My Dear King -

I am spending a day here with my brother who is the manager of the Dominion Tire Factory - and am leaving for home from 10:30 to tomorrow night - reaching Regina on Thursday.

I thought I would mention in regard to when you should run - I intended giving you my views when in Ottawa but forgot in my haste to see Calder before I left. To my mind you should not run in Quebec East. It will be a huge mistake in the other Province. Given Ontario East - why not Glasgow. This can surely be arranged. Remember the English speaking Province know that the Quebec vote saving the Convention to you and if, on top of this you take a part in that Province the result will not be good: on the contrary it will be the subject of serious criticism.

I saw Calder - He is not unfriendly to you and I have no doubt he will talk to you at the first opportunity. Calder will not run
