

THE ITALIANS ARE IN A FRENCH IN ALBANIA ADVANCE

IMPORTANT HEIGHTS ON THE EASTERN FRONT CAPTURED

Germans in France Still Continuing Retreat — Drenching Downpour of Rain Hinders Operations—French Take Three Villages on Aisne—What Berlin Has To Say.

Rome, July 23.—The Italians are continuing their advance in Albania. The war office announced today that Italian troops, pushing along the crest of Malisloves, captured Hill 900. Further to the east French parties occupied the heights on the left bank of the River Holta.

With the American Army on the Aisne-Marne Front, July 23.—(By The Associated Press) — Information reaching the intelligence department of the American army tonight indicated that the Germans were still continuing their retreat.

Far behind their lines they are being subjected to a heavy fire by both French and American guns, which doubtless is hampering the movement of their enormous supplies.

Weather Bad.

With the French Army in France, July 23.—(By The Associated Press) — A drenching downpour over the greater part of the southern battle field hindered the operations of both the Allies and the Germans last night and today.

Further north, however, French troops executed a remarkably brilliant minor operation between Moreuil and Montdidier, attacking and capturing three villages, around which some very heavy fighting occurred in March and April. They are Malisloves, Savilliers and Abvillers, all situated on heights overlooking the Aisne River. Their possession is of great importance.

Washington, July 23.—The progress of the Franco-American offensive continues "entirely satisfactory," Secretary Baker said today. The war department, he added, has nothing from General Pershing or Bliss later than The Associated Press despatches.

"We are talking more and more territory every day, and the progress because is entirely satisfactory," he said.

Berlin via London, July 23.—The headquarters report this evening says:

"There have been local engagements on the western bank of the Aisne between Soissons and Rheims. The Crown Prince's army frustrated a strong attack by joint enemy forces."

BOY DROWNED

Houlton, Me., July 23.—While bathing in Cold Brook, George Parker, fifteen year old son of Simon Porter of Golden Ridge, near Sherman was drowned. He slipped into a deep hole and two boys with him were unable to rescue him.

SHOOTING OF EX-TSAR

London, July 23.—Nicholas Romanoff, ex-Czar of Russia, was shot on July 16, according to a Russian announcement by wireless. The former emperor and Alexis Romanoff, the young heir, have been sent to a place of security. The message announces that a counter-revolutionary conspiracy was discovered, with the object of wresting the ex-emperor from the authority of the Sovereign Council. In view of this fact and the approach of Czerchovsk, the president of the Ural Regional Council decided to execute the former ruler, and the decision was carried out on July 16.

Mother, Why Don't You Take Nuxated Iron?

And Be Strong and Well and Have Nice Rosy Cheeks Instead of Being Nervous and Irritable All the Time and Looking So Haggard and Old—The Doctor Gave Some To Susie Smith's Mother When She Was Worse Off Than You Are and Now She Looks Just Fine.

Any Woman Who Tires Easily is Irritable, Nervous and Run-Down Should Take Nuxated Iron to Help Increase Her Health, Strength and Vitality.

"There can be no strong, healthy, beautiful, rosy-cheeked women without iron," says Dr. Ferdinand King, a New York physician and Medical Author. "I have strongly emphasized the fact that doctors should prescribe more organic iron—Nuxated Iron—for their nervous, run-down, weak, haggard-looking, irritable, and melancholy women patients. Pallor means anemia. The skin of an anemic woman is pale, the flesh flabby, the muscles lack tone, the brain fags, and the memory fails, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women the roses go from their cheeks."

"In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapoca, sago, farina, degenerated cornmeal no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods, and silly methods of home cooking, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for another source of iron loss. Therefore you should supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

"Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or

What is Your Answer? ... times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking iron in the proper form and this, after they had in some cases been going on for months without getting benefit from anything. But don't take the old forms of reduced iron, iron acetate, or tincture of iron simply to save a few cents.

The iron demanded by Mother Nature for the red coloring matter in the blood of her children is, alas not that kind of iron. You must take iron in a form that can be easily absorbed and assimilated to do you any good, otherwise it may prove worse than useless.

Manufacturers' Note—Nuxated Iron, which is prescribed and recommended above by physicians is not a secret remedy, but one which is well known to druggists. Unlike the older inorganic iron products it is easily assimilated, does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by Wasson's Drug Store and all other druggists.

LAND WIRES WILL BE TAKEN BY U.S. GOVERNMENT SOON

President Wilson Issues Proclamation Telling of Particulars.

GOVERNMENT TO TAKE CHARGE ON JULY 31

Cable System Will Not Be Taken—Wireless Already Controlled.

Washington, July 23.—President Wilson's proclamation taking over for the government the war operation of telephone and telegraph lines was issued today. It did not include radio systems and ocean cable lines. Government operation and control begins midnight July 31. Supervision control and operation of the wire systems is placed under the direction of the postmaster general.

The president's proclamation provides that the postmaster general, if so elected, may administer the lines through the owners, managers, boards of directors or receivers. It provides further that until the postmaster general directs otherwise, the present management shall continue.

The postmaster general in his discretion may hereafter relinquish in whole or in part to the owners any telegraph or telephone system over which he has assumed control.

NEW COMPANY AT CAMP SUSSEX

Orderly Room Staff, Musketry Instructors, Bands and Employees in One Organization.

Camp Sussex, July 23.—No. 5 company has been formed in the Depot Battalion and will be known as headquarters company. Capt. J. V. Kierstead will be in command with Lieut. J. W. Harmon as assistant. The company will comprise all the orderly room staff, musketry instructors and regimentally employed together with the brass and bugle bands.

Capt. G. L. Short is proving himself most efficient officer in command of the company and is fast putting his command in shape for overseas.

REGULAR DIVIDENDS DECLARED

The Dividends.

Regular dividends declared and interest in maturing obligations shall continue to be paid unless the postmaster general directs otherwise, and subject to his approval the companies may arrange to extend and extension of maturing obligations.

Postmaster General Burleson in a statement explaining his plans in operating the wire systems, said there would be no change affecting the press wire service except to improve it wherever possible.

The president did not exercise the authority given him in the resolution of congress to take over cable and radio systems. No explanation was given, but it was assumed that control of cables was not taken over because of difficulties presented by contracts cable companies hold with the government controlled by the navy department.

SOLDIER PAYS RESPECTS TO NO CIGARETTES TALK

Advices Women of Canada To Turn Their Attention To More Useful Occupations.

A letter recently received in the city from a soldier in France expressed in no uncertain terms the opinion of the writer on the "No Cigarette" speech of Mrs. George Wright, president of the Dominion W. C. T. U., who in her annual address "deplored the fact that so many women of Canada were sending cigarettes and tobacco to their men overseas."

The writer of the letter in question has been "over there" for three years, before existing had never smoked a cigarette, but, has found them useful in the front.

His comment follows:

"About the cigarettes that you are sending me I am enclosing a clipping from the Canadian daily Record about this. It is a pity that these women who are accepted as being intelligent, would not turn their wits to something more useful than this. I hope mother does not agree with these anti-cigarette advocates for if she does I would indeed be very much ashamed of it. I know she leaves it to a person's common sense, not to smoke too much, which is a wise procedure. If tobacco was as harmful as these people claim, does it seem reasonable that the army would supply a small quantity of it to the usual rations of bread. Some of the greatest ministers of Canada are out here and during difficult times they distribute cigarettes wholesale to the men. The Y. M. C. A. who will not allow smoking in any of their buildings in Canada, also hand Players cigarettes to the troops free of charge when things are particularly rough. I should like to talk to some of these women who have nothing else to do but attend tea fights."

STEAMER IN DISTRESS

Nantucket, Mass., July 23.—An airplane which landed at the village of Waquoit last night brought word that a steamer was in distress near Great Round Shoals about five miles off the eastern end of the island. The vessel was described as in need of immediate assistance but the nature of the damage was not disclosed.

The crew of the Coast Guard station has gone to the rescue. The sea is calm.

GRAY HAIR

Dr. Tremain's Natural Hair Restorative, used as directed, is guaranteed to restore gray hair to its natural color or money refunded. Positively not a dye and non-injurious. Price \$1.00. On sale in St. John by the Ross Drug Co., 100 King street.

NEW BRUNSWICK LADY IS DEAD IN BANGOR

Mrs. Eldridge A. Atherton, Formerly Miss Eliza J. Crawford of Cocagne, Passes Away—Sister in Moncton.

Bangor Me., July 23.—The death of Mrs. Eliza J. wife of Elbridge A. Atherton, occurred Sunday morning after a long illness.

Mrs. Atherton was born 50 years ago in Cocagne, N. B., coming to Bangor when she was 19. In 1892 she was married to Mr. Atherton. Besides her husband, she leaves four children, Myles M. and Hazel of Bangor; Hedley P. of the Canadian Forestry Corps, now in France, and Lillian of Bangor. She also leaves two sisters, Mrs. George Hope of Moncton, N. B., and Miss Julia Crawford of Bangor and three brothers, Eliza A. Crawford of New Brunswick, William J. of Chicago, and George A. Crawford of New York City.

Mrs. Atherton was a true Christian woman, a true member of the Essex Street Free Baptist church, a devoted wife and mother. She had a most lovely nature, and willing hands always ready to help others, and bore her long suffering with Christian fortitude.

The funeral was today.

HADDOCK PLENTIFUL IN THESE PROVINCES

Heavy Catches Being Landed Daily—Fish Sells For Ten Cents a Pound in Toronto.

Ottawa, July 23.—A bountiful harvest of haddock is being reaped by the Massing Provincial fishermen these days, and the shore fishing fleet is landing heavy catches, according to advices just received by the Canada Food Board. These boats go out to sea at sunrise, and set their lines from five to ten miles off shore. Returning with their fish in the afternoon, the haddock, in splendid condition, are dressed and packed for shipment as soon as landed, and the sea food special of the Canadian government railway transports cars to Toronto three times per week.

Haddock is being sold in Toronto at 10 cents per pound, and the Food Board is urging that it be used freely as a summer diet, while it is plentiful.

WESTMORLAND COUNTY HAD TWO HUNDRED CASES OF SMALLPOX

Majority in Parish of Shediac—Forty Houses Under Quarantine.

Special to The Standard.

Dorchester, July 23.—At the semi-annual session of the Westmorland county council which opened here during afternoon members of the board who were congratulating themselves that Westmorland had been fortunate in escaping the smallpox scourge which prevailed in North Shore counties during the past winter and spring, received something of a surprise when smallpox bills were presented. It was generally thought by councillors that there had been but few cases in the county outside of the City of Moncton, but the Board of Health for smallpox, totalled something like \$2,100.00.

It transpired also that more than two hundred cases had been treated in the past few months in the county. The great majority of these cases existed in the Parish of Shediac. At the present time it was stated before the public accounts committee forty houses are under quarantine in Barchois, Parish of Shediac, for smallpox.

TWO CLOSE CALLS IN AIR BATTLE

French Aviators Wrecked During Violent Storm Land Safely.

By Wilbur S. Forrest.

(Special Cable to the N. Y. Tribune and The St. John Standard.)

London, July 15.—Virtually blown to pieces in mid-air during a violent storm with Pilot and observer clinging to the planes and safely landing within the French lines, is the unvarnished exploit of two French aviators in a recent reconnaissance mission on the Somme front. The tale comes from a French aviation camp where a detachment of aviators were witnesses to one of the most remarkable battles with the elements and escape from what seemed certain death. It is probably the first incident of its kind in the history of aviation.

Violent Storm.

A French observation machine was called upon to ascend during a violent thunder and windstorm for important observation work over the German lines. When at a height of several thousand feet, the members of the escadrille below saw the turret and its machine gun stripped from the craft by the gale. The observer's seat was next to go but the occupant, grasping the wing stays clinging to the swirling plane. The craft was whipped about in the sky at will and the crew completely stripped from the fuselage. Both pilot and observer were clinging to their stripped craft when it reached earth after a series of loops and turns, the most acrobatic practiced by allied "aces." Both occupants escaped serious injury. Another machine, storm driven far from its base at a height of several thousand feet, landed within the German lines. Three Boches rushed up to take prisoners its occupants but were met with bursts of machine gun fire. The pilot, conscious of imminent capture, drove his plane over shell holes tree trunks and the storm in preference to German captivity. He landed unharmed within his own lines.

NO AGREEMENT WITH THE G. T. R.

Hon. Arthur Meighen, Hon. J. A. Calder and Three Premiers Arrive in Canada.

A Canadian Atlantic Port, July 23.—Included in a party arriving here today from overseas are Hon. Arthur Meighen, Hon. J. A. Calder, Senator McLehlan, of Sydney, Senator White, of Montreal, and three provincial premiers—Premier Norris, of Manitoba, Premier Martin, Saskatchewan, and Premier Stewart, Alberta.

HON. ARTHUR MEIGHEN.

Hon. J. A. Calder, Senator McLehlan, of Sydney, Senator White, of Montreal, and three provincial premiers—Premier Norris, of Manitoba, Premier Martin, Saskatchewan, and Premier Stewart, Alberta.

Ottawa, July 23.—The Evening Citizen claims to have learned that negotiations which have been proceeding in London in connection with the purchase by the government of the G. T. R., have come to an agreement, but arrangements have been made whereby the company will carry on for another year. The Citizen states that Hon. Arthur Meighen and Hon. J. A. Calder, who reached Canada today bring word to that effect.

BISHOPS APPOINTED

Rome, July 23.—The following appointments have been made by the Pope today:

Mgr. Michael J. Gallagher, Coadjutor or Bishop of Grand Rapids, to be Bishop of Detroit; Mgr. Terence G. Brady of Dubuque Cathedral, to be Bishop of Baker City, Ore.; Mgr. Christopher Byrne, St. Louis, to be Bishop of Galveston; Mgr. Arthur Drossaerts of New Orleans, to be Bishop of St. Anthony, Texas; Father U. John Nicholas to be Dominican Bishop of Duluth; Mgr. Julius Jennard, Chancellor of the Archdiocese of New Orleans, to be Bishop of the new diocese of Lafayette, La.

Dr. George C. Murray

The death of a native of Little Shemogue, Dr. Murray, took place a few days ago at Bellows Falls, Vt. Dr. Murray, who was a nephew of Mrs. Silas E. Jones and Blair Murray, of Murray Road, had made preparat-

HORSE, CARRIAGE AND BOY RIDES ON PILOT

Moncton and Buctouche Train Strikes Rig in City—Boy and Horse Injured.

Moncton, July 23.—An accident occurred today when a horse, driven by Emilie Minier, was struck by the incoming Buctouche train, at the St. George street crossing.

The horse, carriage and boy were all carried on the cow catcher about five rods up the track toward Victoria street, before the train could be stopped.

Emilie Minier is about 14 years of age and it appears to be of a nervous temperament, subject to fainting spells. This morning just before reaching the crossing the boy fainted away. The horse consequently had no direction from his driver.

Chief of Police Rideout and Officer Richard were promptly on the scene with the ambulance and the boy was conveyed to the hospital, where it was found on examination made by Dr. Bourque, that he was not seriously injured.

The animal is owned by Louis Attis a meat dealer. Its side was badly torn. The horse no doubt will recover from its wound. The wagon had its shafts broken and its two forward wheels completely ruined.

FIREBUG APPARENTLY BUSY IN MONCTON

A Number of Small Blazes Started This Week.

Moncton, July 23.—Two small fires of incendiary origin, were started in the city last evening within half an hour of each other and it looks as if a dangerous fire-bug is busy.

The first blaze was started at the rear of Keith's Billiard Parlors shortly after ten o'clock. A number of papers, boxes etc., are piled there. Mr. Cormier, who occupied the upper part of the building at the rear, happened to look out of his window and noticed that the boxes and paper lying in the back at the rear of the shop occupied by Mr. G. E. Foster Keith, were ablaze. He immediately notified Mr. Keith who was in the store and he with the aid of others in the shop extinguished the fire before it had assumed serious proportions.

About eleven o'clock a second blaze was reported to the police by A. J. E. Westmore, who, on his return home at about that hour had discovered that a blaze was in progress at the rear of his laundry on Church street.

Investigation proved that it was plainly a case of incendiaryism. Kerosene oil had been sprinkled all over the wall of the building at the rear. The wall was covered with tar paper. Little or no damage was done as the fire was caught in the nick of time.

A fire occurred in a freight car at the yard before.

About eleven o'clock a second blaze was reported to the police by A. J. E. Westmore, who, on his return home at about that hour had discovered that a blaze was in progress at the rear of his laundry on Church street.

UNABLE TO FIND THE SUBMARINE

U-Boat Which Shelled Cape Cod Made Her Getaway Southward.

Boston, July 22.—All the facilities at the command of the first naval district were brought into play today in a search for New England waters for the German submarine which attacked and sank three barges yesterday off Cape Cod within view of the Orleans shore. Though the port of Boston was not closed, merchant ships and other unprotected craft were warned of the danger of leaving the harbor.

The submarine was headed south when last seen yesterday, but naval authorities expressed the opinion that the boat might bob up again off the New England coast and were prepared for any eventuality.

A feature of the attack yesterday near Orleans was the fact that the submersible opened fire without warning. In all other reported cases of attack upon American coastwise boats, warning was given.

DESIGNS ON CANADA

New York, July 23.—That Teuton conspirators planned, even after this country's entrance into the war, to use German reservists to invade Canada and Mexico, is indicated in seized correspondence of Dr. Frederick August Richard Von Strensch when arrested recently was described by the officials as a former protégé of Bismarck. Yesterday he was described as a relative of the German emperor.

The object of the proposed invasion, according to the authorities, were to hamper the despatch of Canadian troops abroad and to join armed Mexicans for the purpose of making an attack upon the United States.

A Safe Artificial Food for Baby

Nature's milk is best. But where nature fails, parents make no mistake, run no danger, in adopting Borden's Eagle Brand for baby. It's safe and easily digestible, healthful, and well known for three generations.

Especially in Hot Weather Eagle Brand is valuable, and welcome to baby. It precludes indigestion, and builds a strong body.
