Uptown—The large number of rumors that were circulated last week regarding the market produced not a little skepticism in conservative circles. It is claimed that in years gone by such a batch of rumors generally foreshadowed the culmination of an appearance of supplies. No facts which would justify such a conclusion were adduced.

Mrs. Beamish, who was arrested for shop-lifting, was brought before Magnetic and now she is one of society's most charming leaders.

She still remembers her pauper days, and the kind heart of Mr. Hobbs. The other day she sent a large check to the clergyman in memory of what he had done for her. The money, she said, was to go towards furthering the charities with which he is associated.

A few days later a splendid carriage little skepticism in conservative circles. It is claimed that in years gone by such a batch of rumors generally foreshadowed he culmination of an Linward movement. These stories also crused conservative observers that the movement was due more to the activity of professional operators than to well defined plans of important bank.

The authority of the personage who spoke is so great that his prediction should be considered as practically sure, but there is no institution with which the profession of prophet is so risky as with the Vatican. It was only two years' ago that a coadjutor bishop with right of succession was to be appointed to one of the most important sees in the United States. As is alfollowing:

The arrivals from British North America during the past month have been 5,236, against 7,245 tons register during the corresponding month last year, and the aggregate tonnage to this date from all places during the years 1906, 1907, and 1908 has been 111,802, 102,643, and 105,875 tons respectively.

In the business of the past month ther is little change to report and the demand continues exceedingly quiet. Imports from the United States Dorse especially Pitch Pine and Oak Planks been 100 heavy, but otherwise the fact, when the case came before the fact, when the case came before the Congregation Propaganda on the request of Cardinal Gotti himself, it was indefinitely adjourned. However, shortly after the Prefect of the Propaganda fell ill, and on his recovery found that the Pope on his own authority, as he is entitled to do, had appointed just that bishop coadjutor.
