

Motor Oil Made By Graduate Workmen

Used Where Duty Demands Utmost Power

- in automobile or tractor
- in motor boat or aeroplane
- in gas engine or motorcycle
- in motor truck or any form of internal combustion engine

En-ar-co National Motor Oil will give utmost satisfaction—a matchless lubrication service. This uniform oil means more power, less carbon—longer life to the motor and least upkeep expense.

Note How En-ar-co Refiners Have Solved Motordom's Lubrication Problem

MOTOR users face a problem of motor oil selection that puzzles even the most experienced. Hundreds of brands confront them. Many are good. Some excel others.

But which oil to use is perplexing. "Why should I use this brand in preference to others?" is a question often asked.

Oils excel as do the men who make them.

When nature made the crude, she knew no favorites. Refiners received the same raw materials. All were supplied alike.

Then certain fundamental methods were perfected. Formulas were developed. Tests were standardized. The crude followed much the same routine from the wells, through the refinery, to the finished product. Yet these lubricants differed. Often a refiner's own product changed from time to time.

How En-ar-co Quality Originated

En-ar-co systems now change all this. We knew there was something more than mechanical methods. And so we started at the beginning—with the workmen.

We established well defined standards of efficiency. Each man passed through a primary course of refining instruction. Then through the higher grades of En-ar-co training. As these high standards were attained, the workmen were awarded their degree.

Now each workman strives for his master degree. For without it he is not entrusted with the responsible tasks.

Scientific Refining

Thus we have developed Scientific Refining. We have eliminated all quality fluctuation. We have produced the best that skilled men can make.

For 35 years we have given the world a lubricant that is uniform—En-ar-co National Motor Oil.

We ask only that you try En-ar-co National Motor Oil. Regardless of the motor you use, whether in automobile, tractor, motor boat or engine, your investment demands that you lubricate with oil made by "men who know"—men who are graduate workmen.
