Our Creed---

We believe in the City of London; in its present prosperity, and its future greatness.
We believe that London is a city worth living in; that its citizens are worthy citizens of a world-wide city.
We believe that London is a city worth locating in; that its business is worth striving for.
We believe that the development of London is just starting; that this city is today at the beginning of a great industrial expansion.
We believe that the next year will bring to London development surpassing that of any ten-year period in her history; that it will bring many large industries and a great increase in population.
We believe, with Theodore Roosevelt, that:
"Every person who invests in well-selected Real Estate in a growing section of a prosperous community adopts the SUREST and SAFEST method of becoming independent, for REAL ESTATE is the basis of all wealth."
* * * and lastly, we believe that in the City of London today is the greatest opportunity in Canada for the investor in Real Estate.

Our Vows---

That "Truth" shall be the foundation upon which our every transaction is built.
That we shall in all ways be a credit and an asset to this city, so doing business that our name may be a guarantee of dependability.
That courtesy and tact shall be the keynote of all dealings with our clients.
That our representatives shall be men whose character, honesty, and integrity is beyond question.
That our clients' interests shall at all times be protected; that their dealings with us shall be profitable and pleasant.
That we shall work for the general good of this city in every way.
* * * and lastly, that we are here to stay and to grow with the city; assisting, in our own small way, in its growth, and by that growth being ourselves developed, until we shall become, in Real Estate, what London inevitably will be in Canada's industry, a LEADER.
