entire Bulgarian population of the vilayet.

Another Murder. Paris, Sept. 9.—The following telegram has been received from Cairo, Egypt: "Disquieting rumors are current in regard to the situation in Syria. Bedouins arriving here from the Arish district are reported to be in arms, and fears are entertained of a massacre in Lebanon."

According to the latest telegrams, however, the consuls continue to transact their business with Reshid Pasha. Beyrout advices received here late yesterday stated that uneasiness still prevailed among the Christians there, and that the exodus to the mountains had continued, but no fresh disturbances had occurred.

Rear-Admiral Cotton confirms the report that he can land five hundred marines and bluejackets from the Brooklyn and San Francisco in case of urgent necessity.

Nothing is known here as to any arrangement made by other powers for sending warships to Beyrout.

Private advices from Kirk Killisep state that while the Turkish regular troops are conducting themselves well, the Albanians are in insubordination and are pillaging and burning villages, and are even threatening their own officers when they are ordered not to plunder.

Up to September 7th twenty-seven battalions of troops had been concentrated in the Kirk Killisep district.

An imperial trade has been issued ordering the repair or reconstruction of the fortifications at Adrianople, Chatalja, Erzerum and the Bosphorus.

Demand New Governor. Washington, Sept. 10.—Minister Leishman called the state department Constantinople that the French ambassador has demanded the removal of the governor of Beyrout, and that other foreign representatives probably will do the same.

Mr. Leishman is vigorously urging the Porte to replace the governor by some one more capable of preserving order and of giving more efficient protection to American citizens and interests.

In this course he has the approval of the state department. Nothing is said in his cablegram of further disturbances.

A Change. Berlin, Sept. 10.—A dispatch received here from Constantinople says Nazim Pasha has been formally appointed vali of Beyrout, in place of Reshid Pasha, who has been dismissed.

Police Joined in Pillage. Paris, Sept. 10.—Advices received by the foreign office from Beyrout says that Nazim Pasha, the vali of Syria, is making a thorough investigation of the causes of the recent disorder, and he has given assurances to the foreign consuls that he will severely punish the guilty persons. Under the circumstances, it is added, the French, British and Italian consuls have decided not to ask for the landing of American marines, as contrary to the Constantinople advices the excitement has subsided and the Christian refugees who fled are returning to their homes.

The investigation thus far made into the outbreak has shown that the police participated in looting the shops and houses, the former vali, Reshid Pasha, being unable to control the police.

Turkish Cruelty. Sofia, Sept. 9.—Private letters received from European residents at Monastir give harrowing details of the situation in that vilayet. Destitute Bulgarian refugees, who are arriving daily at Monastir, relate almost incredible tales of Turkish cruelty. Sixty families recently arrived there from Smilovo, which place was totally destroyed. The refugees saw a husband and wife sitting in the ruins of their home, when a Turkish soldier slashed off the man's head and threw it in the woman's lap. The soldiers found a servant girl and several children hiding in a ditch. They outraged the girl and slaughtered all the children.

Numerous Bulgarian prisoners have been brought to Monastir. Twenty Bul-

garians who had been exiled were marched off, connected by heavy chains about their necks and ankles.

All Quiet. Washington, Sept. 10.—The naval department has received a cablegram from Rear-Admiral Cotton, dated Beyrout yesterday, stating that the arrival of the new Turkish governor-general has restored confidence. The governor-general has warned the local authorities that he will hold them responsible for disturbances. Admiral Cotton says that the city was quiet on Tuesday night, and is improving.

PRODUCERS ORGANIZING. Objects of Association Which Is to Be Established With Capital of \$100,000,000.

Chicago, Sept. 9.—Co-operation, backed by \$100,000,000 capital, is the plan proposed by the joint meeting of farmers and their representatives by which the producers of the country are to protect their interests. An association having this object in view is in process of organization here. Farmers and representatives from producers in associations in nine states are also in conference. Three societies are to be amalgamated as the foundation for a monetary exchange by which the producers of the country expect to control the markets, build elevators, establish packing houses, organize banks, maintain schools and improve the highways. These associations are the Producers' and the Consumers' Union of Tennessee and of New York, with 400,000 members, the American Society of Equity, of North America, with 60,000 members, and the Farmers' National Co-operative Exchange Company, with a membership of 20,000. It is proposed that the new association should be incorporated for \$100,000,000 at least.

MURDER AND SUICIDE. Carson, Nev., Sept. 6.—A strange story of murder and suicide has come from Shurz, a village on the line of the Carson & Colorado railroad.

An aged Indian named George Sam, unable to witness the sufferings of his young son, killed the lad with a shotgun and then, placing the muzzle of the gun at his own head, discharged the remaining barrel.

THE SEATTLE STRIKE. Company Gives Complete Service During the Day—Only Fifty-Six Men Quit Work.

Seattle, Sept. 10.—The situation in the street car strike this morning remains unchanged. The company is giving a complete service during the day and up to 8 o'clock at night, after which a half service is run.

This morning the company reported that only fifty-six men have quit the service because of the strike disorder, and that the company is rapidly recruiting new men. Within a day or two it is expected that the night service will be perfected, and then the effect of the strike will not be felt to the slightest degree. President Fairth expects to receive authority from Boston to grant the increase in wages, which he has asserted the men will endeavor to get for them. The strike is a total failure.

TRADES UNION CONGRESS. Leicester, Eng., Sept. 10.—The Trades Union Congress, at its session here today adopted by a large majority a resolution declaring for an eight-hour day in the United Kingdom, and urging that the subject be made a test question at the next parliamentary, the London county council and municipal elections. The parliamentary committee is instructed to introduce a bill into the House of Commons making the eight-hour day a law of the country.

The proceedings were temporarily suspended yesterday by a motion calling the attention of the labor congress to the Turkish atrocities, "which made the ears of every British subject tingle with indignation." A resolution on the subject was referred to a committee. A cable message from Samuel Gompers, president of the American Federation of Labor, congratulating the members was read amid much enthusiasm.

DIED AFTER FIGHT. Philadelphia, Pa., Sept. 10.—Six men were committed to jail to-day for the action of the coroner in the case of Oliver W. Knight, a local pugilist known as "The Killer," who died last night following a boxing match with "Gill" Jones in New York on Tuesday night. The defendants are "Gill" Jones, William F. Saul, manager of the Southern Athletic Club, John Mingle and John Durant, who are said to be interested in the club.

CZAR'S VISIT TO ROME. Rome, Sept. 10.—It is semi-officially announced that the Czar will arrive in Rome on October 24th, and will remain here three days.

Indignant protests have been aroused all over Italy by the announcement of the intention of the Socialists to make a hostile demonstration against the Czar.

RIOTS IN BELGRADE. Belgrade, Sept. 10.—A mob made a great demonstration last night against the newspapers which defended the army officers recently arrested. The crowd attempted to proceed to the Turkish legation, but was dispersed by the police. Many persons were slightly injured.

The grand stand, erected on a knoll on Fort Leavenworth reservation, close to the city limits, gave way on Tuesday, injuring twenty-five persons. None were killed. Many injured had broken legs. Fully 1,500 people crowded on to it. Just about the time the sham battle concluded the grand stand broke down.

Port Arthur, Tex., Sept. 9.—The steamer City of Everett, which took fire yesterday, is still burning and the Texas Company's oil derricks are entirely destroyed. The loss will amount to \$250,000.
