

# Fad in Edmonton

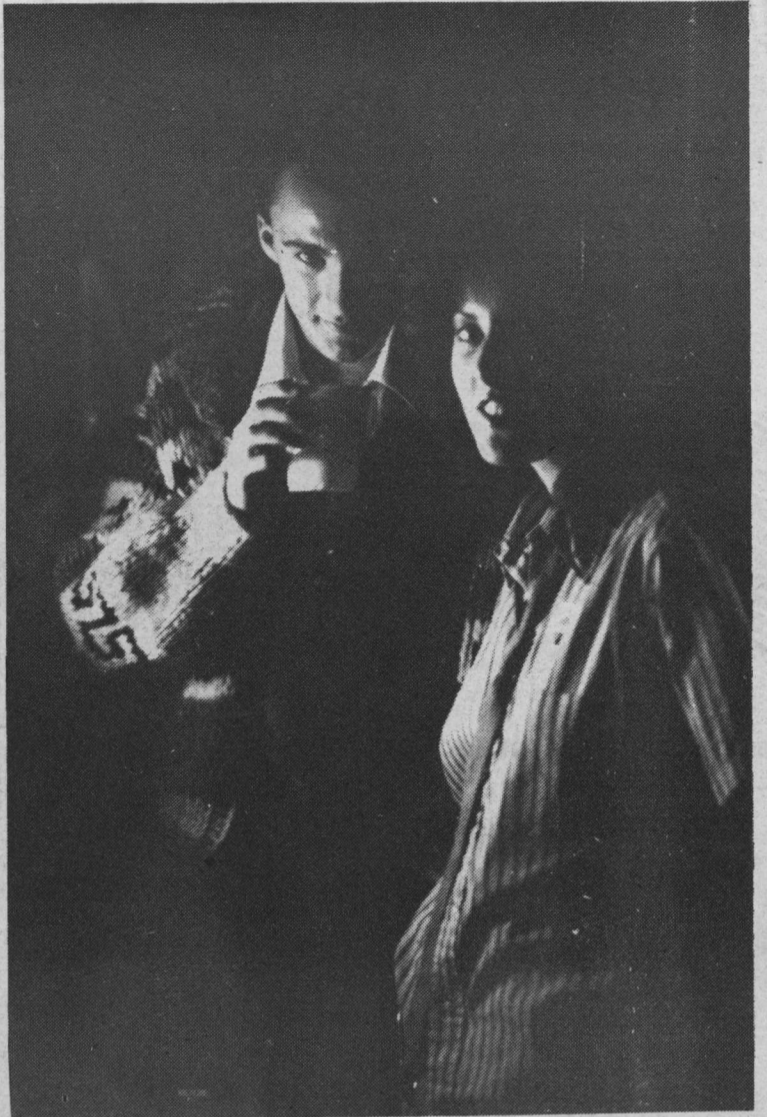

ce that is expressed in  
earance is something  
back into the closet  
weekend. Whereas the  
ene was full of symbols  
like' haircut being  
to the long hair of the  
ippie that actually  
something, Edmonton's  
e is fashion, albeit of a  
ble and limited kind.  
the tradition that made  
ean attractive as an  
'closet punks' emulate  
ks because they are

that doesn't have any

et punks" know that  
is rotten in society,  
eudo-hippies did. But  
in nothing that is  
by many is vicarious  
ness, plain and simple.  
fashionable to be  
then let's do it, O.K?  
ap. Boyd has a better  
ding of this so-called  
lture: "People into

nd but doesn't here.  
general have a respon-  
to be intelligent,  
and cultured" To him,  
energy level of punk  
is importance.  
ouver punk bands like  
ohumans and the  
tes display a violent  
ious attitude onstage,  
hem it's slightly more  
o discern whether it's  
r not. Useless, the

aspects". Their songs  
My Dick" and "Death  
koids" were, as far as I  
frantic songs without  
ning. Wimpy explain-  
"it's hard to lead a  
life in this biz."  
ough that's all he has  
l says that "The Club"

thing else, much of the  
"The Club" displays is  
nd interesting, in that  
bience of energy  
the atmosphere. It's  
nd it's raw, and for  
s is what we've been  
But remember, if you  
see the Female Hands
