NOTE. 10th annual General Meeting of this Company will be held at Liverpool on the first Monday in February, 1856, when the Directors will present a statement of the affairs of the Company, and declare a dividend for the year 1855.

The Directors are happy to announce that the Company continues to meet with a very large share of public confidence and support, as evinced by the increase of its Premium Income, which in the year 1852 was £113,612, and in the year 1855 was £176,766.

These results show, notwithstanding the very numerous and destructive fires that have occurred both in this country and especially in America, that great caution has been exercised in taking risks, on the part of those on whose judgement the Directors must necessarily in a great measure rely. The reserved fund now amounts to £143,712.
