Morning Cotton Letter:—New York.

Morning Cotton Letter:—New York, lug. 11—Offering became even heavier In the last half hour yesterday and the decline on October extended to such proportions as to be hardly explainable upon any ground but an abandonment of the bull campaign by some, if not all, of the large long interests. The action on their part would seem lezical, particularly as the liquidation has taken place at a price which shows them a very small if any loss on their holdings. The crop scare which they probably felt justified in expecting dur-

was hurrying the trade toward the early marketing season, while at the same time strengthening the promise of an enormous yield without any such improvement in trade conditions as would suggest a scramble for spot cotton of sufficient present in trade conditions as would suggest a scramble for spot cotton of sufficient present in trade conditions as would suggest a scramble for spot cotton of sufficient present in trade conditions as would suggest a scramble for spot cotton of sufficient present in trade conditions as would suggest a scramble for spot cotton of sufficient present in trade conditions as would suggest a scramble for spot cotton of sufficient present in trade conditions as would suggest a scramble for spot cotton of sufficient present in trade conditions as well as the same time strengthening the promise of an enormous yield without any such improvement in trade conditions as would suggest a scramble for spot cotton.

week.

Mr. Hugh Miller, of Westville, N. S., is visiting friends in Fredericton.

Mr. R. P. Allen, city editor of the Fredericton to relieve the south of the pressure. Under such conditions the October position seem likely to become much less attractive in the near future and after yesterday's severe break remaining bull will probably find it very difficult to reinspire confidence in their proposition, so far at least as months later than September are concerned.

but granted a new trial. The case will family. His ship is to be extensively

therefore heard again.

The August sitting of the circuit adjourned from last Tuesday until today. At that time the case of Jones Co., Ltd. was finished. This morning Judge Landry delivered judgment. The plaintiff company sued for \$5000 damages alleging a breach of contract as regards sending boxes to them in England They claimed that they had ap option on the goods, and the defendant alleged that the option was not exercised within a reasonable time. His honor decided that as the plaintiff company did not exercise the option until after 34 days they had not any right to do so then. The

cise the option until after 34 days they had not any right to do so then. The defendant had put in a counter claim and judgment was delivered in favor of the defendant for \$233.50. Mr. H. A. Powell and F. R. Taylor for the plaintiff. Mr. M. G. Teed and W. A. Ewing for the defendant.

Anty Drudge Tells How.

Mrs. Kawler—"Well, I must be going. Now mind, you come and see me next week. Any day 'cept Monday. That's my wash-day,—and the house will be full of steamy soap-suds, and me too tired to make you a cup of tea."

Anty Drudge—"That's just the day I'll come. And I'll be there bright and early with a cake of Fels-Naptha soap. The wash will be on the line before noon—and the ironing done before night."

If you found it easier to do your washing on Tuesday than on Monday, you would change at once. Sensible women would! Yet there are some women who still wash clothes in the old-fashioned, hardrubbing way, just because their mothers taught them so.

Are you wearing out yourself and your clothes boiling and rubbing? Why not try Fels-Naptha soap? It's the new, modern way of washing. Use it in cold or lukewarm water—no boiling or hard-rubbing—and your clothes will be cleaner, whiter, and wear longer.

Follow directions on the red and green wrapper.

## MARITIME BOARD OF TRADE TO MEET IN HALIFAX

Time longer.

Destate of Archibald McLean, commercial treveller. Deceased cied 27 July, last, intestate, leaving a widow and an infant child. No real estate, personal estate \$460, life insurance \$1,000. Administration greated to the widow, Helen Leota McLean. John Willet, K. C., proctor.

Matter Manuelle.

Moncton to Halifax.

The fourteenth annual meeting of the (3) Resolution endorsing the All Red

BALDWIN'S MACHINE

had not decided to take any action as yet, but in all probability something would be done within a short time. It is understood a thorough canvass of the ward is to be made. Mr. Nugent in the meantime has made preparations for the reopening of his business in the neighborhood and will probably receive his license either today or tomorphore.

The fourteenth annual meeting of the Marine Board of Trade meets at Hallfax August 19th. It is expected that the attendance this year will be unusually large as some of the subjects stated for discussion are of the greatest interest to business men and the public generally. The different boards proposing questions will be supposed to be by Captain Thomas S. Baldwin will be accepted. "We are going to buy Baldwin's machine, we need it." said General James Allen, Chief Signal Officer, and yesterday he indicated that failure to comply with the speed requirements, will not prevent the purchase of the airship. It is generally understood therefore that the speed and endurance trials will merely determine the price to be paid for the dirigible. The first speed test will probably take place this evening.

The Christian Endeavor moonlight excursion will be this evening. The Stmr.

May Queen will leave her wharf Indiantown, at 7.30. Refreshments will be served on the boats. St. Mary's band will furnish music. Tickets 35c.

The Christian Endeavor moonlight excursion will be this evening the questions on them as they desire to have approved. One of the Nova Scotia boards will bring up the question of the survey with a view of shortening the line of the Intercolonial Railway between Moncton and Hallfax.

Following is a complete list of the subjects to be considered:

O. H. WARWICK CO., Ltd. 78 TO 82 KING ST.
