The Evening Mercury

TUESDAY EVE'G, JULY 3, 1888. HENRY WILMOT, M. P. P. for Frontenac, died suddenly Sunday night.

THE Government at Ottawa make n delay in arranging for bye elections in every constituency but Cardwell, but the trouble there is that the antag. onistic Tory factions cannot be re-conciled, and so the election is put off.

THE Government during the past two months has been paying the interest on loans. The amount paid last year was about nine and three quarter million dollars, and the figures this year will be larger. The funded debt payable in Engiand a year ago.was \$171,000,000, and the amount payable in Canada was \$19,000,000. This is independent of temporary loans and trust funds.

It seems that no one but a Governor-General in person can swear in a lieutenant governor outside of the province he is to control. Had Governor General Stanley been in Ottawa at present Lieut. Governors Royal and Schultz could have been sworn in at the capital, but in his absence Privy Council Clerk McGee bas to accompany Their Honors to the respective capitals of their provinces in order to administer the oath of

On Saturday Mr. Justice Osler fixed Tuesday, the 2nd of October, as the day for trial of the East Northumberland Dominion election petition against the return of Mr. Cochrane, Conservative M. P. for the Riding. The petition was filed on the 12th of March, and as and Klopfer and Mr. Jas. Goldie. the time for trial would, according to the decision of the Supreme Court of Canada in the Giongarry case, be up on the 12th September, an order was made on consent extending the time for trial till the 1st November.

In the appeal of the St. Catharines Milling and Lumbering Company from the judgment of the Supreme Court of Canada, confirming the right of the Outario Government to deal with the lumber in the lately disputed territory, the solicitors for the Dominion Government have given notice of the intention of the Government to intervene and become a party to the suit. The suit has hitherto been conducted solely in the name of the St. Catharines Milling and Lumbering Company. The Dominion Government have been constantly urged by the Ontario Govern ment to take this step in order finally to decide the question, but have hitherto refused. The case opens of the 10th July.

Some of the Tory papers are trying to make capital against the Mowat Government in connection with the regulations and fees for admission to the Niagara Falls Park. The Teronto World puts the matter in its true light in the following paragraph : - " The Park and Falls are free; visitors who wish to drive over to certain islands and who wish to go by elevator below the Falls in rubber suits are charged 10 cents in the first case and 50 cents in the other. We think this is right. We do not see that the people of Ontario should be taxed to provide rubber suits and elevators for tourists (many of them from outside Ontario) who have plenty of money to pay the reasonable charge that is made. The interest on the money sunk in the park is over \$20,000 a year, besides the cost of maintenance, and the rich who go maintenance, and the rich who go
there ought to bear their phare of this
as well as the people of ontario. The
great fact is that the land about the
Falls has passed into the hands of the
people, that extert on has been banished, that the great wonder is free to all,
and the prospect is that as visitors in
crease in numbers the commissioners
will be enabled to reduce the fees now will be enabled to reduce the fees now _charged for extras." >

The Central Bank.

Judgment was delivered on Saturday by the Master in Ordinary in the cases of Home Savings & Luan Co., Dwight, and Howard, which was not included in the general judgment given on Friday. As it general judgment given on Friday. As in the former decision, all the parties are put on the list of contributories, and all the objections raired are disposed of.

After the delivery of judgments, Mr. Leftoy asked to have Judge Ardagh's case stand over with the others on which no decision had been given. He affirmed that an arrangement had been made with Mr. Keir that all these oners shald be argued together. In September. The Master consented to a delay if an affidavit were put to to that effect.

Mr. Berwick made a similar application on behalf of Bull and Gzowski. The Master decimed to consider the application.

Mr. Alexander Galt obtained permission to put in the evidence of the directors and officials in the Nuemith case.

The amended list of contributories is now published.

New Publications .- Mr. Wm. Bryce, more of his Canadian copyright books The title of one is "Philippa Fairfax," b The title of one is "Philipps Fairfax," by Frances, Hodgeon Burnett, author of "Little Lord Fauntleroy." If this recent production approaches the natural simplicity and touching sloquence which rous all through the tale of "Little Lord Fauntleroy," it will well repay perusal. "The Mystery of St. James Park" by John Bloundeile Burton, is the title of the other story. The price of each is 250, cents, and they can be procured at the bookstores or from the publisher direct.

The election in the Isle of Thanet, divi-

The election in the Isle of Thanet, divi-tion of Kent, to fill the vacancy in the House of Commons caused by the death of sion of Kept, to hit the values of House of Commons caused by the death of Col. E. R. King-Harman, was held on Monday and resulted in the return of the Conservative candidate, James Lowther, by a majority of 658, he receiving 3.547 votes against 2.889 cast for his opponent, Knatchbull Hugessen, Gladstonian, At the previous election, King-Harman, who was a Conservative, was returned by a majority of 2,088.

GUELPH JUNCTION YS GRAND TRUNK.

Lively Session Before Railway Committee.

The difficulty between the Guelph Junction and the Grand Trunk in regard to crossing the Grand Trunk lot at Inglis' bridge to reach Goldie's mills had another hearing before the Railway Committee of the Privy Council at Ostawa on Saturday Our readers know that the contract between the city and the Canadian Pacific requires that the Guelph Junction should reach Goldie's mills. 'The Grand Trunk made no open show or resistance until the building of the road was under way, but when it came to expropriation of the G. T. R. land required to reach the mill the Grand Trunk showed their hand and started in for a bitter fight. The Guelph Junction directors have sought in vain to come to some compromise in the matter short of abandoning their object, but the Grand Trunk engineers and solicitors treated their advances with contempt. The meeting on Saturday was held in

the office of the Minister of Railways. Mr. Pope, however, was not present, the Railway Committee of the Privy Council being made up of Sir Hector Langevin, who presided, Mr. Carling and Mr. Thompson. The first business taken up was the consideration of the G. J. R. application. - Mr. S. H. Blake, Q.C., and Mr. Pops, Belleville, from the office of Mr. John Bell, G.T.R. Solicitor, represented the Grand Trunk, and were assisted by Mr. Joseph Hobson, G.T.R. engineer, Mr. Walter Shanley, M.P., and Mr. Kennady, engineer of the Montreal Harbor Commissioners, Hon, R. W. Scott, Q.O., and Mr. Jeonings, engineer, appeared for the Canadian Pacific, and the Oity and Guelph Junction were represented by Mayor Maodonald, President Bell, D. Gathrie, Q.C., solicitor, engineer Davis, Assessor Chadwick, Alds. Gowdy

Davis, Assessor Chadwick, Alds. Gowdy and Kleepfer and Mr. Jas. Goldie.

The Gaelph Junction at first made application to reach the milt by asking for running powers over the Grand Trank switch, but at the suggestion of Mr. Goldie, who promised to extend his mill to accommodate an independent switch, a line was sketched whom would reach the end of his mill without using or crossing the Grand Trunk switch. This was accepted by the Gueiph Junction, but the G. T. R., without bring able to offer any sound reach therefor, still objected, Mr. Blake contending that the line should be kept as far away from the Grand Trunk as possible, and suggesting a switch down by the river. Mr. Scott put forward a double-barrelted argument why this should not be done. In the first place he represented that the line laid down on the plans presented was the alignment adopted for the main line of the Guelph Junction railway, and it would not-be just to cause a de viction of the line just to please their opponente. Then there were engineering difficulties in following the path so kindly chosen by Mr. Blake. Mr. Goldie protested against the line which Mr. Blake in his extremity finally suggested, because it would interfere with the road to the rear of his mill, thus injuring his 1stremer's trade, besides causing great additional exof his mill, thus injuring his termers' trade, besides causing great additional ex-

A document was produced and read by A document was produced and read by Mr. Blake with reference to Mr. Goldie's arrangement with the Great Western in regard to the Spur line, for the purpose of showing that they were entitled to the sole use of the switch on Mr. Goldie's land, but when the document came to be carefully examined, it was found that it showed nothing of the kind. After a showed nothing of the kind. carefully examined, in was found crass to showed nothing of the sind. After a deat of chaffering the chairman stated that the Committee would take the matter into consideration and would probably in the meantime have the locality examined

The Grand Trunk tried to make out The Grend Trunk tried to make out that it was rajust to them to have the traffic taken away from them, after building a spur time for Mr. Goldie's banefit. But it was shown that the Great Western had originally built the Spur line to Goldie's mills for the very purpose of competing with the Grand Trunk for its traffic. It seems now they wish to prevent the Guelph Junction doing the very thing the Great Western originally did.

ADVICE TO MOTHERS.—Are you disturbed at night and broken or your rest by a sick offild suffering and orying with pain of Cutzing Teach? It so, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. He value is incalculable. It will relieve the poor little sufferer numediately. The New Temple at Grimsby Park.

The opening of the new temple at Grimsby Park was attended on Monday by nearly 5,000 people from various parts of the adjoining country. The new temple, which will seet about four thousand people, consists of an immense dome or canopy ninety-five feet high and 350 feet wide. About 200 000 feet of lumber and five tons of nails were used in its construction. The building is 103 feet high over all, and 480 feet wide from verandah to verandah. It is covered with 2,500 yards of canvas and rests on a stone foundation. The total cost reached nearly \$9,000. The Beamsville band furnished the music on Monday.

Rev. Dr. Griffin, in the course of a stirring address, characterized the building as a wonderful, original, magnificent, and astounding structure. He regretted Sir John Macdonald's absence, but was ready to extend a hearty welcome to him, because he had heard the right hon. gentleman had joined the Methodist Church, and the discipline required him to bave all charity towards his brethren. (Laughter.) He had a standing offer of a gold medal for the man who could tell the difference between a Grit and a Tory. (Laughter.) He was proad of Canada, and declared that this country would never be annexed to the United States. (Applause.)

Addresses were also given by Rev. Dr. Stephenson, New York; Mr. S. F. Lszier, Hamilton, and Vice President E. Galley, Toronto.

The dedicatory service will be held next
